FIELD-CUT IT FAST

Every hour you save is important. Flavor, feed value, and color fade quickly. Capture that quality! Home-harvest big tonnage with the Allis-Chalmers Forage Harvester.

Spiraled, cupped knives in the Allis-Chalmers Forage Harvester cut heavier tonnage with less power, and far less labor. Silage is uniformly chopped, short and clean... not chewed or shredded. The knives are power-sharpened right in the machine.

Be ready to put up silage when it's highest in feed value with your own Allis-Chalmers Forage Harvester. See us about this big-capacity machine that takes less power to operate.

OBITUARY

Edgar C. Clore, son of B. W. and the late Alberta Clore was born March 16, 1915. He departed this life August 9, 1953, age 38 years, 4 months and 24 days.
 His death came suddenly and as a great shock to this community when he had the misfortune of being struck by a hit-skip driver while on his way home.

Edgar spent his entire life in this community with the exception of the period of time he served with the military forces during World War II.

He was a member of a pioneer family of Ryles on his mother's side, who were the first to settle in this part of Boone County.

Edgar was a farmer being employed by Craig's Grocery for the past several years.

He leaves behind to mourn his loss his father, who is now a patient in Christ Hospital; one sister, Mrs. Hazel Riley, of Colorado; uncles, neices, nephews, cousins, and a host of other relatives and friends. His mother preceded him to the grave seven years ago.

He will be missed by his friends, but we know these would be Edgar's thoughts if he were here:

"Remember me when I am gone away,
 Gone far away into the silent land,
 Only remember me, you understand
 It will be late to counsel then or pray.

Yet if you should forget me for a while
 And afterward remember, do not grieve,
 Better by far you should forget
 And smile

Than that you should remember
 And be sad.

CARD OF THANKS

We wish to take this opportunity to thank our friends and neighbors for the many cards, flowers and visits while I was ill in the hospital. We appreciated your kindness very much and it will never be forgotten.

Boone County's Burley Crop Being Housed This Week

Crop Is Of Good Quality In Field, According To County Agent.

It is tobacco cutting time in Boone County, Joe Claxon, County Agent, announced this week. Tobacco growers throughout the county are cutting the burley crop. Tobacco is the highest cash crop of Boone County farmers.

There is, on the average, an excellent crop throughout the county even though there have been many diseases and insects to control. This year's crop is of good quality in the field, and providing there is good curing weather, it should be of excellent quality at the time of marketing.

Rain is badly needed throughout the county, and many crops would be greatly benefitted by rain at this time. Mr. Claxon warned tobacco growers not to cut green tobacco, but to let it ripen before cutting.

Many Improvements Made At Camp Ernst In Recent Years

Burlington Group Highly Entertained At Camp Friday Evening.

Several Burlington residents availed themselves of the opportunity to visit Camp Ernst Friday evening of last week. The visitors enjoyed swimming in the filtered blue waters of the new pool and some enjoyed boating in colorful little boats on a sizeable pool in the creek nearby.

O. M. Wiseman, camp director, conducted a tour of the camp. Visitors viewed the immaculately clean kitchen and dining room. Upon inquiring about the wonder-

ful aroma coming from the ovens, the group was told that turkeys were being roasted in preparation for the next day's festivities.

Following a long winding trail the group visited the "Temple of Trees," so named because the trees surrounding it come together as if to form a roof over the little chapel. The benches, pulpit stand and fence around it are made of stone carried one at a time by the campers as they went up for chapel every morning.

At night when meetings are held there, the trail and chapel are illuminated by candles. Every Sunday morning the services from the chapel are broadcast on radio.

Another diversion enjoyed by campers are movies shown in the evening under a shelter, especially built for this purpose. At 8:00 p. m. a movie was shown for the entertainment of the Burlington group.

The Recorder extends congratulations on the fine work the YMCA and Mr. Wiseman have done in the thirteen years he has been camp director. It is a healthful and most enjoyable place for any youngster to spend a part of his or her summer vacation.

John M. Rachal Named Manager of C. I. D.

John M. Rachal, native of Boone County has received the appointment of manager of Carrier International Division. An article carried in Carrier International News, follows:

Since he joined Carrier in 1928, John Rachal has held various executive positions in the engineering and sales phases of Carrier's foreign business. Before his appointment as Manager of the International Division he was General Sales Manager of the Division, in which post he was in charge of C. I. D.'s entire sales and distribution organization.

He attended one of Carrier's first engineering training schools and upon completing his course was assigned to Export Sales Engineering. He soon became Manager of Carrier's Foreign Department.

Soil Testing Proves Profitable To Boone Crops, Says Agent

Failures Are Due To Low Soil Productivity In Most Instances

Testing of soil has proven to be profitable on row crops, alfalfa crops, and permanent pastures, according to Joe Claxon, County Agent.

Many farmers in Boone County had their soil tested last year and were able to buy their fertilizer to meet their need for the crop they were raising.

A soil test will help determine the amount of plant food needed for the crop that is to be grown. How much lime, phosphate, and potash the soil needs will be determined by having the soil tested.

Many failures of crops, new pasture seedings and old pastures, are due to the low soil productivity. Most permanent pastures should be dressed with limestone and fertilizer to keep them in high yield.

Through a soil test you will be able to determine the amount of fertilizer and limestone needed to top dress.

According to Joe Claxon, County Agent, late summer and fall is a good time to have soil tested. By doing so, you may purchase your fertilizer needs early getting the kind of fertilizer needed and at a cheaper price.

All farmers are urged to bring their soil samples to the County Agents' office. The soil will be tested for lime, phosphate and potash, at a cost of 70 cents per sample.

Boone County Methodist Ministers Are Selected

Appointment of Methodist ministers for Boone County churches were announced following the annual meeting at Eastern State College, Richmond.

Dr. R. R. Patton, superintendent of the Covington district, reported the Boone parish discontinued because the conference thought it no longer wise to provide financial subsidy for a parish director, as has been done for the past six years. The separate churches will now have to provide all funds for pastors, as other churches in the district do, Mr. Patton said.

Boone County pastors named are as follows: Big Bone and Hughes Chapel, Elmer Kidwell; Burlington and Petersburg, H. B. Holland; Florence, C. N. Ogg; Walton, G. W. Hoffman.

Taylorport and East Bend will be supplied.

Dr. R. R. Patton was reappointed superintendent of the Covington district.

Let drought or freezing weather come... you'll be prepared if you have plenty of nutritious silage stored away.

Handling heavy silage crops is an easy, power-saving job with an Allis-Chalmers Forage Harvester.

The heart of this machine is a rugged, 3-foot wide cylinder with four specially case-hardened knives. They are spiraled to give a continuous clean-shearing action... cupped to throw each knife of chopped material into your wagon or truck... power-sharpened right in the machine.

Ask us to demonstrate this big-capacity Allis-Chalmers Forage Harvester, the power way to have plenty of feed for your livestock.

Boone County Schools Will Open September 8th

Beginners Must Be Six Years Old By December 30th, Word.

Boone County schools will open September 8th, it was announced this week by H. N. Ockerman, County Superintendent. Several new teachers have replaced some who taught last year.

New teachers added this year are as follows: Jean Houston, Mary Ellen Lucas, Betty Herold, Charles Caple, Owen Hauck and Grace Whitcomb. A large part of these will be found in the Florence school. At present the board still have four vacancies to be filled.

All beginning children must be six years old by December 30th, and must present a birth certificate before they can be enrolled in school.

This year there will be a larger enrollment at Burlington, New Haven and Bellevue over last year, due to the loss of the Hamilton school. The Board of Education would like for all concerned to realize that this is a temporary emergency and all must cooperate for the time being.

All parents who have children living in the Hamilton school district, regardless of where the children attended school last year, must abide by the following: All children on the bus route of Bud Aylor will attend New Haven school; all children in grades 1 through 5 on the bus routes of Nannie Bodie and Elizabeth Stephens will go to Bellevue; and all children on these two bus routes in grades 6, 7, and 8 will go to Burlington. The children in the Bellevue district in grade 6 will come to Burlington this year. The Board stresses that this is an emergency and your cooperation is expected.

A teachers' meeting will be held at Burlington school Saturday morning, September 5 at 10 o'clock.

Top Grades Of Fertilizer Are Best Buys, Says Agent

Amount of Plant Food In Fertilizer Is Of Importance.

Top grades of fertilizer are called the best buys, according to Joe Claxon, County Agent of Boone County. Farmers buying fertilizer for this fall and next season should remember that it is the amount of plant food in the fertilizer that counts.

"The cheapness of the fertilizer depends mainly on the price of the plant food in it and not on the price of a bag or ton," Experiment Station men said. "Often fertilizers which are cheapest a bag or ton cost the most for the actual plant food in them."

This example is given: The 4-12-8 grade (24 units of plant food) is a higher-grade fertilizer than the 3-9-6 grade (18 units of plant food) and 3 tons of 4-12-8 contains the same amount of plant food as four tons of 3-9-6.

The cost of bagging, handling and transporting a ton of low-grade fertilizer is the same as the cost of high-grade fertilizer. Also in the low grades, materials which have no fertilizing value may be put in to make weight.

Having soil tested will help in buying the correct grade of fertilizer that is needed for the crop that is to be grown. Take your samples today and have them tested.

New Community Market Building Nearing Completion

Will House Denniston's Grocery; Opening To Be Announced Soon.

For the past few months a large building has been under construction in Hebron at the intersection of Route 20. Only recently did it become generally known that this is the new home of Denniston's Grocery, previously located across the highway in the old Masonic building. The new building, measuring forty feet front and seventy-five feet in length, incorporates within its 3000 square feet all the features of a modern Super Market, with attractive streamlined shelves trimmed in aluminum, gleaming cabinets, freezing units and meat and vegetable departments, with a display of foods and groceries.

Besides the usual stock of everyday items there are many special products in every department. Out-of-season fresh vegetables and fruits, frozen pies of fruit and meat, steak patties, fish delicacies, party ice cream, a whole section of cookies and cakes delectably presented in cellophane bags, a refrigerated meat counter, canned goods and Chinese specialties. Paramount among the interesting features that distinguish this merchandise mart from the ordinary country store are the conveniences of self-service, wide aisles and ample parking space. Attractive decorations have been added to the strictly utilitarian values, making the store an inviting and pleasing place to shop in.

Mr. Denniston states, however, that this is no super market but rather a Community Market made possible by the loyal patronage of the people of this neighborhood during the past six years. This expansion has become necessary to keep pace with the increase in population and to provide the people of Boone County with the finest food market available today. Announcement of the formal opening will appear in this paper soon.

Bullittsburg Baptist Church Plan Revival

The Bullittsburg Baptist Church announces that it will hold revival services beginning Sunday, September 14, and continuing through Sunday, September 20. Services will be held each evening during the two week period at 8:00 p. m.

New Haven and Florence Eliminated During Past Week

Championship Series Started Tuesday Night At Burlington.

Tuesday night of last week, Burlington traveled to New Haven to give the Boosters a 14-0 drubbing in the Boone County Fastpitch Softball League. New Haven played loosely in the field and Burlington capitalized on every mistake made by the losers.

Joe Hall was in top form as he set the New Haven hitters down with only one hit, which came in the last of the seventh inning with one out. T. Gulley and Smith each had two hits for the winners. Hubbard was credited with the loss.

Petersburg played their best game of the season in eliminating Florence Thursday night by a score of 15-1. Fine fielding plays by "Sho" Wolfe and Ted Stephens were the highlights of the game. All Petersburg hitters got into the act. Bill Burns was the winning pitcher with Kennedy the loser.

New Haven drew Burlington again Friday night and traveled to Burlington to be eliminated by the Burlington nine. The score was 4 to 2. Joe Hall was on the hill for the winners, giving up two runs and 5 hits, while Hubbard allowed 4 runs and 7 hits to the winners.

T. Gulley was Burlington's leading hitter with two, while Clinkenbeard had two for New Haven.

Burlington and Petersburg tangled Tuesday night in the first game of the best two-out-of-three for the Boone County championship. Results will be given in next week's issue of this paper.

Mrs. Anna Smith

Funeral services for Mrs. Anna Elizabeth Smith, 86, of Bellevue, were held at 11 a. m. Saturday at Bellevue Baptist Church, with burial in Bellevue Cemetery. Chambers and Grubbs, Florence funeral directors were in charge of arrangements.

The happy young couple will be at home to their many friends in Burlington after their two-week trip in Florida.

Mr. Maurer's condition is reported as somewhat improved Tuesday afternoon having been moved from the isolation ward.

Sponsors of the event state that the largest crowd ever to witness a ball game is expected Friday night. No admission will be charged at the gate, but a free-will offering will be taken.

The North team will be composed of players from Burlington, Petersburg and Kenton, while the South team will be represented by New Haven, Florence and Walton. Officials from leagues in the Greater Cincinnati area will donate their services it was reported.

Florence Residents Given Opportunity To Cast Straw Vote

On Proposed \$500,000 Sewer System; Each Owner Eligible To Vote.

Whether property owner of the City of Florence want and are willing to pay for a \$500,000 city sewer system will be determined by the town board of trustees through a "straw vote" ballots for which were in the hands of residents Friday.

Each homeowner will have opportunity to cast a vote for or against construction of the system. Ballots are to be mailed to William Fitzgerald, city clerk.

In the same letter with the ballot was a statement on the need for the sewers and the approximate cost to each owner. The letter is signed by Mayor G. R. Scott and Trustees Dr. John H. Bustetter, Sam Denham, Don Mager and Frank Trego.

"The financing of the sewer system," the letter states, "will be divided into two parts. The sewer mains laid within the city will be financed by an assessment against the property fronting on them."

"The disposal plants and the lines to carry the sewage from the city to the plants will be financed by issuing bonds. These bonds will be paid off by a service charge against each user of the sewers."

"It is estimated that the sewer assessment will be about \$4 a frontage foot and that the service charge will be approximately \$3.50 a month for each user."

"After it has been agreed that the sewer system is to be constructed, several months will be required to complete engineering, legal and financing details. Bids will be called for and contracts let. Construction will require about 12 months."

To Prepare Ordinance

"After work has been completed, an ordinance will be prepared assessing cost of the sewer mains to the fronting property. Payment of this assessment is to be made within 30 days after date of the assessment ordinance."

"Property owners will have approximately 18 months in which to prepare for payment of the assessment."

"Present sewer lines serving most residences could be modified to connect with the sanitary sewer mains and the amount can be estimated by the owner's plumber. The city does no part of this work."

Groundwork for the system was laid by the town board in July when it passed four resolutions of necessity. These state the system "is necessary for the health and welfare of the residents of Florence."

Are Identical

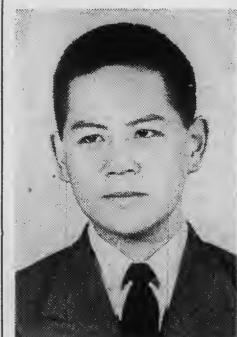

These resolutions are identical except for the streets named in them. Mr. Fitzgerald said they were decided upon rather than just one resolution to enable the contractor to get a part of the money as the job progresses rather than to wait until completion of the whole system.

Streets which will have the improvement include:

U. S. 25-42, known as Main Street, from Kenton county line through old portion of town to the intersection of U. S. 42-25 at Standard

Florence Menaced By Water Shortage, Says Mayor Scott

Appeal Made To Gov. Wetherby; Emergency Is Severe.

The severe water shortage which has plagued Florence and other communities along the Dixie Highway ever since the onset of the present drought has led to an appeal to Governor Lawrence Wetherby, by Mayor George R. Scott, of Florence.

Mayor Scott said the emergency in his community was so severe that the appeal to the governor was made even though it was not clear just what the chief state executive could do in the matter.

The cities of Erlanger, Florence and Elsmere have been struggling for 13 months to form an organization to draw water from the Boone County bottoms area. As yet, Mayor Scott, said, they had been unable to agree.

The water shortage has made Florence "ripe for disease" and in serious danger in the event of fire, Mayor Scott said. "Very few homes in Florence, Erlanger and Elsmere, have water 24 hours a day. Most residents in Florence, he continued, have dry faucets from six to 11 p. m. every day.

Florence firemen have made a survey of the area regarding location of cisterns, in the event of fire.

Missionary Work In Japan To Be Discussed At Bellevue Church

Anyone interested in Japan, the missionary work there and the great need for Christ in that country, are invited to the Church of Christ, Grant, Kentucky to hear Matthew Ikeda Sunday morning, September 6, 1953.

Five years ago Matthew Sakio Ikeda was a high school senior in Tokyo, Japan, today he is a graduate of the Cincinnati Bible Seminary and serves as a student instructor. Five years ago he knew no English; today he speaks correct English and teaches Japanese to English-speaking people. Five years ago Matthew was not a Christian; today he is one of the most zealous Christian workers of this generation.

Matthew is in constant demand as a speaker for banquets, youth rallies, and church conventions. He is a forceful and thought-provoking speaker. His messages sparkle with his ready wit which he employs so successfully to illustrate his point. Recently, at a youth banquet, Matthew remarked that his American friends have difficulty in understanding his English, and now his Japanese friends claim that his Japanese has a Yankee accent.

Dr. and Mrs. T. D. Price and family, of Louisville, were Sunday dinner guests at noon of Mrs. Nora Weaver and son, Albert, and Miss Myrtle Beeman and in the evening, of Mr. and Mrs. Fred Lincke and daughter.

55-Day Waterfowl Hunting Season For Kentucky Announced

A 55-day waterfowl hunting season for Kentucky has been assigned by the Fish and Wildlife Service with the opening day being November 17 and the closing day January 10. The season is the same length as for last year but with some min-

or changes in the bag and possession limit and seasons granted for woodcock and jack snipe. Earl Wallace, Commissioner of the Department of Fish and Wildlife Resources, pointed out that Kentucky could have had a split season of 25 days each but in accepting these it would have sacrificed five days of hunting. It was decided then to accept a continuous season and thereby gain the five extra days of

hunting.

Shooting hours for this season are to begin one-half hour before sunrise and continue until sunset, Central Standard Time, except on opening day when shooting will start at 12 noon. Last season the shooting was stopped one hour before sunset.

Duck season for this year begins on November 17 and continues through January 10. The bag limit is four with a possession limit of eight, which may not include more than one wood duck. The season on geese is the same as for ducks, with a bag and possession limit of five which may not include more than two Canada Geese. The dates of the coast season are the same as for last year with bag and possession limit again being ten. A 40-day season was granted on woodcock, to begin on November 20 and continue through December 29. The bag limit for this species is four per day and a possession limit of eight. A jack snipe season also was assigned, for the first time since 1941, to begin on November 20 and continue through December 4. Bag and possession limit for jack snipe is eight.

METHODIST WOMAN'S SOCIETY

August 13 members of the Woman's Society of the Florence Methodist Church and a number of guests assembled at the church at 1:30 for a fellowship covered dish luncheon which was enjoyed by the group. The regular society meeting followed with invocation by Mrs. Mortimer Moss. Mrs. C. S. West, vice president introduced Mrs. Eddie Moran wife of the evangelist, who was conducting a revival at the church at that time, who narrated the travels of she and Rev. Moran in foreign countries including Rome, Egypt, Lebanon, Damascus, Syrian Desert, Israel, Jerusalem, Bethlehem, Bethany, Mars Hills, Greece, Switzerland, London, Belgium, Scotland and others. She related their crude and unsanitary ways of life in some instances and in Egypt their guide told them his country is hostile toward America and is waiting for the time to join Russia in war against our beloved country. They are probably loaded with propaganda. Mrs. Moran's talk was enjoyed immensely and she closed by saying she is thankful to be an American.

The program included the song "What a Friend We Have in Jesus" and prayer by Mrs. Velma Colvin.

Reports of officers were heard and the usual business discussion was followed with prayer by Rev. S. J. Bradley for the dismissal.

Members attending were Mesdames Mortimer Moss, S. J. Bradley, Nannie Mitchell, Paul Chaney, A. T. Knox, Eva and Ida Miller, Leila Allen, Lena Jones, Ella Bethel, Mrs. C. S. West and Rev. S. J. Bradley. A number of guests were present whose names we did not learn.

RESOLUTIONS OF RESPECT

Whereas, God in His infinite wisdom has seen fit to remove from us by death, one of our most earnest and active workers, Mrs. Helen Buckler. Though she is with us no longer in person, our loving memory of her shall live on and on forever.

Whereas, she was willing at all times to assist in any worth while cause for her Society, Church or friends of the community. Therefore, be it resolved that the Ladies' Aid Society of Bellevue Church of Christ in her death has lost one of its most beloved members, her parents a kind and loving daughter, her husband a devoted and understanding wife.

Be it further resolved that the Ladies' Aid Society extend our heartfelt sympathy to her parents, her husband, and to her friends. We commend them to our Heavenly Father's loving care.

Be it further resolved that a copy of these resolutions be spread on our record book, a copy sent to her parents, a copy to her husband, and one to the Boone County Recorder.

FIRST CALF BORN IN AMERICA FROM FROZEN SEMEN

The first live calf ever known to have been born in America from frozen semen was "dropped" on the farm of John and Melford Hill of Rt. 1, Janesville, Wisconsin, Friday morning, May 29th, 1953 according to a report released this morning by the Wisconsin Scientific Breeding Institute, an American Breeders Service, in Madison, Wisconsin.

E. O. Conrad, Manager of the Institute reported that a number of artificial breeding organizations are experimenting with the use of frozen semen in artificial insemination, but to date, as far as is known, this calf is the first in America that has resulted from the frozen semen process.

Conrad pointed out that the British were the first to conduct experiments in successfully freezing and thawing semen. They have been successful in keeping semen frozen and of good quality, for as long as one year. A number of calves have been born in England. The Wisconsin Scientific Breed-

ing Institute, a non-profit organization, in cooperation with the American Foundation For The Study of Genetics, a publicly-endowed, research center at Madison, repeated the experiments of the British scientists and have bred over 2,000 cows with frozen semen, some stored as long as 4 months.

This marvelous discovery can very well make it possible for a single proved bull to have possibly as many as 100,000 offspring through artificial breeding. While now three out of every four cubic centimeters of unfrozen semen is wasted, with frozen semen, every cubic could be used. There will be fewer bulls in the stud, but better bulls producing many more offspring.

This discovery will make possible a far wider distribution of the influences of great proved sires. It will be possible for the average farmer almost anywhere in the country to have the mating of his cows to the best breeding bulls in the world at probably no more than the regular charge now being made. Semen banks will be the answer! Commercial breeding organizations will build up banks of semen from their sires during the slack breeding season, thus obtaining the most economic use of the bull. These semen banks will make it possible for dairymen to have service from a bull long after he has died. In natural service it is considered good if a bull has a few hundred offspring. Artificial breeding has boosted that figure

into the thousands, and now with frozen semen, it could very well be into the hundreds of thousands. Although frozen semen in the popular sense may seem a simple process, a tremendous amount of research and study is still being actively pursued by the researchers at both the Wisconsin Scientific Breeding Institute and The American Foundation For The Study Of Genetics.

Semen to be alive and of good quality must of necessity be frozen carefully through the low temperature range of 40 degrees Fahrenheit to 110 degree Fahrenheit (temperature of dry ice) and there held until used. The British scientist discovered that this could only be done by using glycerol as a buffer with semen, properly cooled. The action of glycerol in the solution prevents injury to the sperm during the freezing and thawing.

The Wisconsin Scientific Breeding Institute is managed by the American Breeders Service of Chicago, the world's largest privately owned artificial breeding organization. The six ABS studs will breed over 800,000 cows this year with fewer than 150 proved sires. Rock County Breeders, of Janesville, Wisconsin one of the 285 organizations using ABS service, cooperated in the experiment, and their inseminator Berlyn Gruber, artificially bred the cow having the first calf.

REAL ESTATE

30 ACRES—3-room house, furnished complete, nice cottage for summer camp, or nice enough for a home. Close to river, but above high water; has 9 acre tobacco base; on good road, about 10 miles from Burlington. Owner must sell. Only \$3,900 is full price, furnished. Worth much more.

70 ACRES OF LAND—Plenty of water, tillable acreage and pasture land, good barn, nice building sites. Here is a real bargain only 4 1/2 miles from Burlington on good road; only \$50 per acre. Don't be fooled because it's so cheap. This is not a rugged mountainside like you would expect to get for that price. It's good farm land; has tobacco base.

Repair, Not Scrap

By George Peck

(Editor's Note: George Peck is Chairman of the Board of the National Labor-Management Foundation and Executive Editor of its official publication, PARTNERS). In the United States of America, prior to World War II, the average

worker earned enough money in one hour and twenty minutes to feed a family of five for one day. In Great Britain and France, it took a worker more than three hours; in Belgium almost four hours; in Italy six hours; and in Russia ten hours to accomplish the same purpose. Due to the many raise hikes in this country since the war, the American worker enjoys today even a greater advantage

over works in other countries.

There are two principal reasons why the American workingman is able to achieve so much more in a given time than the workers in any other country:

(1) America has the finest system of producing and distributing wealth among all classes that has ever been devised.

(2) We have developed man's friends, the machine, to a higher degree of efficiency and productivity, than has any other nation.

This American system (call it by any name you prefer) enabled this nation during World War II to produce the materials of war, not only for our armed forces, but for our Allies as well, which played such a tremendous part in winning victories over Germany and Japan. Since the war, that same system has enabled us to supply the need of our own citizens and to send billions of dollars to other less fortunate nations.

Yes, in spite of these glorious achievements there are still some among us who deign to suggest

that we abandon this system of private ownership, individual initiative, opportunity and competitive enterprise — a system which has stood this nation in such good stead both in peace and in war; to have us adopt one of the systems such as are in effect in countries that have needed and have been given, some of the fruits of our system.

It hardly seems credible that one single American workingman, who has thought the matter through would choose to work from three to ten times as many hours, in order to earn enough money to obtain creature comforts for himself and family. But, that is exactly what he would be forced to do, if this country ever is foolish enough to discard the American System and replace it with Communism, Nazism, Fascism, Socialism or Fabianism (all the same under the skin). Knowing that we now have the finest system, and also realizing full well, that in spite of this superiority, it is still far from perfect, let's put our heads together to devise ways and means for eliminating its imperfections and weaknesses.

When some mechanical part of an automobile gets out of order, do we impulsively throw the whole machine away, overlooking the past marvelous and efficient performance of the car? Or do we exchange it for another vehicle which we definitely know to be inferior? Certainly not! We proceed to do something about that out-of-order part. We repair it.

By the same token, we are not going to throw away or exchange our American System because it needs a few repairs. The American Way always has been to go on from here, not to scrap what has been tried and proven, but to build better and sounder, learning from the past mistakes how to avoid them in the future.

England made the sad mistake of letting the socialists take over. The English standard of living deteriorated. Almost too late our British cousins realized their error, that government in business is bad business. They voted out the socialists and elected the Churchill government in the hope that it could repair the damage. Even the great Winston is finding that it is much easier to socialize than to de-socialize. But he is making a valiant effort and already the lot of the English has improved greatly since he was restored to leadership.

With England's unfortunate experiment confronting us, if we are the smart people we believe ourselves to be, we will turn deaf ears to the glib-tongued collectivists who sneer at the American System under which we became the greatest nation on earth, and which has provided the most things for the most people.

Surely we will continue to repair and improve, not scrap, the American System, just as we have done ever since the Founding Fathers, in their wisdom and with God's Guidance, gave it to us.

ERODED LAND PAYS OFF IN SIX YEARS

How a badly eroded 50 acres had been made into a productive farm in six years was explained by Mr. and Mrs. Erett Nash when 372 farmers and farm women recently gathered at their place in Grayson county. The Nashes are enrolled in the Farm and Home Development Program of the University of Kentucky.

The farm was bought for \$3,100 in 1946. Limestone was applied at the rate of 4½ tons an acre, plus a ton of phosphate and 200 pounds of potash. No corn or tobacco is grown. Forty-eight acres are in fescue, orchard grass, lespedeza and red clover.

A grade A dairy of 14 cows produced 60,000 pounds of milk the past year, worth \$3,587, and 40,000 broilers added \$8,400. Two broiler houses 40 by 100 feet cost \$7,200 and remodeling the dairy barn and installing grade-A equipment cost \$1,200. Two wells and two ponds furnish water to the house, dairy barn and poultry houses.

Plans of the Nashes include increased production of the land and use of artificial breeding to build a herd averaging 8,000 pounds of milk a cow.

While the small house on the farm was remodeled and made modern, plans call for a new house within the next two years.

The meeting was arranged by R. T. Faulkner and William Britt, county agent and assistant agent of Grayson county, and Priscilla L. Lytle, home demonstration agent. Lunch was provided by local banks and served by the Grayson County Homemakers Association.

WHEN THE WEATHER IS HOT, FEED BIG LUCY!

One gallon of Big Lucy poured over the grain ration helps supplement failing pastures.

Cows relish Big Lucy and makes them drink lots more water. Since milk is 87% water, a lot of water is vital to high milk production. If preferred Big Lucy may be mixed with your grain ration or fed alone.

Smith, who will remain for an extended visit.

Sorry to report the illness of Mrs. Elwood Tanner, who suffered a paralytic stroke at her home on Erlanger Road.

Miss Jessie Gordon and sister, Mrs. Mamie Bullock, of Hebron attended services at the local Chris-

Elbert and family enjoyed a day at Coney Island.

The Missionary Society of the Florence Christian Church is sponsoring a special program Thursday, Sept. 3 at 8:00 p. m. at the church. Mrs. Geo. Brown, group leader of women's activities of the Erlanger Christian Church will present the program. This is being planned especially for you and you should be present. Refreshments will be served.

Recently Wm. Davis, our former County Agricultural Agent, now in the same line of business in Pakistan, sent word that he was in need of a car, stating that they are very costly where he is and requested

one from here. A car was obtained from Scothorn Motor Co. and was delivered to New York the latter part of last week by Mr. and Mrs. Joe Dringenburg, who returned by plane. Incidentally the car was the one that Karl Keim, of Tucson Arizona traded in on a new Plymouth while they were visiting here a few weeks ago.

Boone County farmers planning to seed wheat for green manure, cover crop, or hay for 1954 must have approval of the County PMA Committee, prior to seeding time, it was announced this week.

All farmers who have a wheat allotment and intend to seed wheat for green manure, cover crop or hay in excess of their allotment must also have prior approval from the County Committee before seeding time.

Total of 5,339 Cars Assessed By Co. Commissioner

Goin of 236 Vehicles Shown Over Figures One Year Ago.

There were 5,339 automobiles assessed by the tax commissioner of Boone County this year, according to a report from the State Department of Revenue. The number in the county last year was 5,103.

The total for the state in 1953 is 536,732, a gain of 21.3 per cent over 1952, when the figure was 442,549. Fayette County showed the largest percentage gain, jumping from 7,530 in 1952 to 21,028 in 1953, a gain of 179.3 per cent.

The large increase in the number of vehicles assessed this year was attributed by the department to 1952 legislation by the General Assembly which provided that county clerks weekly pass copies of vehicle registrations to tax commissioners for property tax purposes.

According to the law, the registration goes to the "appropriate" tax commissioner. Thus, if a person registers his automobile in a county different from his residence, the clerk of that county sends the copy to the commissioner where the owner resides and he is still assessed for the vehicle.

Soil Testing In Boone County Has Proven Beneficial

Results Are Outlined By County Agent; High Production Follows.

Soil testing in Boone County has given some results that will be of interest to all farmers. The soils tested in the Boone County Soils Laboratory which is the same as the soils laboratory that is used at the University of Kentucky is under the direction of Stanley R. Eichholz soils technician.

In a summary of soil tested in the spring of 1953 there are some of the outstanding results: For samples tested for tobacco to be grown 97% showed that there were no need for limestone, 34% showed need of phosphate, while 66% showed high and very high in phosphate with a requirement of 60 to 80 pounds of phosphate per acre.

On fields that had not been in tobacco in previous years the potash was greatly needed. Fifty-four percent of the tobacco land was low to medium in potash deficiency. All tobacco is a great user of potash.

The results of the alfalfa land tested, 81% needed to have two tons of limestone applied per acre with only 19% needing no lime applied. The phosphate test showed 68% of the test needed 80 to 160 pounds of actual phosphate per acre while only 32% needed no phosphate. In the potash results there was a great deficiency with 87% being medium to very low, meaning a 60 to 120 pound of actual potash needed per acre. For alfalfa hay, with a yield of 4 tons it will remove 180 pounds of potash from the soil.

There were tests made on pasture land, corn and garden. Each showed a need of potash. From results, we can see the need of testing soil to grow crops in order to have a high yield per acre. Take your soil to have it tested to the county agent's office.

GOOD LIGHT for HOME STUDY

Watch your children as they study. See if they squint, stare, or strain to see. If they do, and if they tire quickly, it may be due to poor lighting in the study area.

The study area should have over all lighting to do away with harsh shadows. In addition to this, a higher level of light at the work area is essential. Where a table or desk is used, the top should be dull in finish and light in color for greatest eye-ease. One simple, inexpensive way to accomplish this—use light colored desk blotters.

See your appliance dealer for the latest type of STUDY LAMPS and Lighting Equipment.

MORGAN FARMERS SEE MODERN DAIRY BARN

The dairy barn was of chief interest at the recent Farm and Home Field Day at the Harold-Rose place in Morgan county, according to a report of UK County Agent Charlie Dixon.

The barn was remodeled in 1952, a milking parlor and milk room added and a well dug at a cost of \$1,600. Increased returns from grade-A milk already have paid for the cost of the improvements, the visiting farmers were told.

Labor-saving features in the remodeled barn include an overhead feed bin, with spouts used to carry the feed down to the cows. The milk is moved only a short distance and there is no lifting of cans. Likewise, there is no lifting of feed, since the barn is in a bank, with the loft floor level with the truck bed.

Good night pasture provides graz-

ing in the cool night air, resulting in increased production and decreased costs. In one month milk from the 23 Rose cows sold for \$800 with a feed cost of \$135. Four acres of Sudan grass were grown for summer feed.

The Rose house is completely modernized with electrical equipment for running water, bathroom, cooking, ironing, churning, freezing and television. The kitchen is adequately lighted, with work centers for preparing and serving meals and washing dishes. There is adequate and convenient storage space.

Furniture has been selected for comfort and convenience. Mrs. Rose discussed her decorating program, as she had learned in her homemakers club. Color combinations of walls, ceiling, curtains, floor coverings, slip covers and the like were all noted and discussed.

HOMEMAKERS EXHIBIT HANDMADE ARTICLES

Homemakers in Caldwell county displayed approximately 130 handmade articles at the county fair, all of them representative of the work done as a result of projects studied in their clubs, said Miss Wilma Vandiver, home agent with the University of Kentucky.

Included in the eight booths of exhibits were refinished and upholstered furniture, hooked rugs, aluminum trays, pieces of etched glass, tailored dresses of cotton and linen, framed pictures, lamp shades, reed baskets and articles decorated with textile painting.

Vegetables and fruits were shown, also.

UK CIRCULAR DEALS
WITH CURING BURLEY

The ventilation of the barn should be given first consideration in the

curing of burley tobacco, says Jack N. Krueger in a new circular of the University of Kentucky called "Heating Practices and Equipment

for Curing Burley Tobacco."

A third to a half of the barn walls should be ventilator doors. This will give adequate ventilation for air-curing, provided tobacco is not crowded into the barn, it is stated.

"However, if tobacco remains in high case for more than 24 hours, then heat should be used to bring the tobacco down to the correct dryness for proper curing." The primary purpose of firing is to control the humidity in the barn, but "firing in a properly filled burley tobacco barn during favorable curing weather is not necessary."

Mr. Krueger discusses the distribution of heat. Uniform heat distribution is achieved by using an adequate number of stoves, each

burning at a moderate rate.

Fuels used in curing tobacco include coke, fuel oil, natural gas, and propane gas. Coke is considered inexpensive, but requires a good deal of labor. The stoves are started outside the barn and then moved in. They should be attended at least twice a day. Control of coke heat is called difficult and heat output is not uniform.

Natural gas is considered good fuel for curing tobacco. Its cost is said to be less than that of any other satisfactory fuel. Propane or bottle gas has been successfully used in curing leaf. It costs about three times as much as natural gas.

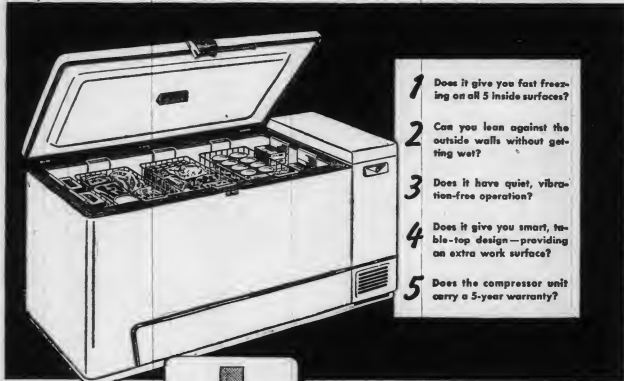

See a county agent or write to UK College of Agriculture and Home Economics, Lexington, for circular 496.

MANY FALL JOBS
IN HOME GARDENS

Prof. N. R. Elliott of the University of Kentucky horticulture department reminds home gardeners that September is the time to do several early-fall tasks:

1. Spray monthly roses for diseases, and rake and remove all leaves that fall from the plants.
2. Re-plant house plants that are to be kept in the house all winter. Use soil from the vegetable garden, with a little sand mixed with it.
3. Mark trees for later transplanting that are growing in the woods. They are easy to identify now when they still have their leaves.
4. Transplant evergreens.
5. Plant bulbs in late September, October and November.

Burlington And Florence Winners In Opening Tilts

Florence Has Edge In Strength, According To Football Followers.

Florence drew first blood in the 6-man Boone County Football Conference Thursday night of last week when they turned back the Walton Bears by a score of 32-0 at the Burlington field.

In romping to an easy win in the opening game of the season, the Knights apparently are much stronger this year than in previous seasons. Florence offensive was led by Jerry Denner, half back with three touchdowns. Larry Yelton and Bernie Hudson added one touchdown each. Extra points were made by Hudson who received a pass and one point by Yelton who carried the ball over the goal line.

Burlington and Hebron tangled Friday night at the Burlington field with the Eagles emerging on the long end of a 28-12 count. Burlington took an early lead and maintained a safe margin throughout the contest. "Shorty" Ryle led the attack for the winners with three touchdowns, one in the first quarter, one in the second and one in the fourth. McFarland added a touchdown for the winners in the final quarter. Ryle scored 4 points on kicks. Stephens and Herring, of Hebron each scored one touchdown for the losers.

Indications are that Florence is the team to beat for the conference championship this year, according to football fans. The team is apparently much stronger this year, and will give other conference squads a good battle for the championship.

New Haven drew a bye last week. Strength of the New Haven squad has not been predicted, but it is believed that the squad will reach its peak by the middle of the season. Only one letter man is left from last year, it was reported.

DOWFUME MC-2 IS LOW-COST AID TO BETTER TRANSPLANTS

Gassing tobacco bed soil controls
weeds, nematodes and wireworms

Many tobacco growers in your area are planning to gas their plant beds with Dowfume® MC-2 before sowing the seed. Soil gassing with this effective soil fumigant kills weed and grass seeds and grass stolons in top soil . . . controls nematodes, wireworms, grubs, etc., and allows the plant root system to expand to the fullest . . . controls certain damping-off fungi such as black shank present in the soil.

Dowfume MC-2 contains methyl bromide for thorough penetration and rapid aeration. Tobacco can be seeded soon after soil treatment. Dowfume MC-2 helps produce healthy stands of uniform seedlings in clean plant beds. You can also reduce your plant bed area, since more seedlings survive per area in treated beds. Ask your dealer for Dowfume MC-2 and the simple applicator, tubing and gasproof cover for its use. THE DOW CHEMICAL COMPANY, Agricultural Chemical Department, Midland, Michigan.

WHEN THE WEATHER IS HOT, WHEN PASTURES BURN, FEED BIG LUCY!

One gallon of Big Lucy poured over the grain ration helps supplement failing pastures.

Cows relish Big Lucy and makes them drink lots more water. Since milk is 87% water, a lot of water is vital to high milk production. If preferred Big Lucy may be mixed with your grain ration or fed alone.

Miss Mildred Dean, Grand Guardian of the State of Kentucky, will install the Guardian Council members, who are as follows: Mrs. Ed-

ward Wilson, Guardian; Edward Wilson, Associate Guardian; Mrs. Lillian Hall, Guardian Secretary; Mrs. Martha Wolfe, Guardian Treasurer; Mrs. Lea Maurer, director of music; Mrs. LaVerne Harris and Mrs. Olive Clore, Custodians of paraphernalia; Mrs. Gladys Walton, Publicity and Sociability; Mrs. Jean Poston and Mrs. Violet Smith, Hospitality.

The International Order of Job's Daughters is an organization for girls between the ages of 12 and 20 years, who are related to Master Masons, the first and only order so founded. Its purpose is to band together girls of Masonic relationship for character building, through moral and spiritual development, by teaching a greater reverence for God and the Holy Scriptures, loyalty to our flag and the country for which it stands and deeper respect for parents and their elders.

"And in all the land were no women found so fair as the Daughters of Job, and their father gave them inheritance among their brethren." This passage taken from the Book of Job, Chapter 42, verse 15, is the passage upon which the order is founded.

The institution of this new Bethel will be open only to members of Job's Daughters, Master Masons, and members of the Eastern Star. The installation of the Bethel officers will be at 9:30 and will be open to the public.

Change In Zoning Protested For City Lots In Florence

Approval Given Edwood Subdivision On Hebron-Limaburg-Road.

The Florence, Kentucky Planning and Zoning Commission met at the Florence Town Hall on Tuesday, September 1, to consider a petition for the rezoning of lots 4, 5, and 6 of the Hollis-Tanner Subdivision from Residence B zone to Business zone. Residents of the area about the corner of Oblique Street and Burlington Pike, the location of the lots in question, were present to protest the change. It was feared that in the future some business detrimental to the residential community might be established if the property were rezoned.

The Planning and Zoning Commission has agreed that the interest of the community would be best served if the property under discussion be maintained as Residence B zone.

One important work of the Plan-

ning and Zoning Commission is the approval of new subdivisions of land. Under the provisions of the ordinance any land within a five mile area from Florence which is laid off into a subdivision is to receive the approval of the Planning and Zoning Commission.

At its meeting on September 10, the Commission gave final approval to the Edwood Subdivision of the Harvest Home-grounds on the Limaburg-Hebron Road, to the Sprucedale Subdivision on U. S. 25 near Florence, and to the first addition to the Highland Acres Subdivision on the Mt. Zion Road. Tentative,

or preliminary approval was given to the Chitwood Subdivision of land on the Gunpowder Road extension. Earl Morgan is chairman of the Commission. Other members are Al Becker, Wilmer Osborn, Frank Trego and G. R. Scott. William Fitzgerald is the secretary of the Commission.

Property Tax Saving Continues Until November 1

Property Owners Entitled To 2 Percent Discount To November 1.

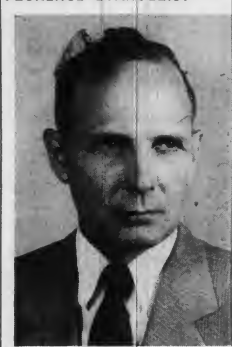

This year's property tax bills for state, county and school taxes have been completed and turned over to sheriffs all over the state for collection.

Taxes are now due and payable at the sheriffs' office and it is not required that notification be sent to property owners, the State Department of Revenue reminded today.

Property owners are entitled to a 2 percent discount on taxes paid by Nov. 1. Penalties start after December 31st.

Approximately 95,000 automobile owners will be required to pay personal property taxes on their cars for the first time this year. This increase is due to 1952 legislation which directs county tax commissioners to use the county clerk's automobile license records for assessment purposes.

Lodge Centennial Celebration Proves Highly Entertaining

History of Organization Read By W. Robert Ellis.

One of the most interesting and enlightening meetings on record was held by Burlington Lodge No. 264, Free and Accepted Masons on the occasion of the celebration of its 100th anniversary at the lodge hall Saturday night.

History of the original lodge, organized in October 1818, was of special interest to the large number of members and visiting members present. Names of pioneer families many of which were ancestors of present-day lodge members, were read repeatedly through the ancient history.

Many present-day past masters spoke of their experiences thirty or more years ago.

Rev. Dr. Paul B. Clark, Pastor Emeritus of the Madison Avenue Baptist Church, and Past Grand Chaplain of the Grand Lodge of Kentucky offered the prayer of commemoration, declared to be one of the most beautiful ever uttered in a Masonic Lodge room.

Edwin E. Freshney, Past Grand Master, who laid the cornerstone of the new hall, and who officiated at the dedication services, gave a most inspiring talk on the responsibilities of members who are endeavoring to carry on in the heritage bequeathed them by the brethren who labored in the community more than a century ago.

Last, but in the no means least was the work of the refreshment committee. Bounteous plates of baked beans, potato salad, potato salad, potato chips, and delicious ham sandwiches were served to the present. This, plus an array of homemade cakes, coffee and ice tea, left nothing to be desired, except, perhaps, the disappointment of one member, who had no room to sample every variety of cake displayed.

Members now are talking of holding a birthday gathering next year. Deep sympathy is expressed to all who know about it, but failed to attend. Truly, their loss is beyond measure.

OUR SINCERE THANKS THANKS TO YOU

For all the beautiful baskets of flowers; for all the friendly messages; for the generous co-operation of all our suppliers and for the tireless efforts of our employees, a thousand thanks.

But all of this fine support would have been fruitless without the large attendance of the people of this community to our Grand Opening on last Friday and Saturday. From early morning to late night a steady stream of cheerful people thronged this new Community Market, enjoying the flowers and music. Over five hundred tickets were passed out and a thousand favors were distributed at the doors. For your wonderful response, a thousand thanks to you. Please pardon us if you were not waited on promptly or delayed at the cashier's counter. We promise you better service hereafter.

You have given us the confidence to feel that Boone County wants this kind of a friendly market, and in gratitude we shall try to serve you the finest foods at reasonable prices.

Soil gassing with DOWFUME MC-2
 kills soil pests and weed seeds

There are many important reasons why gassing tobacco bed soil with Dowfume® MC-2 before planting improves the quality of your plants. It gives positive control of grass seeds and stolons of perennial grasses such as quack and Johnson grass—and it gives freedom from most weeds for extended periods of time.

Root-attacking insects such as wireworms and grubs are killed in all life stages at time of application. Dowfume MC-2 controls nematodes even in unrotted galls in crop refuse. It also controls certain soil-borne fungi. You get strong, healthy plants for setting. Dowfume MC-2 and the simple applicator, tubing and gasproof cover for its use are available at your Dow dealer. Young-Pelfrey

The Memorial Christian Church, Virgil and Schoolcraft, Detroit, Mich., was the scene Wednesday night of the marriage of Miss Irene Anna Young, daughter of Mr. and Mrs. Ernest V. Young, of Detroit, Michigan, and Robert Carlton Pelfrey, son of Mr. and Mrs. K. O. Pelfrey, of Burlington, Ky.

The double ring ceremony was solemnized at 8 o'clock p. m. with the Rev. Brant Lee Doty, pastor of the church officiating.

Mrs. Nancy Slasky pianist, played the wedding music and accompanied Mrs. Mable McLain, who sang, "Oh Promise Me," "Because" and "I Walk Beside You."

The church was decorated with white gladiolus and green palm and lighted with candles.

The bride was given in marriage by her father. She wore a gown of white satin and lace, fitted bodice, full floor length skirt, nylon net over satin. Her shoulder length

veil fell from a headdress of satin and orange blossoms. She carried a bouquet of orchids with satin streamers.

Miss Mary Sloan of East St. Louis, Ill., was the maid of honor. She wore a gown of open blue lace and taffeta, strapless bodice, lace stole, full floor length skirt, and carried a bouquet of flowers with satin streamers and headdress to match.

The bridesmaids were Misses Norma Withers, Maxine Garavaglia, of Detroit, and Miss Carolyn Nyquist, of Vestaburg, Mich. They wore gold, yellow and green gowns, respectively, of taffeta, strapless bodice with nylon net stoles and nylon net over taffeta full floor length skirts. They carried bouquets of mixed flowers tied with satin streamers and matching head-dress.

Rev. Eugene Thorp, of Harrison, Mich., served as best man. Ushers were Rev. Newton Huffine, of Fort Wayne, Ind., Wayne Pelfrey, brother

of the groom and Ernest Young, brother of the bride. The groom, best man, ushers and fathers wore dark suits with white boutonnieres.

The bride's mother wore navy blue crepe dress with pink accessories and wore a pink corsage. The groom's mother wore black crepe and lace with velvet accessories and white orchid corsage.

After the ceremony a reception was held in the social rooms of the church which were decorated with pink and white flowers. The table was covered with a lace cloth, lighted tapers and 4-tiered cake, topped with a miniature bride and groom and flowers forming an arch. Mrs. Fox and other friends assisted in serving.

After the reception the couple left for a trip through Canada, Niagara Falls and New York.

Governors Will Confer On Future Toll Road Plans

At Meeting Scheduled
September 27 and 28 At
Kentucky Lake Park.

Governors of three neighboring states and perhaps a fourth will meet with Gov. Lawrence W. Wetherby at Kenlake Hotel, Kentucky Lake State Park, September 27 and 28 for a discussion of the possibility of a limited access super highway north to south across this section of the country.

Planning to attend the meeting are Governors George N. Craig of Indiana, Frank G. Clement of Tennessee and Herman Talmadge of Georgia. Gov. Gordon Persons, of Alabama has told Wetherby he will attend if possible but he is currently busy with a session of the Alabama legislature.

The idea of the conference grew out of preliminary talks the governors had at the national Governor's Conference in Seattle last month. Wetherby issued the invitations shortly after returning from the conference.

There has long been talk of a toll highway connecting the Great Lakes region with the Gulf region and Florida but the meeting at Kentucky Lake will be the first general conference of governors on the project. They will explore the need for a highway and discuss what would have to be done in

their states if the road is undertaken.

Wetherby and State Highway officials feel that early plans by Kentucky will place the state in a favorable position when future plans are made. If Kentucky and neighboring states lag or fail to reach agreement on highway needs, another route might be opened that will bypass them, the Governor has pointed out.

for the CA — champion tractor
of the two-plow class

Now Allis-Chalmers offers 2-way plowing... two 12- or 14-inch bottoms... for the CA Tractor.

This spinner-type, close-coupled, 2-way plow eliminates dead furrows. On flat land the field is plowed level from side to side — so essential for irrigation and good surface drainage. On hillsides and rolling land... all furrows are turned uphill to resist downward creeping of the soil and to reduce runoff.

Priced only slightly higher than a one-way moldboard plow, the new 2-way plow is hydraulically lifted and uses CA Traction Booster to put extra weight on drive wheels.

Let us demonstrate.

2-way Spinner-type Plows are available for both WD and CA Tractors

A salute to our Florence Fire Department and all fire departments for giving of their time and effort in alleviating distress caused by fire and accidents, even though hampered by low pressure or no water at all, they go and do the best they can with the tank of water they carry on the truck. Many tobacco growers in your area are planning to gas their plant beds with Dowfume® MC-2 before sowing the seed. Soil gassing with this effective soil fumigant kills weed and grass seeds and grass stolons in top soil . . . controls nematodes, wireworms, grubs, etc., and allows the plant root system to expand to the fullest . . . controls certain damping-off fungi such as black shank present in the soil.

Dowfume MC-2 contains methyl bromide for thorough penetration and rapid aeration. Tobacco can be seeded soon after soil treatment. Dowfume MC-2 helps produce healthy stands of uniform seedlings in clean plant beds. You can also reduce your plant bed area, since more seedlings survive per area in treated beds. Ask your dealer for Dowfume MC-2 and the simple applicator, tubing and gasproof cover for its use. THE DOW CHEMICAL COMPANY, Agricultural Chemical Department, Midland, Michigan.

Safety Rules Given
Farmers in Use Of
Power MachineryCorn Picking Equipment
Cause Of Many Farm
Accidents.

A modern corn picker can whisk a 10-foot stick through its snapping rolls in one second—or a hand before its owner can gasp.

Its husking rolls can snatch an object thinner than cigar paper—or just as efficiently grab fingers, nails and hair.

There are more than 588,000 corn pickers on the nation's farms. They will cause more maiming accidents this year than any other farm implement.

Husking rolls, snapping rolls, gathering chains, power takeoff shafts, w a g o n elevators—no other farm machine combines so many potentially dangerous moving parts.

To make corn picking a safe operation the following safety rules should be carried out:

1. Never reach into a picker when it is running. Shut off the power before oiling, adjusting or unclogging. Make it a habit to shut off the power every time you leave the tractor seat.
2. Keep safety shields in place. Never operate without them.
3. Wear close-fitting clothing. Extra-thumb gloves, originally used for hand picking, give a false sense of security, and—because of the projecting thumb—are especially dangerous.
4. Never carry a gun on a tractor or picker. Hunting and corn picking don't mix.
5. Prohibit extra riders.
6. Use a red flag, carried high, to warn motorists of the slow-moving vehicle if you travel on a highway. At night use lights—red at the rear and white at the front.

Walton Man Killed In Accident Near Kensington Sat.

Car Struck By Fast Freight At Kensington Crossing.

Elza Gullion, 46, Percival Road, near Walton, was killed Saturday night by a northbound freight of the Southern Railroad at the crossing at Kensington, just off U. S. 25, two miles north of Walton.

Robert Brough, Boone County coroner stated that Gullion was driving a small car and was believed on his way to the Kensington Lake, east of the railroad crossing. Mr. Brough said the train that struck him was a fast freight headed toward Cincinnati. The engineer, Mr. Brough said, asserted that he blew the whistle for the crossing as Mr. Gullion was approaching the tracks, but the driver proceeded, apparently without hearing the approaching train.

The victim suffered a skull fracture and a left leg fracture, as well as other injuries.

Mr. Gullion is survived by his widow, Mrs. Ella Gullion.

Funeral services were held at 2 p. m. Tuesday at Pleasant View Baptist Church, Grant County, with burial in the church cemetery.

The Hamilton funeral home, Verona was in charge of arrangements.

Janet Dolwick Is Named Farm Queen At Bureau Picnic

**Will Represent District
At Carrollton Meeting
October 19.**

Janet Dolwick was chosen Boone County Farm Bureau Queen at the annual Farm Bureau picnic held Saturday, September 26th at the 4-H and Utopia fair grounds, Burlington. The queen contest was held as a part of the program and proved to be very interesting to the group of several hundred Farm Bureau members attending.

The Farm Bureau queen is chosen on the basis of her farm and home activities, community, county and state activities, Farm Bureau work and a general statement as to what a Farm Bureau can do to help in the community, and county. Personal appearance is scored as 40% and the activities as 60%.

Janet is the daughter of Mr. and Mrs. Adam Dolwick, Erlanger, Ky. R. 4, and attends Florence High School. She has been very active in 4-H Club work and has won many prizes in county and state competition.

Others participating in the queen contest were Tommy Scott and Eva Lou Walton, both of whom made a fine showing, all three of the girls having a very good 4-H club and community record.

By winning the county contest Janet will compete in the district contest to be held in Carrollton on October 19, at the Carrollton School.

The state queen contest is scheduled as a part of the annual state Farm Bureau Convention which will be held in Louisville in mid-November. We are hoping for Janet the best of luck in future contests.

Progress Report Of State Police Dedicated To Robert R. Miller

"Progress Report" a magazine issued recently by the Kentucky State Police is dedicated to the memory of Trooper Robert R. Miller whose untimely death on February 15, 1951 was a great loss to the State Police. The magazine, a splendid edition made of pictures and statistics showing the progress made by the department since its creation in 1948, carries a picture of Trooper Miller on page 2.

The 1948 Legislature created the Department of Kentucky State Police, giving the new organization full police powers except in cities of the first five classes. This legislative act culminated intensive work on the part of many people, and represented a step forward in state government. In five years, the State Police have made tremendous progress.

Many Improvements Planned By Florence Board of Trustees

**At Regular Meeting
Held Tuesday, Sept.
22nd.**

Many improvements are scheduled by the Florence Board of Trustees, outlined at a meeting of the body held September 22. Extending of water mains and the erection of new street lights were part of the improvements outlined.

A resolution was passed at the meeting leading to legislation providing for the laying of water mains on U. S. Highway 42 from the end of the present main to Scott Drive; thence north on Scott Drive to Center Street; on Ash Street from Scott Drive to its end. The resolution provided for extending the water main on New U. S. Avenue about 490 feet. An ordinance will be presented at a later meeting ordering the laying of these water mains.

On October 8 an ordinance will be presented ordering the laying of water mains on Circle Drive, Meadow Lane, Orchard Drive, the portion of Roger Lane, Burk Ave., and a portion of Edward Avenue.

An ordinance was passed accepting the water main recently laid on Burlington Pike and Kathryn Avenue and assessing the total cost of \$3,890.75 to the owners of property abutting on the water main. The rate per foot is \$2.3964.

Another ordinance was passed accepting the water main recently laid on Valley Drive extension and assessing the total cost of \$2,930.46 to the owners of property fronting and abutting on the water main. The rate per foot is \$2.3578.

Plans are being prepared to extend water mains on U. S. 42, Woodland, Grand, Dell, and Center Streets.

Twenty-seven new street lights have been installed, most of which are in the new areas of the city. The fixture used is an improved one and lights the area more efficiently than the type previously used. These new lights will increase the monthly electric bill from \$144.30 to approximately \$200.00.

He stated that he expected to enter a hospital for an operation and then planned a much needed vacation. His office will continue to operate and will be available for engineering services. Florence-Burlington Remain Undeclared In 6-Man Football

**Will Meet At Burlington
Field Thursday, October
1st; Outcome In Doubt.**

Florence and Burlington, both undefeated in the 6-man football season will meet Thursday night of this week at Burlington field, in what is expected to be one of the best games of the season.

In earlier season games, Florence has defeated Walton and Hebron, while Burlington has defeated New Haven, Hebron and Eminence.

Florence took the measure of the Hebron Cards Thursday night at the Burlington field by a score of 56-19.

Denner on the first running play of the game hit pay dirt for the Knights, and the winners continued to lead by a safe margin throughout the game. Denner scored four touchdowns, Dixon 1, Hudson 2, Taylor 1 and Yelton 1. Point after touchdown by Taylor with two.

Florence scored one touchdown on a fumble by the Cards. Four of the winners touchdowns were scored on passes.

Walton Bears scored their first victory of the season by trouncing New Haven Friday night at the Burlington field. Details of the game were not reported to this office.

Burlington emerged on the long end 7-8 count over the Eminence 6-man football squad Saturday night at the loser's field. Both teams failed to hit pay dirt until after the half, when Fair received a pass from Wilson for a touchdown. Two points were added after touchdown by W. Ryle's kick.

After holding the hosts scoreless for three quarters, Eminence staged a rally in the fourth period to score a touchdown, and scored the extra point by running the ball over the goal line.

Ryle, Wilson and Reinhart were outstanding in defensive play, according to fans, although fumbles and penalties marred the first half of the game. Burlington held the Eminence square repeatedly in the fourth quarter when they were close to pay dirt.

Coach Hauck's line-up was composed of Fair, D. Walton, Reinhart, McFarland, Stamper, Ryle and Wilson.

Recommendations Given For Protection Of Corn, By Agent

Control of Insects Important In Storage of Grain.

There have been inquiries at the County Agent's office concerning the recommendations for protection of corn in storage, according to Joe Claxon, County Agent.

There are several points to consider in storing corn. They are as follows: Provide dry bins, moist corn attracts insects and promotes their development. Clean cribs and dry storage crop residues in which insect pests may be living. Screen and shield the building to exclude rats, mice and birds. Spray bins with DDT or Methoxychlor. Fumigate grain that is to be held over. Harvest corn as soon as the crop is dry enough to store. Inspect corn monthly during the warm period of the year. Turn heated corn or corn out of condition, and artificially dry it if possible.

The control of insects is: Mix shelled seed corn with DDT or Methoxychlor at the rate of 1 ounce of 3 percent dust to each bushel of grain. Caution: These mixtures should be used on seed corn only. Treat empty cloth bags with 10 percent DDT in solution with carbon tetrachloride. (See Ky. Agricultural Experiment Station Bulletin No. 571). Grain that is free of insects when placed in the treated bags will be protected for a period of about 18 months. Treat empty cloth bags with pyrethrin alone of synthesized pyrethrins. The finished cloth should contain 10 mg. of pyrethrin per square foot. Fumigate racks of bagged corn in the same manner as the prescribed for wheat and other small grains.

Unfortunately, there is no completely satisfactory treatment for ear corn with insecticides to prevent an infestation of insects or to halt one already established. The use of synergized pyrethrum dusts, applied at cribbing time, may suppress the spread of insects and check damage for a short period of time. Fumigation is, therefore, the recommended treatment. Corn in a crib that is air-tight on the bottom and sides can be fumigated intact. If cribs are slatted and cannot be made air-tight on the bottom and sides then the corn should be moved to a suitable room or bin for the application of fumigants as suggested for wheat and other small grains.

GROW TOBACCO TRANSPLANTS LIKE THESE IN TREATED BEDS

Soil gassing with DOWFUME MC-2
kills soil pests and weed seeds

There are many important reasons why gassing tobacco bed soil with Dowfume® MC-2 before planting improves the quality of your plants. It gives positive control of grass seeds and stolons of perennial grasses such as quack and Johnson grass—and it gives freedom from most weeds for extended periods of time.

Root-attacking insects such as wireworms and grubs are killed in all life stages at time of application. Dowfume MC-2 controls nematodes even in unrotted galls in crop refuse. It also controls certain soil-borne fungi. You get strong, healthy plants for setting. Dowfume MC-2 and the simple applicator, tubing and gasproof cover for its use are available at your Dow dealer. Elsmere Man Suffers Injuries In Accident On U. S. 25 Monday

Four Vehicles Figure In Collision, According To Reports.

William Kincaid, of Elsmere, suffered internal injuries and possible skull fracture in an accident early Monday on U. S. 25, three miles south of Florence, involving four vehicles.

Chester Henderson, State Trooper, reported that a girl passenger in the southbound auto driven by Mr. Kincaid was thrown clear when it crashed head-on into a semi-trailer truck traveling north.

Kincaid had to be pried from the wreckage.

Trooper Henderson said he was unsuccessful in halting the auto, which was being pushed by a second auto, driven by Howard S. Brech, 25, who lives in a trailer court at Harrison, Ohio. The two cars were traveling at speeds up to 90 miles an hour.

The truck driver, D. L. Pyle, of Barwick, Ga., escaped injury when he was thrown from the truck. The auto driven by Brech proceeded down the road and headed into a ditch.

Clarence H. Cordez, of Norwood, Ohio, told the officer that he was hit in the rear by the Kincaid car when he had stopped to turn off the highway.

Kincaid was removed to St. Elizabeth hospital for treatment, where his condition was reported as fair. Charges of reckless driving and speeding were placed against both Kincaid and Brech.

Burlington's 6-man football team suffered its worst defeat since 6-man football was introduced in Boone County, when the Florence Knights trounced the Eagles by a score of 58-0 at the Burlington field, Thursday night of last week.

Florence took a firmer grip on the Conference Championship by their victory.

Warren Ryle, Burlington's star halfback, who had led the scoring parade for the conference, went out of the game early in the first quarter when he suffered a badly sprained shoulder. He probably will be absent from the Eagle lineup for sometime.

Florence took an early lead in the first quarter, and the Eagles were unable to stop their march throughout the game.

Denner, Florence ace, who was second to Ryle in individual scoring, made two touchdowns to take over the lead 54-5. Hudson had three touchdowns, Dixon two and Aylor one for the winners.

The Knights showed plenty of speed and power throughout the game, both offensively and defensively.

According to records, this is the first time that Burlington's 6-man football team has been held scoreless since the introduction of the game in this area.

Purcell kicked two field goals for four extra points, while Davis and Conner had 1 point after touchdown for the winners.

J. B. Miller, Grant County Druggist Named Permanent Chairman.

A Fifth Wildlife Advisory Committee to work with the Department of Fish and Wildlife Resources in planning its program was organized Wednesday night, September 30, at a meeting held in the Chamber of Commerce rooms at Covington. A representative from each county in the district was present. Elected permanent chairman of the group was J. B. Miller, Williamstown.

The purpose of the committee is to assist the Department in its program for each county. The representatives at the meeting were named chairmen for their own respective counties to organize a committee of five members, within each county. These county groups will map out a program and following these county meetings a district meeting of the overall committee will be held at which time aims and needs for the district will be enumerated. At this meeting representatives of the Department will be present and a definite program for each county will be set up for the following year. The overall program is set up over a five-year period.

Lead Small In Florence Sewer Plant Postcard Poll

Total of 327 Express Preference, 167 For And 160 Against Move.

A seven-vote margin in favor of building a city sewer system was recorded last week when the postcard poll conducted by the City of Florence was counted. The vote showed 167 for the system and 160 against.

William Fitzgerald, city clerk, reported he had mailed 584 post card ballots to property owners eligible to cast votes. A total of 327 persons express a preference. One voter returned his vote unmarked but asked for more information.

Ballots were tabulated by a committee of three citizens appointed by Mayor R. R. Scott. The trio included John Schira, M. G. Martin and Elbert Bohon.

Results of the vote will be referred to Magnus & Co., Cincinnati, fiscal agent for the city in the proposed project.

The poll was conducted by the town board of trustees to get an expression from property owners on whether to go ahead with plans for a sewage disposal system to cost an estimated \$500,000.

Areas In County Benefitted By Rain Sunday and Monday

Shortage of Stock and Cistern Water Relieved By Showers.

Several sections of Boone County were greatly benefitted by the rain which fell Sunday afternoon and Monday. Sunday's rainfall was recorded at one-half inch in some areas of the county, while in other sections hardly enough rain fell to be recorded.

The Burlington area probably received the heaviest rain both Sunday and Monday, which was reported at approximately one inch.

This was the first rain of any measurable proportion since Sept. 4, which was recorded at .66/100 inches.

Many farmers throughout the county stated that the rain was very beneficial in giving temporary relief from stock water shortage, as well as helping to replenish cistern water supply.

Walton City Council Will Discuss Water Situation At Meet

Ways And Means Of Improving System Will Be Aired October 12.

The Walton City Council will discuss ways and means of improving the city's municipally-owned water system to take care of an eventual increase in the number of consumers at a meeting scheduled October 12.

The possibility of enlarging present facilities and the possibility of obtaining water from the Boone County Water Commission, will be discussed, according to Mayor R. M. Hall.

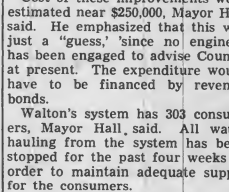

The severe drought which has prevailed for the past several weeks has not seriously affected Walton's water supply, the mayor said, and he added "we will get by this year if rain falls soon." But present pumping and other facilities are not sufficient to meet any increase in the number of consumers, he pointed out.

Improvements to enlarge the facilities would include raising the level of the dam which creates the artificial lake from which the water is supplied; construction of bigger settling basins, enlarging the filtration plant and a new standpipe.

Cost of these improvements were estimated near \$250,000, Mayor Hall said. He emphasized that this was just a "guess," since no engineer has been engaged to advise Council at present. The expenditure would have to be financed by revenue bonds.

Walton's system has 303 consumers, Mayor Hall said. All water hauling from the system has been stopped for the past four weeks in order to maintain adequate supply for the consumers.

Adult Farmer Class Opened At Hebron School Wednesday

Watson G. Craft, Boone County vocational teacher announces the opening of adult farmer classes at Hebron High School at 8:00 p. m. Wednesday. Classes are open to any Boone County adult resident, Mr. Craft stated.

The courses are formulated each summer at the University of Kentucky, College of Agriculture, and are the result of the past experiences of vocational agriculture instructors from all over Kentucky combined with the newer technical phases developed by College of Agriculture scientists.

Adult farmers are permitted to select the agricultural courses in which there is the greatest interest, Mr. Craft explained. The classes meet every Wednesday evening for two hours.

Adult enrollees may study corn, hay and pasture production, soil management, farm program planning, tobacco production, dairying, livestock enterprises, and the development of an efficient farm business.

Deadline Set For Christmas Parcels To Armed Forces

Overseas Packages Should Be Mailed Not Later Than Nov. 15.

Plans Completed For Fall Festival At Burlington School

More Than One Hundred Prizes Will Be Offered In Exhibit Contests.

The period October 15 to November 15 has again been designated for the acceptance of Christmas parcels for members of our Armed Forces serving outside the continental United States with the concurrence of the several departments of the National Military establishment.

The term "Armed Forces Overseas" includes the personnel of our Armed Forces, members of their families, and authorized United States citizens employed overseas, who receive their mail care of Postmaster, New York, N. Y., San Francisco, Calif., New Orleans, La., or Seattle, Wash., or Fleet Post Office at New York or San Francisco, Calif.

The importance of mailing Christmas parcels during the designated period cannot be stressed too strongly—the earlier the better. The public can be reasonably assured that parcels mailed through the regular surface mails prior to November 15 will reach their destinations before Christmas. However, no assurance can be given that surface parcels mailed after November 15, or Air Parcel Post mailed after November 25, will be delivered in time for Christmas.

Parcels destined for Japan, Korea and the islands of the Pacific should be mailed not later than November 1, due to the distance involved.

In preparing boxes for overseas destination, use only strong, double-strength cardboard, securely wrapped and tied as these parcels go great distances and must be handled many times. Articles should be packed in metal, wood or solid fiberboard containers, and then packed in double-strength cardboard boxes, wrapped with heavy brown paper, and tied with strong cord.

Check with your local post office as to the new rates in effect and whether your parcel is subject to customs declarations, etc.

Sealed parcels of the third and fourth class, should, of course carry the inscription, "Contents merchandise—May be opened for postal inspection." Use the official parcel post label.

Avoid sending foodstuffs subject to spoilage and breakage, they will only reach their destination unfit for use. Most Army and Navy personnel can be supplied with foodstuffs, cheaper than can be mailed to them. Be sure to check with your post office concerning prohibited articles, such as matches, lighter fluid, cigarettes and tobacco products. Coffee is also a prohibited item.

If you intend to send money as a gift, be sure to send it in the form of a money order. Address your parcels plainly and completely. Pack well. Send at the earliest possible date.

Squirrel Season Lost Will Be Added To Regular Season

Quail and Rabbit Season Opens November 20, Commission Reports.

Frankfort, Ky.—The number of days lost in the current squirrel season because of the ban on hunting due to the fire hazard will be given the hunters during the rabbit and quail season which opens on November 20, the Kentucky Game and Fish Commission decided recently in regular quarterly meeting held at Kenlake Hotel at Kentucky Lake.

The Commission pointed out that the period of Nov. 5 to Nov. 20 has been declared a no-hunting period in Kentucky, and to add the lost days onto the end of the squirrel season which closes on November 5, would interfere with that no-hunting edit.

The Commission also decided that Ohio hunters, who shoot waterfowl from the Ohio side of the river may retrieve those ducks which fall in the river which is under the jurisdiction of Kentucky, even if they do not have a Kentucky license. It was pointed out, however, that the shots must be fired back of the low water mark of the Ohio on the Ohio side. Likewise, since the Ohio waterfowl season opens before the Kentucky season, hunters who kill ducks from the Ohio side and which fall into the river, before the Kentucky season opens, will not be in violation of the law so long as the Ohio season is open.

A fish hatchery, which has been operated in Pike County for several years, and which was given to the Department by the Pike County Game Association, was ordered conveyed to that organization since it will no longer be needed with the completion of the Federal Fish Hatchery near Frankfort.

Automobile Rams Head-On Into Truck, According To Report.

Two Lexington residents and an Elsmere man were injured, two seriously, in a head-on collision Sunday night between a tractor-trailer and an automobile approximately four miles south of Florence on Dixie Highway, according to State Police.

The trailer was driven by E. K. Simpson, Berea, an employee of the Roadway Express Co., who escaped injury.

The auto was virtually demolished and the trailer was turned over on its side into a ditch. Merchandise had to be unloaded before the trailer could be righted.

Traffic was tied up for approximately six hours, due to traffic being limited to one lane over a three-mile stretch.

ORANGES, CARROTS MAKE LUNCH SPREAD

A good spread for school lunches is orange-carrot marmalade, so flavorful that one would never imagine its garden source, say food specialists at the University of Kentucky. Make it this way:

Wash and scrape three medium carrots, then put through a food chopper with a medium blade to make 2 cups. Cook in covered kettle in a small amount of water, but watch to avoid burning. Wash and peel 2 oranges. Use only the peeling which is sliced very thin. Boil peeling in 1 cup of water in covered pan until tender. Add carrots, 4 cups of sugar, juice of 3 lemons and ½ teaspoon of salt. Cook until the syrup gives the jelly test. Pour in hot sterilized jars and seal with paraffin.

American farmers will use approximately 600,000 mechanical corn pickers, each capable of doing the work of from six to 12 hand pickers, in harvesting the 1953 corn crop. The Dearborn-Wood Corn Picker was used by Elmer Bolliger, Fairbury, Ill., in winning the 1952 National Mechanical Corn Picking Championship at Rushville, Indiana.

Conserve Cattle and Feed

Feed supplies in Kentucky are "spotty"—in some areas they are adequate or abundant, in other places there is no hay or silage, and little corn. Pastures are going into the winter in poor condition and with no surplus growth. It will be a problem for many farmers to carry even a part of their breeding herd through a severe winter. I consulted Ray Hopper, U. of K. Beef Cattle Specialist, about the problem and he came up with some very useful suggestions for wintering beef cattle. In some cases, he says, cattle can be carried over on ground corn-cobs, fodder, straw or rough hay with 1½ to 2½ pounds of high-powered supplement such as can be mixed or bought commercially. See your County Agent or write to the College of Agriculture in Lexington for the mimeograph entitled "Suggestions for Wintering Beef Cattle."

For Late Seeding Use Wheat or Rye

Many thousands of acres of land prepared last summer for alfalfa, pastures and small grains are still unseeded because of the dry weather. It is already too late to sow legumes, and the danger of winter killing of oats and barley increases rapidly after early October. As the season progresses wheat and rye become the most dependable kinds of grain to sow and some farmers will seed them even as late as Thanksgiving rather than leave

their land unprotected. Even when seeded late, wheat and rye, if properly fertilized, may provide early spring grazing and produce a profitable grain crop in 1954.

Fertilizer and limestone are still the cheapest productive materials that the farmer has to buy—provided that he buys only the kinds that he needs and uses them efficiently. According to figures recently released by one of the experiment stations, the income from a can of milk today will buy 30% less labor, 15% less machinery and 50% more lime or fertilizer than it did in 1940.

Fall applications of fertilizers on pastures will help revive the growth when rain starts and provides food reserves for winter survival and early spring growth. Three hundred or more pounds to the acre of a fertilizer such as 5-10-10 is effective on most Kentucky soils.

BERRIES HELP OUT ON EASTERN FARMS

How strawberry growing can be a worthwhile 4-H project is being demonstrated in six Eastern Kentucky counties through the cooperation of the University of Kentucky and the Sears-Roebuck Foundation.

A summary of the operations, made by W. W. Magill, extension field agent for the College of Agriculture and Home Economics, indicated that some juniors this year sold over \$700 worth of berries off a half-acre, and many boys and girls took in \$200 to \$300 from their patches.

Good local markets prevailed this season, with surplus berries being shipped north through the Cumberland Valley Cooperative Strawberry Growers Association. The price locally was \$1 a gallon, with some selling in Cincinnati for \$1.50 a gallon.

Counties in which the project is being operated include Clay, Jackson, Knox, Laurel, Rockcastle and Whitley.

GAS USED TO TREAT TOBACCO PLANT BEDS

Fall is the best time to use gas to treat tobacco plant beds. A liquefied gas, methyl bromide containing 2 percent tear gas, is released under a cover fitted over the bed. The gas penetrates the loose soil to kill seeds and insects.

Circular No. 500, published by the University of Kentucky College of Agriculture and Home Economics, tells how to use this gas, including soil preparation, gas-proof covers, cover supports, evaporating troughs and tubing, applying the gas and the like. Copies may be had at offices of county agents or by writing to the college at Lexington.

Self-Employed Persons Over 65 Should Consult Social Security Office

Self-employed persons over age 65 who have retired during 1953, or expect to retire before January 1954 would do well to consult with their social security office before the end of September, according to Joseph T. Ware, manager of the Covington, Kentucky social security office. In some cases, Ware indicated, a delay in filing an application until the last three months of the year may result in somewhat lower monthly old-age insurance payments. But, he emphasized, the problem is limited to only a few of the self-employed persons retiring this year, and does not at all affect individuals who intend to continue operating their businesses after this year.

Social Security payments are tied in to the individual's average monthly earnings over the years since 1950 when social security coverage was extended to the self-employed. Average earnings are figured by dividing the total earnings covered by social security by the number of months elapsing since 1950. Since, under the law, earnings from self-employment are reported and counted only once a year—after the individual has filed his income tax return—the 1953 earnings of a self-employed person filing this year cannot be counted in figuring his average earnings.

If application is made before the end of September, the situation is eased somewhat by the fact that under the law a period of up to six months before the calendar quarter in which the application is filed may be ignored in the calculation of average earnings. This means that the individual's total net income from self-employment for the two calendar years, 1951 and 1952, will be divided by a corresponding 24 months. If application is filed after September, however, the same total net income in most cases must be divided by 27 months. Therefore Ware suggests that self-employed persons who have retired this year or who plan to retire before January, visit the Covington social security office before the end of this month. Members of his staff will be glad, Ware said, to discuss with each the advantages of his filing during this month or waiting until later.

Notes and Comments

From the Editor's Desk

Shorter Days of Labor

Last week-end, the United States celebrated the dignity, the reward, and the freedom of labor. We celebrated the efforts of our hands and bodies.

We have good reason to celebrate. In the last forty years, the average income of each person—man, woman, and child—in the United States has nearly doubled. Measured in terms of the purchasing power of today's dollar, our per capita annual income has increased from \$934 in 1913 to an estimated \$1,690 in 1953. Simultaneously, the average number of hours worked in

manufacturing has declined from about 50 to 40.7 hours a week.

But the effort has been not only that of our hands and bodies, but also that of our minds, and it is the product of our minds that is primarily responsible for our progress. By using our brains, we have thought up new and better ways of doing things. The sum of all these new methods, or in other words the sum of all our brain work, is our technology. As technology has advanced, so have we. Well might we celebrate technology on this Labor Day.

In fact, the role that the American wage-earner has played in the successful application of technology cannot be overemphasized. For his adaptability to new methods, his flair for machinery of all kinds, and his progressive approach to the production problem has made this

country the envy of others—on both sides of the Iron Curtain. This holds true as an overall historical proposition in spite of the sporadic exceptions which sometimes catch the headlines.

It was stated earlier that the average income person in the United States is now about \$1,690. This broad figure skips over, of course, the differences among individuals as well as among sections of the country. According to figures recently released by the Department of Commerce, the per capita income in 1952 varied widely in different states, from a low of \$818 in Mississippi to a peak of \$2,260 in Delaware. Ohio stood high on the list, in eighth place, with an average of \$1,881.

Comparing the five states with the highest average income with the five states with the lowest, we find that the inhabitants of the former group earn somewhat more than twice as much as do those of the latter group, or \$2,132 as contrasted with \$986. These figures indicate the wide disparity in incomes between the wealthiest and the less favored sections of the country.

Great as these differences in income seem to us now, they are not as great as they were twenty years ago. Then, in 1933, (which was a depression year) the average yearly income in the five wealthiest states was over three times that in the lowest-income states. In the intervening twenty years, the average income in the lowest-income states has risen faster than has that in the states which were wealthier to begin with. Stated in terms of constant 1952 dollars, (that is, discounting the effects of price changes) the annual average income states grew from \$328 to \$986 per person, an increase of 170%. At the same time, the annual average income in the five wealthiest states at the other end of the income spectrum grew from \$1,091 to \$2,132, an increase of 95%. The twenty-year increase in the latter states, although greater in absolute dollar terms, is considerably less in terms of rate of growth. The gap between high and low, between wealthy and poor, is being continually narrowed, both on a geographical and a personal scale.

This is what might be expected; if incomes are low in one region and high in another, industries are likely to move from the high to the low income areas in search of lower costs, and workers theoretically will move from low to high income areas in search of high wages. Through competition, the movement tends to raise incomes in the low-income area towards removal of the gap. In the case of perfect mobility of the factors of production, the

differences in workers' incomes would be eliminated quickly and automatically. Perfect mobility is a theoretical concept only, for the migration of workers and factories is both time consuming and expensive. Besides the factors of sentiment and cost, however, there are practically no restraints to mobility in the United States. This lack of restraints to movement of people and to freedom of trade is one of the chief reasons for our general prosperity. Economically, freedom is desirable, and spiritually it is necessary, if a nation is to be strong.

Just as there are differences in average yearly income within different regions of the United States, so are there wide differences between average per capita income in our country and that in other countries. Using the statistics on national incomes collected for 1952 and just published by the United Nations, we find that the annual income is below \$100 for the average inhabitant of India, and is approximately \$120 for the inhabitants of the Middle East. The Europeans have higher incomes, varying from \$210 a year for the average Spaniard to \$683 in France, \$739 in England and \$954 in Sweden. Canada and the United States have the highest figures, or \$1,295 and \$1,850 respectively, according to the United Nations computations. (These figures are by nature only estimates of price levels vary from country to country and official exchange rates in terms of U. S. dollars can

be far removed from reality.) Contrasted with the picture inside the United States, the chances of a more equitable distribution of incomes throughout the world are not altogether encouraging. Our union of states is an area of free trade, and there are no official restrictions on the movement of people. The collection of nations that constitutes the world is not an area of free trade. Rather, each nation tends to erect barriers to trade through such devices as tariffs, quotas, and exchange controls; each nation tends to restrict the movement of its own and the other country's citizens. The result is to perpetuate the differences in income.

Such a general failure of nations to achieve freedom of economic intercourse is well recognized. It is not easy to correct. We have a large share in the problem and a considerable stake in the outcome. Ex-ambassador Lewis W. Douglas, in his recent study for the President concluded that we should work rapidly toward removal of our own trade barriers, as an incentive toward freer international exchange. "If further progress is not made toward the removal of restrictions on trade and a more unfettered exchange of currencies, it is quite likely that . . . the unity of the free world will remain precarious and fragile," Mr. Douglas wrote. But if progress along this path can be made, it would help to create an international climate in which technology could promote higher living standards for all. This would save

guard and, in the long run, add to our own achievements of labor and technology.

PLYMOUTH OFFERS THREE TYPES OF POWER DRIVES

Plymouth Hy-Drive, a new no-shift device, is one of the three types of power drives available on all 1954 model Plymouth cars. The other two options are Plymouth Over-drive and Synchro-Silent three-speed transmission.

Introduced during the 1953 model year, Hy-Drive is now in volume production. It is made up of a combination of torque converter and three speed transmission. Hy-Drive eliminates the need for shifting in all normal driving. When the car comes to a stop light, the driver simply steps on the brake. When the light turns green, he steps on the gas.

The smooth, automatic action of the torque converter takes the place of gear shifting, in all normal driving situations. The driver can, however, shift manually into second or low gears for steep downhill engine braking, or for exceptionally heavy pulling.

The torque converter in Hy-Drive provides a maximum torque increase of 2.6 to 1—highest in any passenger car.

According to Plymouth officials, many owners report that they get even better fuel economy from Hy-Drive-equipped cars than from cars with standard three-speed transmissions. This is attributed to the efficiency of the torque converter and to the smooth acceleration made feasible by Hy-Drive.

Farmers Troubled With Grain Insects; Controls Outlined

Bins Should Be Cleaned Before Storing Grain, Says County Agent.

Now is the time of harvesting grain and many farmers of Boone County have had trouble with insects. The following are suggestions in controlling them by W. A. Price, University of Kentucky.

Many stored grain insects are provided food sufficient to carry them over from year to year in the grain that is left in the corners of the crib or granary after the crop has been marketed. For this reason the bin should be thoroughly cleaned by sweeping before the new crop is harvested. The sweepings should be burned, since such debris contains insects which very soon could return to the granary. After sweeping, the walls and floor should be sprayed with DDT at a strength of 2 1/2 percent. For this purpose an emulsion, a solution or the wettable powder, will be appropriate. If the powder is used the correct formula is 2 1/2 pounds of 50 percent wettable powder to 5 gallons of water. The empty grain bins should be treated with DDT at least three weeks before refilling.

If it is desired to fumigate grain (including beans and peas) the container, if it is a crib or bin, should be made airtight in the bottom and on the sides to the height of the grain to be fumigated. (For small amounts of grain, beans and peas, a barrel, tub or other similar container can be used). Very often cribs and granaries can be made tight enough in the bottom and on the sides for fumigating purposes by lining the inside or covering the outside with strips of heavy wrapping paper with the overlapping ends glued together. In preparing such a crib or bin, it should be remembered that the fumigating gas is heavier than air and a crack or crevice in the floor will allow the fumes to pass out before the insects have been killed.

When the bin or fumigating box has been prepared, the amount of fumigant to be used should be determined. Under favorable conditions, 3 gallons of commercial carbon disulfide will be sufficient for 1000 bushels of grain, or about 7 tablepoons per 50-gallon barrel. For good results the depth of the grain in the bin should not exceed 5 feet. If the grain is deeper than 5 feet, one-half the required fumigant should be applied in the usual way; the other half should be poured through a screen-capped pipe 2 or more feet long, inserted its full length into the grain at several points in the bin.

In the use of this material, due precaution should be taken in regard to fire. The gas is highly combustible and under certain conditions explosive, so fire in any form should be kept away from the fumigating operations.

The gas settles to the bottom of the bin; therefore, the liquid should be placed in shallow receptacles such as pie pans, on top of the grain mass. Curry sacks are sometimes used instead of shallow receptacles; the liquid in this case is poured on the sacks. A blanket, carpet or similar covering should be thrown over the grain and the fumigation allowed to proceed for at least 36 hours. At the end of this fumigation period the grain should be ventilated thoroughly. This is especially important where grain is to be used for planting. If barrels are used for fumigation burlap should be tied over the top and the barrels inverted for an hour or two to permit the gas to escape.

The best results with carbon disulfide will be obtained at temperatures of 70 to 80 degrees Fahrenheit. Fumigation should not be attempted when the temperature is below 60 degrees Fahrenheit.

Widows Over 65 Should Apply For Benefits

Widows over 65 years of age may lose Social Security monthly insurance benefits to which they are entitled if they fail to apply for them, Joseph T. Ware, manager of the Social Security office at Covington, Ky., stated today. If a wage earned who worked under Social Security long enough to acquire a fully insured status died after 1939, and at the time of his death his widow was living with him but was not yet 65 years of age, she was then entitled either to a lump sum payment or to monthly insurance payments which stopped when her youngest child reached 18 years of age. Unless the widow was 55 years of age or older, no diary record was kept of her address by the Social Security office servicing the county in which she lives. The Social Security office, therefore, has no way of reminding her that, if she has not remarried, she will probably be entitled to a widow's monthly insurance payment. Even when the local office has an address for a widow, Ware added, she may have moved and a letter reminding her comes back stamped "present address unknown."

Therefore all widows whose hus-

bands worked under Social Security, and who died after 1939, who were living with or supported by their husband at the time of death, and have now reached 65, should call at the office of the Social Security Administration which services the place they live. If they are residents of northern Kentucky, they should visit, write, or telephone the office at Seventh and Scott Streets, Covington.

Quite a number from here attended the homecoming at Hopeful Sunday afternoon, where Rev. H. M. Hauter, a former pastor delivered the sermon. He was accompanied by Mrs. Hauter.

Mr. and Mrs. Sterling Dickey, Bobby Johnson, and Mrs. Chas. Utzinger and daughter motored to Breathitt County Sunday where Orval and Teddy Johnson are in school.

RECIPE OF THE WEEK

Most housewives like desserts that can be made early in the day to avoid last minute preparation. Mrs. Pearl Haak, food specialist with the UK College of Agriculture and Home Economics, recommends this one.

Pineapple Ripple
1 package orange gelatin, ½ c warm water, 1 c fruit juice, 1 c crushed pineapple, drained, 1 orange diced and drained, ½ c sugar, ½ c cream whipped.

Dissolve the orange gelatin in warm water, stirring occasionally. Add fruit juice and chill until cold and syrupy. Place bowl in cracked ice and whip with a rotary beater until fluffy and thick. Add sugar to the fruit, then fold it and the whipped cream into the beaten gelatin. Turn into molds and chill until firm.

Menu: Pot roast, browned potatoes, cauliflower, carrot-lemon salad, biscuits, butter and pineapple ripple.

DAR Meeting Held At Burlington Sept. 2nd

On Wednesday evening, September 2 at her beautiful colonial home in Burlington, Mrs. Garnett Tolin entertained in compliment to the members of the Boone County Chapter of the Daughters of the American Revolution. The Tolin home was a perfect setting for this meeting which was the first of the 1953-54 season.

Mrs. Tolin chose for her co-hostesses, Mrs. Harold Conner of Florence and Mrs. Clarence Wolfe of Burlington.

Mrs. Roy C. Nestor, who also resides in Florence and who is the Regent of the Boone County Chapter, presided. It was at this meeting that Mr. Preston Sorrell presented to the chapter a beautiful American flag. Mr. Sorrell presented the flag in behalf of the fraternal order of the Woodmen of the World of which he is a member. This organization distributes American flags to churches, schools and worthwhile civic organizations as well as equipping hospital rooms, play grounds and has assisted in establishing blood banks. Mr. Sorrell also gave a brief history of our flag.

The guest speaker of the evening was the state senator from the 26th District of Kentucky the Hon. Alvin Kidwell of Sparta. Before arriving at his major address of the evening which was "My Twelve Years of Legislation," Mr. Kidwell eulogized briefly but beautifully about the state of Kentucky, and thrilled his audience with his vision of the part Kentucky played in the formation of our nation. Senator Kidwell said that in 1942 all laws were rewritten and modernized. The Kentucky Revised Statute was adopted. In 1942 the purchase of a strip of Boone County by Kenton County for the construction of the airport took special legislation. In 1952 a grant was made to the state of Indiana for the construction of a bridge connecting the two states at Petersburg, Ky. During this time the state has granted aid to improve both the buildings and the staffs of our state mental institutions. Aid has also been granted to T. B. hospitals of Kenton, Fayette, and Warren Counties and five new state institutions have been built as well as appropriations to safeguard our children against childhood diseases and to Cancer research. Appropriations have been made to improve our school system paying our teachers better salaries and improving our school buildings. In 1942 a grant of \$10,000,000 was appropriated for our schools and in 1952 a grant of \$35,000,000. Road grants have increased from \$15,000,000 in 1942 to approximately \$60,000,000 in 1952. In 1942 our old people of the state received nine dollars a month from the welfare department and in 1952 they received thirty-five to sixty dollars. Also to this group aided by our welfare department have been added children and the blind.

Mrs. Harold Conner read from the August issue of the D. A. R. magazine the President General's message. In her message Miss Gertrude Carroway pointed out the dangers and perils to our government and our American way of life at this time and tells us "never before has there been greater need for our undaunted faith and courage." Also she said that it has been said that the atomic age may make of our world a graveyard or a garden.

Mrs. Sam Denham, Sr., National Chairman read in part from the September issue of the D. A. R. magazine entitled "The Home and the Common Defense" by Lieutenant General A. D. Bruce, U. S. A. In his article, Gen. Bruce recalled that Gen. George Washington once said, "Every citizen who enjoys the protection of a free government owes his personal services to the defense of it." He stressed the need of discipline and that it starts in the home and school and by obedience to the customs of society or the laws of the state and it is climaxed by the love of home and country. Again Gen. Bruce quoted Gen. Washington, "A free people ought not only be armed but disciplined," or "Discipline is the soul of an Army."

A delightful social hour followed the meeting. Those attending were Mesdames Geneva Arnold, Frances Berkshire, Mallie Coyle, Allen Conner, Harold Conner, Sam Denham, Sr., Sam Denham, Jr., Virginia Goodridge, Charles Goodridge, Davis Gaines, Wallace Grubbs, H. S. Hawes, Roy C. Nestor, Rufus Tanner, Garnett Tolin, William Tupman, J. B. Wolfe, Clarence Wolfe, Robert Woodward, Dean Caton, Joslyn Rice, J. P. Brothers, Henrietta Roberts, and Alvin Kidwell, Misses Margaret Goodridge, Jeanette Grubbs, Evelyn Tanner, Jean Sleet and Virginia Royal Nestor.

Death of Cows In Taylorsport Area Mystify Dairymen

J. P. Dolwick Loses Eight Registered Holsteins.

The death of eight registered Holstein cows owned by J. P. Dolwick in the Taylorsport community, posed a mystery for veterinarians and dairymen in Boone County, which as yet, still remains unsolved, it was reported.

Dr. K. W. Ryle, Boone County veterinarian, who performed an autopsy stated that the animals died from lung paralysis. This could have been attributed to the many toxic plants which become overly prolific during a drouth season.

Watson Craft, vocational agriculture teacher in Hebron school stated that milkweed, nightshade, poison ivy, white snake weed, wild cherry, and Johnson grass eaten during drouth will cause death in cattle. Cane sorghums and sudan grass which have been nipped by frost, also are deadly.

One of the peculiarities surrounding the death of Mr. Dolwick's prize herd was the fact that the cows at no time showed a temperature or a drop in milk production.

A close inspection of pasture fields where the cows were in the habit of grazing showed no trace of any noxious weeds which could have been harmful.

Dr. Ryle recalled several years ago that a Boone County dairy lost several cows under similar circumstances at Mr. Dolwick. He stated that no further reports of loss of cattle had reached his office.

River Victim Proves To Be Indianan; Grave Opened Thurs.

Body Recovered From Ohio River October 6, Near Petersburg.

The body of Elmer Adams, 28, of Lawrenceburg, Ind., was disinterred Thursday and removed to Blackey, Ky. for service and burial after it had previously been buried in a potter's field grave in Burlington, under the mistaken identity of a missing Cincinnati man.

Mr. Adams' body was recovered from the Ohio River Oct. 6 near Petersburg. It was first identified by a former wife, Mrs. Bertha Hayes, Cincinnati, as that of Marion V. Carmichael.

However, because the description also fit that of Mr. Adams and the circumstances that a friend of the latter also had drowned at approximately the same time and place, the Adams family became convinced the body was that of the Lawrenceburg man.

Fire Warning Issued For County; All Hunting Seasons Closed In State

Little Hope of Relief From Drouth, According To Weathermen and Forestry Officials.

A state of emergency has been declared throughout the State of Kentucky due to the lingering drouth and the excessive danger of forest and grass fires as 1600 acres of Kentucky's forests were burning in the state Tuesday morning.

Forestry officials and the weathermen are offering little hope for relief from the now critical situation, and urge property owners and farmers to unite to help prevent the daily increasing fires in forests and fields.

Kentucky's coon-dog hunting season, which was scheduled to open Wednesday, will remain closed because of the fire danger. The Department of Fish and Wildlife announced that the ban on all hunting which was announced on October 2 will remain effective until sufficient rain has fallen to make it safe in the fields for hunters and guns.

Residents throughout the county are urged to cooperate with Conservation Officer Ollie Herrington

Hebron And Walton Victors In 6-Man Conference Games

Florence Knights Remain Undefeated During Season.

Hebron and Walton chalked up victories during the past week in the 6-Man Football Conference by defeating Burlington and New Haven respectively. Florence leads the conference with no defeats for the season.

Hebron's Cards had little trouble with the Burlington Eagles Friday night at the Burlington field when they racked up a 53-8 decision. Hebron's power seemed greatly increased and Burlington defense as well as offensive was lacking in strength.

Crigger crossed the goal line three times for Hebron, while Henderson and Cornwell hit pay dirt twice and Stephens once. Purcell kicked 2 field goals for 4 points and Crigger passed for 1 point.

Fair scored the only touchdown for Burlington and kicked goal for the two extra points.

Walton had little difficulty in chalking up a 34-12 victory over the light New Haven team Thursday at the Burlington field. Ryan scored two touchdowns for Walton, Grubbs 1, Poole 1, Brown 1, and Ryan kicked two goals for 4 points for the winners.

Stephenson and Kirby each scored one touchdown for the New Haven team, but failed to score extra points after touchdown.

Final Game Tonight
Burlington and Florence will meet tonight (Thursday), Oct. 22 for the final game of the season at the Burlington field. Burlington has suffered three defeats during the season at the hands of Walton, Florence and Hebron, while Florence remains undefeated.

The conference championship held by Burlington for the past four years is claimed by Florence for the 1953 season, the Knights being the only team during the past five years to hold the Eagles scoreless.

Kentaboo Given Annexation Choice By Florence Council

Petitions Are Being Circulated In Community, Says Attorney.

The Town Council of Florence occupied the major part of its meeting time last week to supplying information pertaining to annexation to a delegation of residents of the Kentaboo community.

Annexation had been suggested as a means of obtaining water mains and fire protection for the community.

Mayor George Scott informed residents of the community that the matter of annexation was entirely up to them and that if they so desired they could circulate petitions requesting annexation for presentation to the board.

Petitions for and against annexation were being circulated, Charles C. Niblack, attorney, a Kentaboo resident, told Mayor Scott.

Don Mager, Florence Councilman explained to the delegation that the average annual real estate tax on dwellings in Florence is \$22 to \$25 a year. He pointed out that the fire insurance rate for Florence, which has water mains and fire plugs, is \$3.10 for \$1000 while the rate in Kentaboo without such facilities is \$7.50. He explained further that it was costing the average taxpayer in Kentaboo with a dwelling appraised at an average value of \$10,000 a total of \$44 more a year for fire insurance. Comparing that cost, he said, to the average Florence city tax of \$25 a year would mean an average saving to each Kentaboo taxpayer of \$19 if the community were annexed to Florence.

Local Churches Participate In Areawide Revival

Churches Throughout County Will Participate In Effort.

The Florence Methodist Church and Methodist churches throughout Boone County will participate in an area-wide Spiritual Life Revival October 23-30, according to Rev. C. N. Ogg, pastor of Florence church. The local congregations are among the many hundreds of Methodist churches sharing in this program which is under the general chairmanship of Bishop W. T. Included in this area-wide Methodist program are a series of district revivals of power for the host and guest pastors, who will serve in the revival. These will be held at district centers during the mornings of the week. These Periods of Power train pastors for the program of the Spiritual Life Revival in visitation and preaching to be held in the participating churches each evening. Periods of Power for the Covington District will be held at Epworth Methodist Church, Covington.

A district-wide Youth Rally will be held Saturday night, October 24, 7:30 at Grace Church, Newport, Sixth Street, east of Monmouth. Dr. John Horton, pastor State Street Church, Bowling Green, will be the speaker.

Burlington Boy Managing Basketball Team In Korean Area

SFC Reynold Todtenbier stationed with the U. S. Army in Korea is now managing a well-balanced basketball team, according to a clipping sent us from the Army bulletin printed in Korea. The clippings follow:

"The basketball season gets under way this week and the 3d QM team has high hopes of a successful season.

"One important reason is depth. Manager, SFC Todtenbier, has had his team practicing the last week and reports that we'll have a strong well-balanced team. He plans to have two 7 or 8-man units training together and switch them during the games. This strategy figures to wear out the opposition in addition to emphasizing teamwork and enabling all the players to get into the game.

"The first game will be played at our field Monday evening. Anyone wishing to try out for the team should contact SFC Todtenbier at the Co. Mess Hall."

Another clipping from the same bulletin follows:

"Why are the cooks singing so early in the morning? It must be the pleasure of the new mess. It's time we gave praise to our cooks. The Army travels nowhere without its cooks. These men of the 'pots and pans' are on call at all times to whip up some good chow. It's because of them that we have strong healthy fighting men.

"We believe the 3d QM has the best. Through our three messes pass the best fed men in Korea.

"SFC Todtenbier and crew have hammered and painted away for a week, and now we have a most attractive and efficient dining room and kitchen.

"This week's Kourier Orchids go to our mess hall dependables for their excellent work."

GOOD ROADS ARE NOT OUT OF THE QUESTION

Kentuckians sometimes take a long time to reach the point of agreement in common cause, but once they do, things get done. So it is with the state's obsolete network of blacktop roads, which go under the somewhat misleading name of a highway system.

As Governor Lawrence Wetherby cheerfully remarked: "Too many people, with too many ideas, are bearing down on this thing for something not to happen." The state itself already has contracted for a thorough survey of the Highway Department and its problems. Governors of Indiana, Kentucky, Tennessee and Alabama are exploring possibilities of a single toll superhighway reaching from Chicago to Florida.

Now comes the Kentucky Good Roads Federation with an idea how

the state could finance transformation of its antiquated road system into one capable of handling today's traffic. The problem is and has been one of money. Not that the state doesn't collect enough money to support a highway system from its gasoline tax; it does. But the Good Roads Federation estimates it would cost a whopping \$162,000,000 to rebuild the system. Plainly enough, that sort of money cannot be found in current revenue.

Most other states could issue bonds, build the roads, and have done with it. Kentucky's Constitution, however, fixes the state's debt limit at \$500,000. State bonds are out of the question. So for years the highway department has been spending its income on blacktop roads, each of which increases the maintenance cost of the whole.

Quite frankly, the Good Roads Federation's proposal is a circumvention sired by ingenuity and born of necessity. It is in the accepted pattern of such circumventions which are established and respectable. The General Assembly under this proposal, would create a separate road authority with powers of ownership, power to borrow money and authority to improve roads. Then the Assembly would authorize the Highway Department to give the roads to be improved to the new authority. It, in turn

would issue revenue bonds, rebuild the roads and lease them back to the Highway Department for enough to pay off the bonds. It's all very ingenious, but all, apparently, very legal. The best thing about it, of course, is that it would get the roads built. This may not be the final solution, as the Governor suggests. But it is an idea that represents the vigor with which the subject is being explored. By the time the Automotive Safety Foundation comes through with the reports on its Highway Department survey, Kentucky will know where it's going, roadwise.

IN LOVING MEMORY

Of our dearly beloved mother, grandmother and great-grandmother, Sophia Zimmer, who passed October 20, 1953. It seems like only yesterday, You smiled your very last, We cannot seem to realize That one long year has passed. You bade no one a last farewell, You said goodbye to none, Your loyal heart had ceased to beat Before we knew it you were gone. Sometimes it's hard to understand Why some things have to be. But God in His wisdom has planned Beyond our powers to see. —Sadly missed by her daughter, Mrs. Henry Kottmyer, Grandchildren and Great-Grandchildren. 11-p

LOOK AT IT
this WAY

It is strange how you hear folks say time and time again that trucks don't pay enough highway use taxes. When you press them and ask how much they think the trucks do pay in comparison with the passenger car, you get answers like "maybe twice, perhaps three times as much". Nothing could be further from the truth.

In Kentucky it takes the total road taxes paid by 23 automobiles to equal those paid by just one large transport truck! Just think of the revenue Kentucky gets from Public Servant No. 1, the TRUCK!

Bullittsville Pastor Preaching Series Of Sermons On The Bible

Many people have been confused by the conflicting statements that have been made about the new Revised Standard Version of the Bible. There have been violent denunciations of it, sometimes accompanied by demonstrations in which copies were burned or had pages

torn from them. On the other hand, there have been strong declarations praising the new version, and it has gained widespread acceptance. Which position is right?

In order to answer this question it is not really necessary to study the history of the Bible, or how it came to be written, or what it really is, etc., but it would certainly be most helpful. For this reason, as well as others, the pastor of the Bullittsville Baptist Church has begun a series of Sunday evening sermons on the Bible. The first in the series was preached last Sunday evening, Oct. 18. The other will be presented on successive Sundays.

Topics for the series will include the ones mentioned above, inspiration, authority, how to interpret, the original languages, modern translations, comparison of the King James and the Revised Standard Versions, etc. Some interesting things concerning the King James or Authorized Version will be discussed. Through the whole series the effort will be made to present material that will tend to deepen understanding and respect for the Bible. It is designed also to help each person to increase his ability to use the Scriptures effectively.

These services are open to everyone, as are the other regular services of the church, and everyone will find a cordial welcome there. Evening services start at 7:45 p. m., immediately following the training period of the church which begins at 8:00 p. m.

Northern Kentucky PCA Stockholders Hold Annual Meet

The annual stockholders' meeting of the Northern Kentucky Production Credit Association was held Thursday, October 15th at the American Legion Hall, Williamstown, with A. Threlkeld, president, presiding. Members of the association from Boone, Campbell, Kenton, Carroll, Gallatin, Grant, Owen and Pendleton counties which are served by the association filled the hall to capacity.

W. J. Scott, president of the Artificial Breeders Association of Boone County and manager of Boontucky Farms, spoke on "How farmers can use their Production Credit Association and how it can fit into the needs of the individual farmer."

The stockholders re-elected W. H. Parker of Carroll County and F. G. Marquette of Pendleton County, as directors for a three-year term.

Reports on progress and financial condition of association was made by Roscoe Jump, director and R. H. Lawrence, secretary-treasurer. The financial statement of the association indicated around a million dollars was being used in short term loans. It was of interest to note that members had over \$219,000.00 as their investment in capital stock and accumulated earnings in their farmer-owned organization.

All enjoyed the day with an abundance of food at noon and entertainment by soloists. Mrs. Gordon True and special numbers by Little Miss Molly Parsons, accompanied by Mrs. C. L. Vincent of Corinth, Ky. Another feature of the program was the tap dancing and acrobatic performance of the talented Little Miss Becky Jones of Kenton County.

No Schools Will Lose Under Wetherby Plan, Says Report

Governor Outlines Plan For School Program In State.

No school district in Kentucky will lose money through passage of the amendment to Section 186 of the Constitution if the General Assembly follows recommendations that Governor Wetherby will make when the body convenes here in January.

Wetherby made this clear in television and radio appearances last week in which he urged support of the amendment, which deals with the distribution of common school funds. He had earlier made the same promise in his first statement endorsing the amendment.

The constitution as it now stands is stringent in its regulations for distributing school money. Under the amendment, the Legislature would be allowed to devise a means of spending funds where they are needed most.

"No school district should have money taken away from it to help another," Wetherby said in reassuring districts that have expressed concern over losing funds as a result of the amendment.

"If the amendment is passed, I will recommend to the Legislature that present methods of distributing funds be continued if the total appropriation to common schools is the same for the next biennium as it is for the current two years. If the appropriation is more, I will recommend that the additional money be placed in the equalization fund for distribution according to sound school financing principles.

"Under this method, no district will have less money to spend in future years and the poorer districts may have more," the Governor explained.

Wetherby said he had "great confidence" in the members of the General Assembly and called on the public to trust them with determining an equitable method of sharing the school funds.

The Governor also came out strongly last week for the other Constitutional amendment that will appear on the ballot Nov. 3. The "short ballot" amendment, as the measure is called, would provide for only five officials elected statewide and would give the General Assembly the authority to determine the treasurer, secretary of state, commissioner of Agriculture and superintendent of public instruction are selected.

Postponement Of Florence Sewer Project, Advised.

After Straw Vote Shows 167 For and 160 Against Project.

Postponement of the Florence Sewer System was advised by the Magnus & Company, Cincinnati, Ohio, fiscal agents for the City of Florence, in a letter received recently by William Fitzgerald, City Clerk of Florence.

The letters follows: "We note that out of 584 letters that were mailed to property owners in the City of Florence, 327 were returned of which 167 signed in favor of constructing sewers and 160 were signed opposing the construction of sewers and that you ask our recommendation as to further action in the light of the survey. It seems obvious to us that the project must necessarily be held in abeyance until either a greater percentage of support is in evidence or the City is commanded by the State and Federal Governments under the Sanitation Compact Commission to correct the health hazards that exist.

"We believe that those opposed to the project are not fully cognizant of the perils from a health standpoint that exist under present conditions, nor have they fully analyzed the benefits that would accrue to themselves as the owners of property which would become more valuable with adequate facilities being afforded in Florence and the surrounding area to prospective home builders. Property valuation could not help but increase, and the area situated as it is, would not help but expand and enjoy further growth. It is surprising how Florence has grown under the handicaps of inadequate water and sewage facilities and one can well imagine the growth if adequate facilities were available.

"We believe the survey has just served to postpone the day of reckoning and accordingly will continue to act as your fiscal agent in the belief that a solution will of necessity have to be found by your community for the foregoing reasons."

Florence Rotary Club Completes Series of Programs on Sec. 186

The Florence Rotary Club completed last Monday night a series of three programs designed to enable its members to be well acquainted with the issues involved in the proposed amendment to Section 186 of the State Constitution. The following week Dr. Martin of the office of the Superintendent of the Department of Education from Frankfort spoke in favor of the amendment. Rotarian Ben Zimmer, Jr., was in charge of this program. At the third program on this subject Rotarians heard former State Senator Charles Truesdell speak against the proposed amendment.

Joe Claxon, County Agent and Wallace Lucas of Lucas Hardware, were introduced as new members. Announcement was made that on November 9th Ellis Crawford, Curator of the William Behringer Museum will speak to the club on the subject of the "Early History of Boone County."

"The entire public assistance program for September included \$1,940,536 to 55,598 aged needy persons; \$1,240,390 to 19,634 families represented by 52,169 children, and \$94,169 to 2,548 needy blind persons.

School Building Dispute Will Be Heard In Court

Restraining Suit Filed By Derby Construction Co.

Differences between the general contractor and a sub-contractor over masonry and interior brick work at the new Boone County High School, now under construction at Florence, Ky., has gone into Boone Circuit Court, it was announced.

The Derby Construction Co., Louisville, general contractor, filed suit late Thursday to restrain Boone Fiscal Court from paying \$18,861 to the Rowley-Brest Co., a sub-contractor.

The Rowley-Brest Co., earlier had filed a lien in the county clerk's office against the \$18,861 it alleged was due, and Fiscal Court had scheduled a meeting Friday to act on the matter. The meeting was called off after the suit was filed.

Officials said the architect of the new school and school authorities didn't approve the work done by the Rowley-Brest Co., and payment was held up pending satisfactory adjustment.

Construction work on the new school is about 75 per cent complete, it was reported. Completion of the building will not be affected by court action, county officials said.

Hansel Williamson Returns Home After Eight Years In Europe

Stuttgart, Oct. 14—M. Sgt. Hansel (Mr. Rambler) Williamson, for eight years one of the outstanding athletes in the European Command is returning home this week.

Williamson, a native Kentuckian, has been active in USARUR baseball and basketball since the spring of 1945.

A catcher, Williamson hit his baseball peak in 1947 when he led the Constabulary Ep. Trps. Ramblers to a share in the Constabulary crown. He batted .459, tops for the league, and belted 26 home runs.

In 1948 he had a .421 batting average and the following year hit .429. His .398 in 1950 was good enough for another Constabulary batting title.

His basketball prowess earned him berths on three all-star teams. In '47 he made the 3d Army tournament team and two winters later was listed on the all-Constabulary team for sparking his Special Troopers to first place. That same year he averaged 26.5 points per game during the season. His 1951 Constabulary team took top honors in all of EUROM and Mr. Rambler was awarded all-star honors once again.

Hansell was player-manager of this year's 7th Army Sp. Trps. Ramblers and guided them to the Western Conference crown. Playing second base and shortstop he hit over .300 in his final year of USARUR baseball.

Williamson, who has been accorded the rare honor of having the 7th Army football field named after him, hopes to get into officiating and play semipro baseball after discharge.

Social Security Tax Rate To Increase January 1, Word

Employees Covered By Law Will Pay Two Percent Instead of 1 1/2 Percent.

The social security tax rate for persons whose work counts toward old-age and survivors insurance is scheduled to increase on the first of January, Joseph T. Ware, manager of the Covington, Ky. social security office, reminded employers, employees, and self-employed people today.

This scheduled increase in tax contribution is in accordance with the 1950 amendments to the social security law, and was enacted by Congress in anticipation of future obligations of the program.

Employees in jobs covered by the law will have 2 percent instead of the present 1 1/2 percent deducted from their pay beginning with the first of January up to earnings of \$3600 a year; their employers will contribute an equal amount.

The new rates will apply to all taxable wages paid after December 31, 1953, regardless of when earned. The social security tax for the self-employed is scheduled to increase from the present 2 1/2 percent social security tax on their 1953 income that counts toward social security. This will be due not later than March 15, 1954. Their first payments at the increased rate of 3 percent will be due March 15, 1955, for the calendar year 1954.

In the meantime the Internal Revenue Service reports that employers will be furnished late this year with income tax withholding tables and Federal Insurance Contributions Act (social security taxes) tables reflecting rates applicable next year.

The next scheduled increase, six years from now, in 1960, will be to 2 1/2 percent each for employer and employee, and to 3 1/2 percent for the self-employed.

County Supt. Explains Proposed School Amendment

H. N. Ockerman, Boone County School Superintendent submitted the following article for publication in this paper, concerning the proposed school amendment which will be voted on November 3, 1953.

The article in full follows:

During the past few weeks much has been said about the proposed school amendment which will be voted on November 3rd.

What is section 186 of the Constitution and what will it look like if the amendment is carried? Why do many people say it should be changed, and why are some sections of the state opposed to its passage?

Section 186 of the constitution reads as follows: "All funds accruing to the school fund shall be used for the maintenance of the public schools of the Commonwealth, and for no other purpose, and the General Assembly shall by general law prescribe the manner of the distribution and use of the public school fund for public school purposes. Provided that each school district in the Commonwealth shall receive on a census pupil basis its proportionate part of at least 75% of any funds accruing to the school fund. The remainder of any funds accruing to the school fund may be distributed upon other than a census pupil basis."

If the school amendment is passed the above section will read as follows: "All funds accruing to the school fund shall be used for the maintenance of the public schools of the Commonwealth and for no other purpose, and the General Assembly shall by general law prescribe the manner of the distribution of the public school fund among the school districts and its use for public school purposes."

The difference between the two is in the manner of distribution. At present 75% of the state school fund is distributed to the school district on a census pupil basis. According to the Kentucky Court of Appeals a census pupil is a child of school age (6-18) living within the school district. The state school fund is distributed on the number of children residing in a district rather than the number of children actually attending public school. Financially, it is to the advantage of a school system not to have all children of school age in public school. This would be fair if all absentees were equal in every district, but this is not the actual situation.

In Kentucky there are 682,595 children of school age and only 69.9% are enrolled in public schools. Of the 205,051 children not attending public school 40.3% resident in 10 counties—Campbell and Kenton being two of the ten. Here are a few school systems in Kentucky showing the percentage of school age attending public school:

Campbell County 53.7%.
Davies County 58.1%.
Jefferson County 61.2%.
Kenton County 53.7%.
Lee County 64.0%.
Nelson County, 53.9%.
Wolf County, 56.2%.
Bardonia, 43.8%.
Bellevue, 47.7%.
Beechwood, 35.4%.
Covington, 48.4%.
Dayton, 51.2%.
Erlanger, 53.7%.

Louisville, 59.5%.
Newport, 51.6%.
Southgate, 37.6%.

In school systems where a large portion of children of school age do not attend, public schools have more funds available in proportion to the number of children they educate, than do schools who have a great majority of children attending public schools. Naturally the taxpayers enjoy a low tax rate where the percentage of enrollment is small.

There are inequalities in teachers' salaries due to the present method of distribution of schools funds. State school funds must be used for teachers' salaries and these range from \$800 to \$2700. Boone County teachers last year had a guarantee from the state funds of \$14,634.93 per teacher, while a neighboring school had a guarantee of over \$2,700.

The cost of operating a school is when you have children enrolled and attending school. What justification can be given to this comparison? In Boone County, for every 100 children on the census, they receive \$3,811.00 from the state, a neighboring school receives the same amount for 100 census pupils. While Boone County educates 90 of their 100, the neighboring school educates only 36.

If you consider state money based on attendance in school it varies from \$40.00 per pupil to \$140.00. Some people suggest putting more money in the state fund and it will remedy the situation. If ten million dollars were added to the common school fund and distributed on the census basis the variation would still be greater, ranging from \$35.00 to \$193.00 per pupil, instead of \$100.00 difference it would increase to \$138.00.

If the amendment is passed a minimum education program will be enacted. The legislature will establish certain school requirements and will guarantee every

school system that standard of education, and if a community wants to go above that standard it may do so.

Local Advisory Committees on educational policies were organized in every school system in Kentucky. These committees had a total membership of 5,225 and by their study they drew up a tentative minimum educational program which suggested that school funds be distributed according to the following services. Instructional, transportation, operation and school plant facilities.

Critics of the amendment say you can't trust the legislature to make laws to distribute the school fund. If this be so, why have 32 states given the legislature authority to determine the manner of distribution of state school funds. Fifteen other states have set up constitutional school funds, but the legislature in all of these states have authority to establish other than the constitutional school fund and they have complete authority to determine the distribution of these funds.

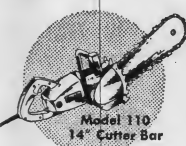

Kentucky is the only state in the nation which sets up under constitutional permission a single common school fund and prescribe under section 186 that at least 75% must be distributed on a census pupil basis.

Another argument opponents of the amendment are using is from the teacher's angle. They claim at the present, if the amendment is passed they lose the guarantee that all money from the state must go into teacher's salary. This is a misleading statement for no where in section 186 of the constitution is mentioned a guarantee for teachers' salary. The K. R. S. 137.020 is a statutory law passed by the legislature guaranteeing that the state school fund be used for teachers' salary. If the legislature cannot be trusted, why was this made into a law?

One beautiful October day, members and friends of the Bullittsville-Ildewild Homemakers Club boarded a Green Line bus and visited points of interest in Cincinnati.

The first stop was the Taft Museum. After an interesting tour of the museum the group journeyed to beautiful Eden Park and the famous Botanical Gardens and the Art Museum. After eating lunch at the Art Museum, the group proceeded to Mt. Adams and the home of Rookwood Pottery, where they were shown steps in making a piece of pottery.

Some souvenirs were purchased and everyone returned home well informed and reporting a good day of fellowship.

with CA
Tractor and
Subsoiler

A reserve of precious water can mean the difference between a bountiful harvest and just an ordinary crop.

The Allis-Chalmers CA Tractor with subsoiler penetrates to a depth of 18 inches and shatters hardpan. This permits more water to accumulate in the subsoil and allows plant roots to penetrate deeper in search of water and plant food.

Low-cost subsoiling with your own equipment is another advantage of owning an Allis-Chalmers CA, WD or WD-45 Tractor. Automatic Traction Booster and low, forward, single hitchpoint give necessary traction for real subsoiling with a wheel tractor.

Ask us to prove it with a field demonstration.

BABY'S PRECIOUS FEET

N. TULCH

Ninety-nine out of a hundred babies are born with normal feet even though they do appear to be flat at the start. We say babies are born with flat feet because the bony masses in the new born baby's feet are held in place by pads of adipose tissue or fat. As the child begins to stand and walk these fatty pads are absorbed and muscles take

their place. By approximately the third year the arch of the foot become fairly well defined if the child is going to have an inner longitudinal arch. We say if, because every one is not intended to have a high contoured arch to the foot, any more than everyone is meant to have the same hair color or eye coloring. In the event a child is overweight or undernourished, or he's gone through a serious illness, when starting to stand the muscular structure may not develop sufficiently to produce an arch in the foot. The child then grows up with a natural flat foot, which is rarely painful or handicapping. However, many causes of flat feet can be avoided by providing the child with FOOT SHAPER shoes which hold the weak feet in perfect alignment. These FOOT SHAPER shoes are wedged slightly under the inner border of the os calcis, or heel bones. This prevents pronation or inrolling of the ankles and by over correction has a tendency to shorten the muscles on the inner border of the leg. These muscles are the ones which keep the foot arched. If you feel that your child has weak or flat feet take him to PEOPLE'S, where experienced foot comfort specialists give you expert advice on treatment and correction of such conditions.—ADV.

SCHOOL AMENDMENT**

(Continued from Page Four)
law? If the General Assembly cannot be trusted to perform this task of establishing a minimum educational program then representative democracy itself cannot be trusted. Kentucky is one of the oldest states of the Union. If we are the only state distributing school money as we do, could it be possible we are wrong? According to all surveys on education Kentucky ranks near the bottom. Why not try a change and try to give Kentucky a better school system equally with the rest of the states?

Fort Knox Army Major Killed Thurs. Near Boone Line

Skull and Leg Fractures Suffered By Victim In Accident.

Maj. Lew M. Noble, 60, retired Army Major was killed Thursday night when he stepped from his auto in front of Ray's Food Market, near the Boone-Kenton line on Dixie Highway, and was struck by another car.

The victim was on his way from Ft. Knox to Bonton with his wife, Mrs. Helen McGrath Noble and a step son, Jay F. Metcalfe, 13, at the time. Maj. Noble had left his wife and stepson at the Wildwood tourist court on U. S. 42 near Florence, and had driven to the food market apparently to purchase food.

Maj. Noble, in stepping out of his auto, stepped directly into the path of the auto driven by Fred Patterson, 53, of 6517 Meis Avenue, North College Hill, it was reported. The victim was removed to St. Elizabeth hospital by the Elsmere life squad, and was pronounced dead on arrival. He suffered basal skull and left leg fractures.

Maj. Noble was relieved of active duty at Ft. Knox, September 30. He had served in the Philippine Islands.

Leach apparently swerved the car and sideswiped the auto he was passing in an attempt to avoid a head-on collision with an oncoming car. The car skidded 200 yards and rolled over four times after he lost control, police reported.

Mrs. Susie Leach, wife of the victim, was reported in fair condition at St. Elizabeth Hospital, Covington, where she was taken by the ambulance of Chambers & Grubbs, Walton funeral directors. Mrs. Leach suffered from a possible pelvic fracture and head injuries.

Squirrel Season Will Close Nov. 5; Reopens Nov. 20th

First 25 Days of Regular Season Open To Squirrel Hunters, Report.

The squirrel season in Kentucky will close today, Thursday, November 5, after the ban was lifted by Commissioner Earl Wallace on October 27, following a statewide rain which alleviated the forest and field fire hazard in Kentucky.

The ban, which started in October, caused the hunters to lose 25 days of the regular season, and these days will be given back during the rabbit and quail season which opens on November 20. In other words the first 25 days of the rabbit and quail season will also be open to squirrel hunters. The added squirrel season will close after December 15.

Mr. Wallace announced that the "no hunting of any kind with guns" ban which has been the custom before the opening of the rabbit and quail season will again be in effect this year from November 5 to November 20, except for waterfowl which may be hunted under federal regulations beginning on November 17. The ban on hunting of opossum and coons with dogs only also was lifted October 27 by Commissioner Wallace.

Many Items Of Business Transacted By Florence Board

At Regular Meeting Held Tuesday of Last Week; Zoning Group To Meet.

The Florence Board of Trustees at their regular meeting held on Tuesday, October 27th took action establishing the policy of relieving corner lots of part of the cost of laying water mains where main is laid on both front and sides of the lot. On the recent water line laid on Roger Lane and Edward Avenue this action brings a savings of \$480.00 to the owners of the corner lots included in the job. The City assumes this amount for payment from the General Fund. This action was taken under the authority given in the Kentucky Revised Statutes 94.303.

Ordinance No. 266 was presented for final reading and was adopted. It provides for the advertising for bids for laying water mains on Circle Drive from U. S. 25 to Edward Avenue; on Meadow Lane, on Orchard Drive, on a portion of Roger Lane, on Burk Avenue, and on a portion of Edward Avenue. A total of approximately 4100 feet of main is included in the job. Bids will be received on November 10.

Plans for a substantial addition to the Roberts Service Station were presented and also plans for a small office building on the Dixie Highway. These were referred to the Building Inspector.

The clerk was instructed to place advertisement in paper for bids for furnishing police cruiser to the city. Reported that an applicant for the position of Town Marshal was being considered and that an announcement might be expected in the near future.

A resolution was passed leading to legislation for laying water mains on a portion of New Uri Avenue; on U. S. 42 to Scott Drive, on the full length of Scott Drive, and on the full length of Ash Street. The ordinance providing for this work will be presented for first reading on November 10. Approximately 4000 feet of water main is needed for this work.

The Florence Planning and Zoning Commission will meet at the home of William Fitzgerald, City Clerk, on Monday, December 1, at 8 p. m. Plans of the R. P. Coleman subdivision of U. S. 42 will be presented for final approval.

The Clerk is revising the city map to show all additions to the city through annexation. Lots and lot numbers will be shown.

Tibetan Border Missionary To Speak At Bellevue Church

Missionaries to the borders of Tibet, also called the "Land of Mystery," or the "Roof of the World," will speak at the Bellevue Church of Christ on Sunday evening, Nov. 8 at 7:30 p. m. Mr. and Mrs. R. LaVerne Morse, Christian missionaries in the region "where China, Tibet, Burma and India meet," are evangelists abroad for the Church of Christ.

To heathen tribespeople on the Tibetan Border, R. LaVerne Morse, his family, and associated missionaries have taken the gospel of Christ. The formerly heathen tribespeople have received new hope, new ideals, and new goals through the efforts of these missionaries.

Through the years, the Morses and associates through the power of the gospel of Christ have established 130 churches with membership of over ten thousand people. In languages for which formerly there was no system of writing, they have translated the Scriptures and printed Christian literature for the education of the tribespeople.

In 1949 when the Communists overran China, Christian missionary work in the Chinese part of the mission field became practically impossible. In 1951, the Chinese Communists arrested Mr. J. Russell Morse, father of LaVerne Morse, and accused him falsely of being an American spy. This they did though he had spent a lifetime trying to help and uplift the people on the Tibetan border and in China through Christianity.

For fifteen months, the Chinese Communists tried to break J. Russell Morse physically, mentally, and spiritually. Keeping him alone in a prison cell with a clay floor and three boards to sleep on, the Communists handcuffed, kicked, and beat him until blood flowed from his nose, head and body. Yet, as a Christian, refused to confess to accusations which were not true. Finally, when he still could not be broken down, after a year and a quarter of torture during which he lost almost sixty pounds of weight, the Communists released him near Hong Kong.

At the Church of Christ, LaVerne Morse will speak concerning the Tibetan border mission work. His wife, the former Lois Elliott, of Cincinnati, Ohio, will also sing at the evening service. They will show color slides of the remote areas of the Tibetan border. They are planning to go next year to the mission field in northernmost Burma, just across a range of high mountains from Communist China.

Diabetes Detection Drive Opens In County Nov. 15th

Dr. Gladys Rouse Is County Chairman Of Drive.

The County chairman, Dr. Gladys Rouse and all physicians in the county are urging everyone, young and old to cooperate during Diabetes Week November 15-22.

Residents of the county are urged to take a urine sample to the nearest doctor or to their family physician for a urine test to detect any trace of sugar.

The aim of this drive, according to officials, is to find as many as possible of the undetected diabetes and bring them under care of their physician before the ailment reaches a stage where it may lead to serious complications.

Leaders in all civic organizations should call this drive to the attention of their members. This is a service of the local doctors to the community, as no charge is made.

The instructions are simple: Take sample of urine in clean bottle or container, label the jar, glass or container with name and address.

The County Health Nurse, Mrs. Mary Cress and School Nurse, Mrs. Jack Caldwell have pledged their support to this drive and will take the information to all the county schools.

Diabetes, under proper medical control, does not need to interfere with the normal life of the person who has it. But an estimated million Americans have diabetes without knowing they have it—and hence are getting no medical care.

This is the fifth consecutive year the drive has been carried out in Boone County, and with the cooperation of the residents of this area, much progress can be made in checking and controlling diabetes.

Florence Drug Store Announces Contest

The Florence Drug Store, owned and operated by Sam Denham, announces its annual Christmas contest for boys and girls throughout the county.

Topping the list of prizes are a boys' bicycle, girls' bicycle, electric train, racing car, guns, holsters and many other interesting prizes will be offered. Prizes are now on display in the store.

Any boy or girl 16 years of age or under is eligible to enter. Mr. Denham stated. Simply get a Nomination Blank at the store and have Dad or Mother (or a friend or relative) fill it out for you. The minute it is turned in to us, properly filled, you're officially entered in the contest!

During the contest, one vote can be cast for every penny spent at the store. For example, if your family needs aspirin, ask Mother to buy a bottle of Rexall Aspirin at the store for 54c. This purchase will entitle her to cast 54 votes for you. If your relatives, friends, neighbors (and others you may ask to help you) buy their everyday needs at this store, their purchases could easily build up into a staggering total of votes in your favor.

Mr. Denham said the sooner contestants get started in the contest, the more votes they'll pile up. Prizes will be awarded winning contestants during Christmas holidays.

House Numbering Approved By Board At Florence Meeting

Numbers Approved For Tri-City Area Along Dixie Highway.

For several weeks the Florence postmaster, Lawrence Aylor, and City Clerk, William Fitzgerald, have been working on the house numbering problem. All houses in the city have been numbered except the ones on the highways. These numbers are on file in the Florence post office. Mr. Aylor asks that residents make use of them as soon as possible.

The numbering of houses on the highways presented a more difficult problem. It was thought that the numbers on the Dixie Highway should begin at Covington and extend continuously from there out through the cities on the highway. This idea involved cooperation of the Covington Chamber of Commerce. Mr. Cox, the Chamber of Commerce secretary studied the existing numbers on the highway, and found some sports where they seemed a bit haphazard, but on the whole they seemed adequate. He approved the plan to let the numbers run continuously out the highway.

A plan was prepared and presented to the Erlanger, Elsmere and Florence Town Boards. After some study the following scheme was approved:

Beginning at 3000 Dudley Pike; 3100, Kenton Lands Roads; 3200 Clover Avenue; 3300 Hallam Avenue; 3400 Erlanger Road; 3500 Commonwealth Avenue; 3600 Graves Avenue; 3800 Price Avenue; 3900 McAlpin Avenue; 4000 Linwood Avenue; 4100 Forest Avenue; 4200 Rosebud Avenue; 4300 Sunset Avenue; 4600 Kenta boo Drive; 4700 Lexington Avenue; 4800 Goodridge Drive; 4900 Rose Avenue; 5000 Dorthea Avenue; 5100 Banklick Street; 5200 intersection of U. S. 42 and 25; 5300 Smith Street; 5400 Valley Drive; 5500 Glenrose Avenue; 5600 Circle Drive; 5700 Meadow Lane; 5800 Roger Lane.

Numbers for U. S. Highway 42 are: 5300 Russell Street; 5400 Scott Drive; 5500 Grand Avenue; 5600 Woodland Street.

Within a short time numbers of houses in Florence on the highway will be placed on file in the post office. It is expected that this will expedite the delivery of goods from Covington and Cincinnati.

There are in the cities of the Tri-City area several streets bearing the same name. This is confusing and the suggestion has been made that some move be made to secure the changing or modifying of some of the street names to eliminate this duplication.

Farmers Need To Buy Fertilizer In Large Quantities

If They Stay In The Business Of Successful Farming, Word.

Farmers will need to buy fertilizer in large quantities next year and in years following if they stay in the business of successful farming. Under the present economic conditions of farm product prices and operating expenses, it is quite essential that farmers buy the plant foods that are limiting production most.

Before farmers can buy the analysis of fertilizer needed, they must be stored by the local dealer. Usually the dealer is anxious to store what the farmer needs if he knows what the needs are.

Joe Claxon, County Agent of Boone County recommends that farmers get their soil tested so they will know the fertilizer needs and be able to buy wisely.

Bring your soil to the County Agent's office and have your soil tested.

Mrs. Bart Aylor underwent an operation at St. Elizabeth hospital last Friday and is getting along nicely.

OUR ANNIVERSARY

Forty-eight years ago, on November 6th, this bank opened its doors for business. During this time we have seen booms, recessions, and depressions, but no matter what conditions were, no customer of this bank was ever refused a loan if his note was good. No restriction was ever placed against any depositor's account—we always paid our depositors on demand without having to resort to borrowing any funds. This will continue to be our solemn pledge to our depositors and borrowers in the future.

Next Wednesday, November 11th, is Armistice Day and a legal holiday. This bank will not be open for business on that day.

THOROUGH DISCING with Ease

**THAT'S THE STORY OF THE NEW ALLIS-CHALMERS
MOUNTED DISC HARROWS FOR CA, WD OR WD-45 TRACTORS**

Here is a disc harrow with weight and ruggedness for a complete job of discing. The flexible frame allows each gang to follow contours and uneven ground. At the same time, the gangs are kept in perfect alignment... without gouging or dodging.

The touch of a lever raises the entire harrow... making it easy to transport over roads and grassed waterways.

And now, for the first time, you get exclusive, precision-built BAL-PAK gang bearings that never need greasing. They are lubricated and sealed for life.

Let us demonstrate this new mounted disc harrow. You'll agree it's the easiest-handling harrow you've ever used.

BAL-PAK is an Allis-Chalmers trademark.

For a real bargain— get a real truck!

SURE, you can save a few dollars now on a truck price-tagged slightly less than a GMC. But if you want a bargain that will still be a bargain after years of hard truck-work, ask these questions before you buy:

Does the truck give you a GMC's 105 H.P.P. That's up to 19% more power than comparable sixes. It hustles a GMC's top loads up tough pulls—without engine strain.

Does it have a GMC's 8.0 to 1 super-high-compression? That gives you quicker getaways—more drive—better mileage. All on regular gas.

Does it offer a GMC's engine- and driver-sparing

Truck Hydra-Matic? With it, you say good-bye to gearshift wrestling. No more clutch repairs. Maintenance costs shrink.

Does it have the extra protection of a GMC's self-energizing brakes? The extra comfort of a GMC's "Six-Footer" cab? The handling ease of a GMC's ball-bearing steering action?

If all the answers are "yes," you have a real bargain—a GMC. And there are 19 handsome 1/2- to 1-ton models to choose from. How can you lose?

*Standard equipment on Package Delivery chassis; optional at moderate extra cost on all others.

FFA Drive Will Open November 10, Word

The state-wide drive to raise \$250,000 to improve and expand the Future Farmers of America State Leadership Training Center at

Hardinsburg will begin November 10 and will continue until Thanksgiving. An announcement by drive chairman Robert B. Hensley, Louisville attorney and a vice-president of the Green River Steel Corporation at Owensboro, states that the drive

will officially begin with a kickoff meeting at the F. A. center in Hardinsburg, Tuesday, November 10. During the past 10 years, the camp has served more than 17,000 boys. Training there prepared them for more prosperous farming careers, Hensley said.

Some 1,500 Future Farmers and their sponsors, representing every Kentucky county, will attend the program at Hardinsburg next Tuesday. The program will begin at 10 a. m. with a parade to be led by the 124-piece Manual High School band of Louisville.

Florence

Mrs. R. B. Taylor enjoyed a 4-day stay at Louisville, where she attended the Grand Chapter session of E. S. Those who accompanied her from Florence were Mrs. Harry Hopper, Mrs. George Morith, Mrs. Gene Sparrow, Mrs. Frank Dickey, and Mr. and Mrs. Leonard Isaacs. They were later joined by Mrs. Everett Bell and Mrs. Evelyn Miller. Rev. Wilford C. Butt conducted the funeral service of Mrs. Frank Draut at the St. Paul's Lutheran Church, Milan, Ind. The Rev. M. Butt was pastor of the Milan parish a number of years ago.

GARDEN CLUB MEETING

The November meeting of Boone County Garden Club will be held November 10th, 1:30 p. m., at the home of Mrs. Wm. Fitzgerald, Florence.

All members of the club are urged to attend as there will be business to discuss and a very interesting program is planned.

Cattle Pointers Given By County Agent Joe Claxon

Feed Supply Inventories Should Be Made Before Decisions Are Made.

Buy feed or sell cattle? Because of the drought this is a question many Boone County farmers must answer, according to Joe Claxon, County Agricultural Agent. This is a bad time to sell poor cattle, so let's count the cost:

1. How many cattle do you have and what are they worth on today's market? Are they fat enough to butcher or will someone else have to carry them over? What would they be worth on today's market if they were (corn-fed) fat?
2. How many cattle will it take to eat next summer's pasture?
3. How much feed will you have to buy to get the above number through the winter? Assume that mature cows will need 1 to 2 tons of hay, depending on their size and pasture available; yearlings, $\frac{3}{4}$ to $1\frac{1}{2}$ tons of hay; calves $\frac{1}{2}$ to $\frac{3}{4}$ tons of hay plus $\frac{1}{2}$ to 1 percent of their live weight of grain daily.

Farmers should take inventories of their feed supply, what they need to buy and which cattle, or other stock they should sell. Good breeding animals should be carried through, if at all possible. Hay, silage and other roughage can make up most of the winter feed.

If the farmer has not enough feed Claxon said he would advise them to sell dry breeders, diseased animals, old animals, off-type cattle and cattle that sell well as feeders or light slaughter cattle. However, he does not advise selling animals that could be used to build up good herds and flocks next season, if feed can be had to carry them through the winter.

Burlington Has First Business Visitor Via Plane

The visit of Carl Sheriff, of Burlington, by airplane Wednesday of last week caused quite a lot of excitement in the town for a few minutes. Spectators watched plane circle a field on the Lester Gulley farm near Burlington, then settle to earth.

A short time after the plane landed smoke was noticed in the area of the field where the plane landed, and a fire alarm was turned in to the Burlington fire department, believing that the plane had crashed and was on fire.

The fire department rushed to the scene, but upon arrival discovered that the plane, piloted by Mr. Sheriff was undamaged and he was en route to Burlington to transact business with A. D. Yelton, Burlington attorney. The smoke was caused from a brush fire.

After Mr. Sheriff had transacted his business affairs he was driven to the field by Mr. Yelton, started his plane and within a matter of a few minutes had returned to his home in Williamstown.

Mr. Yelton stated that he had heard stories of farmers riding their horses to the old toll gate just east of Burlington and walking into town in order to escape the toll charge, but this is the first time a visitor has parked his plane by the old toll gate to visit the town.

This occurrence, though singular, was probably be a common occurrence in years to come.

New Regional Office Set Up In Cincinnati To Serve This Area

Postal Problems Will Be Solved In New Office, According To Report.

Postmasters of Boone County, along with postmasters of all other counties in the State of Kentucky can be justly proud that the Postmaster General of the United States has seen fit to set up a Regional office in Cincinnati, Ohio, to serve the States of Ohio, Indiana and Kentucky in solving their postal problems. Heretofore, all problems had to be submitted, either to the Post Office Inspector, or directly to Washington, D. C.

Lawrence L. Aylor, postmaster at Florence, was privileged to be selected as a delegate to represent the State of Kentucky at the recent Golden Jubilee Convention held in Chicago, Ill., the week of November 2-6, at the Morrison Hotel. Mr. Aylor was elected as First Vice President of the Kentucky Chapter of the National League of District Postmasters at Somerset, Ky., last May.

In the National District No. 5, comprised of the States of Alabama, Kentucky, Mississippi and Tennessee, the report of the District Chairman, Mrs. Roy S. Barber of Lake Cormorant, Miss., revealed that Kentucky ranked high in membership in the league compared with the previous year. The district is proud to boast of having a National President who hails from Yorkville, Tenn. On Friday of the convention each state saw fit to re-elect Postmaster Lawrence J. Jones for another term.

Delegates from all 48 states were in attendance, in addition to two delegates from Puerto Rico. Delegates numbered 15 from Kentucky. Mr. Aylor delivered the invocation to open and close the convention and at the annual banquet held in the Terrace Casino of the Hotel, as well as assisting with convention singing and presenting several vocal solos before a record attendance of some 1400 postmasters of the United States.

Special entertainment supplied by eight of the largest firms in the country, consisted of a Postmasters' Ball on Monday evening, Don McNeill's Breakfast Club radio show, a performance by the Motorola Glee Club composed of some 80 singers. Cinerama, a new movie process at Eitel's Palace Theater, sightseeing tour of Chicago by bus and the annual banquet at the Terrace Casino, followed by an elaborate dance.

Farmers Warned Not To Exceed Wheat Quotas

Marketing Quotas Apply Only On Farms With 15 Or More Acres Wheat.

Recent decisions of the U. S. Department of Agriculture on farm price support eligibility and compliance with acreage allotments and quotas were called to farmers' attention here today by the Production and Marketing Administration state committee.

The Department announced on October 22 that a producer will, with one exception, be required to comply with all acreage allotments established on his farm for 1954 crops in order to be eligible for price support on any basic crop—wheat, cotton, corn, tobacco, rice, or peanuts—produced on that farm.

The exception applies to wheat, where only those farmers who will be subject to marketing quota penalties if they exceed their established acreage allotments will be ineligible for price support on other basic crops if they fail to stay within their wheat allotments. The marketing quotas apply only on farms with more than 15 acres of wheat. Therefore, a farmer who exceeds his acreage allotment, but does not have more than 15 acres of wheat on his farm, will be eligible for price supports on other basic commodities provided he observes his acreage allotments for those on his farm. He will, however, be ineligible for wheat price supports.

Eligibility for available price supports on non-basic crops would not be affected by non-compliance with basic crop allotments. For instance, a producer could be eligible for price support on his oats crop even if he exceeded his wheat allotment.

Basic crops produced in Kentucky for which marketing quotas have been approved by farmers for 1954 are barley, fire-cured, and dark air-cured tobacco and wheat. A 1954 marketing quota for cotton has been proclaimed and farmers are to vote in a referendum on December 15 to determine whether this quota is continued. An announcement is expected soon as to allotments for the 1954 corn crop.

The Department has announced that wheat growers who see between 90 and 100 percent of their 1954 wheat acreage allotments will not lose any acreage, because of underplanting, in the calculation of wheat acreage allotments for future years.

"In other words, there is no penalty in the form of a lower acreage allotment under any future program if a farmer underplants his 1954 (wheat) acreage by no more than 10 percent. In such a case a future year's acreage allotment will be based on the full acreage allotment made this year."

This ruling is especially important to wheat growers since no disposition of excess wheat acreage is to be allowed, bringing the farm within its allotted acreage.

Florence Seniors Will Present Class Play

The Florence Senior class will present its annual class play, "The Custers' Last Stand," Friday, November 13, 1953 at the school auditorium. The play will begin at 8:00 p. m.

The cast includes: Bobby Taylor as Johnny Newsome; Larry Duncan as Jimmy Custer; Harold Markesberry as James Custer; Lorraine Utzinger as Harriet Custer; Irma Abbott as Emogene Custer; Charlotte Durain as Ester Custer; Richard Crist as George Little Bear; Dolores Muench as Lavinia Platt; Louise Durain as Lavinia Platt; Phyllis Scott as Betty Van Ayrdsdale; Nancy Yelton as Claire Van Ayrdsdale; and Jerry Denner as Terence Van Ayrdsdale.

"The Custers' Last Stand" is a comedy farce in three acts. The setting is the Mountain View Lodge in the Rocky Mountains. Johnny Newsome and Jimmy Custer have a mutual dislike for easterners, especially the Van Ayrdsdales, since Terence is Ester's fiancée. The boys decide to rid the West of the Van Ayrdsdales but run into trouble when they mistake the Platt sisters, two old eccentric spinsters, for Betty and Claire Van Ayrdsdale. Terence's aunts from Boston. This just starts the fun as the boys get into further trouble as the play progresses.

The public is cordially invited to attend.

Eggleston-Scott

The home of Mr. and Mrs. George Eggleston was the scene of a quiet impressive double ring ceremony, Saturday afternoon, October 24, uniting in the bonds of holy wedlock Alice Ruth Eggleston and Clifford Edwin Scott.

Rev. Harmon Eggleston, uncle of the bride, officiated with Mrs. Jean McGlasson, soloist and Mrs. Louise White, pianist.

The bride was lovely in her ball-erina length dress of white satin and lace, tailored with a high neckline and long sleeves. She wore a short veil and carried a bouquet of white rose buds centered with an orchid.

Helen Fae Rouse, sister of the bride, served as matron of honor. She was lovely in her ballerina-length dress of blue satin and wore matching mitts. She carried a bouquet of red rose buds centered with an orchid.

Both the groom and his best man, Sebern Scott wore grey suits with white carnation boutonnieres.

Following the ceremony the happy couple left for a short honeymoon to the Smoky Mountains. At present they are making their home with the groom's parents, Mr. and Mrs. Vernon Scott.

CORRECTION

In the death of Arthur Delph published last week we stated that he was survived by two sisters, Mrs. J. A. Feeley, Petersburg and Mrs. J. A. Feeley, Petersburg and Mrs. J. A. Feeley, Petersburg. This was incorrect. The item should have read: He is survived by four cousins, Mrs. J. A. Feeley, Petersburg; Mrs. Sam Barnes, Burlington; Mrs. Mary Bowman, North Bend, O.; and Mrs. Clara Black, of Burlington.

November 15-22 Diabetes Week In Boone County

Control of Disease Is Aim of Nationwide Drive.

Physicians throughout the county are assisting Dr. Gladys Rouse in checking urine samples of young and old during Diabetes Week November 15-22, it was announced this week.

Officials stated the purpose of the drive is to find as many as possible of the undetected diabetics in the county, and bring them under care of their physician before the ailment reaches a stage where it may lead to serious complications. Local residents are urged to take a urine sample to the nearest doctor or to their family physician, where it will be checked for traces of sugar. The sample should be in a clean glass bottle, and marked with the name and address of the person submitting the sample.

In addition to the chairman and county physicians, Mrs. Mary Cress, County Health Nurse and Mrs. Jack Caldwell, School Nurse will assist in the drive.

The test is particularly important, medical authorities say, for any one who is seriously overweight or who has had a sudden unexplained loss of weight, or who has any of the typical symptoms of diabetes. These include constant hunger, excessive thirst, frequent urination, constant tiredness, itching, slow healing of cuts and bruises, changes in vision and pains in the extremities.

A diabetes test is imperative, too, for any one whose parents or other close relatives are diabetics, for the deficiency that causes the trouble is known to "run in families." Not every child of a diabetic will have diabetes himself, but his risk of having it is above average—the earlier he finds out he has it, the easier it will be to keep it under control.

While diabetes most often develops after the age of 40, it sometimes occurs in younger people, even in children. In fact, tens of thousands of children are known to have diabetes, and their cases are ordinarily more severe than those of adults.

This special week is being conducted for the benefit of everyone in Boone County, and all residents should cooperate in this project.

HEBRON P. T. A.

The Hebron P. T. A. will meet Thursday night, November 12 at 8 o'clock at the schoolhouse. All members are urged to be present.

A Refusal Sometimes Is A Favor
Not so long ago a man applied to us for a loan to purchase a farm, but he had not given the matter serious thought as to his probable expenses and carrying charges of the loan. After talking with us he decided to give the matter further study. He came back in a few weeks and was fully convinced that he would not have made a success of the venture. In this case the bank may have been safe but the borrower would have, in all probability, lost his entire lifetime savings. We always look out for the best interest of the borrower as well as to the safety of the bank.

Repatriated Korean Prisoner Dies From Injuries In Automobile Accident On LLL Highway Near Independence

Victim Had Been Prisoner of Communists For Two Years; Car Strikes Telephone Pole After Driver Lost Control of Vehicle.

Corp. Donald North, 20, of Constance, a repatriated Korean prisoner of war was dead on arrival at St. Elizabeth Hospital, Covington, following an automobile accident Sunday morning on the LLL Highway, one mile south of Independence.

Corp. North, who had been due back at Ft. Knox Monday night from a 30-day leave, was driving north on the highway when he apparently lost control of his car, which struck a telephone pole.

Other passengers of the auto who suffered injuries were Miss Patsy Riddle, of Ludlow, face lacerations and possible fractured ribs and pelvis, fair condition; Miss Wanda Ingram, 17, Bromley, possible internal injuries and shock, fair condition; and Miss Alice Delk, 15, Ludlow, possible fractured left foot and ankle, good condition. All were taken to St. Elizabeth Hospital. Three other passengers escaped injury.

The car driven by North was demolished, and telephone wires were loosened from the pole.

Corp. North, who was a prisoner of the Communists for two years, was eligible for discharge in three months. He had been awarded the Infantryman's Badge, UN and Korean Service Ribbons and the Unit Citation Award. He served with the First Cavalry Division in the Fifth Medical Detachment, Kenton County, as a medic. Corp. North said North's death was caused by skull fracture and internal injuries.

Corp. North is survived by his father, Charles North, Sr.; three brothers, Shelby, at home and Owen and Charles, Jr., both of Covington; two sisters, Mrs. Nellie Kingrey, at home, and Mrs. H. J. Rozell, Dayton, Ohio.

Funeral services were conducted at 10:15 a. m. Tuesday at the Catharine funeral home, Ludlow, and at 11 a. m. at the Church of the Brethren, Constance. Burial was in Hebron Cemetery.

Verona Man Sues Railroad For \$50,000

Shelby Tackett, Verona, section hand of the Louisville and Nashville Railroad, filed suit Friday in Boone Circuit Court, Burlington for \$50,000 damages.

In the petition, filed by Sawyer A. Smith, Covington attorney, Mr. Tackett alleges he was injured Oct. 12 when two railroad motorcars collided near Verona. He said he was riding on one of the motorcars, which he said the railroad used to transport section hands to and from places of work.

Mass Meeting Is Announced For December 1st

To Name Committees In Organization of Big Bone Association.

A mass meeting is scheduled for Tuesday, December 1, in the Circuit Court room of the Boone County courthouse, Burlington, to which all organizations and churches in Boone County will be asked to send delegations. This meeting is being called for the purpose of completing organizations plans of the Big Bone Lick Historical Association and the election of permanent officers.

At a meeting of a group of citizens, representing civic, historical, church and farm organizations held the latter part of October at the Town Hall, Florence, an initial movement was started to form the Big Bone Lick Historical Association. The purpose of the meeting was to consider ways and means of promoting the establishment of a historical state park and museum at Big Bone Lick in Boone County. The group believes that if such a historical state park and museum were established at Big Bone Lick, it would attract tourists from all over the world. This would advertise, enhance, and enrich Boone County.

The association has requested all organizations in Boone County to adopt resolutions, just as soon as possible, urging the establishment of a historic state park and museum at Big Bone Lick and name delegates to attend the mass meeting.

Hunters Warned of Rabbit Fever By Health Department

The Boone County Health Department warns hunters to "beware of rabbit fever." As the hunting season draws near, most hunters are thinking only of the precautions of keeping off private property when not invited, but there is also an important, non-posted sign reading "Beware of Rabbit Fever."

Eighteen cases of Rabbit Fever were reported in 1952 in Kentucky. One fatality resulted.

Following are five precautions listed that would be wise to heed:

1. Shoot rabbits on the run for a lay rabbit may be a sick rabbit.
2. Never handle a rabbit found dead or brought in by a dog or cat.
3. Always wear rubber gloves when dressing a rabbit.
4. If the internal organs of a rabbit show white spots, throw it away for it may be infected.
5. Cook rabbits thoroughly so that no red meat or blood remains. Cooking destroys germs.

Quail And Rabbit Hunting Season Opens November 20

Encouraging Reports Received By State Department.

Kentucky's principal hunting season, for quail and rabbits, will open on November 20 and continue thru January 18 amid reports that the supply of these two species this year is as great or greater than for the past several seasons. From throughout Kentucky, the Department of Fish and Wildlife Resources, has received encouraging reports on the game prospects from its Conservation officers with some sections claiming more game than in previous years and others reporting an equal amount.

The quail and rabbit season will be preceded by the beginning of the waterfowl shooting period at noon on November 17. That season will close on January 10 with shooting hours after the opening day from one-half hour before sunrise to sunset. The limit of ducks per day is four which may not include more than one woodcock with a possession limit after two or more days of hunting of eight. The daily and possession limit for geese is five which may not include more than two Canada or whitefronted geese. A woodcock season, from November 20 through December 29, and a jacksnipe season opening on November 20 and extending through December 4 also has been provided this year with a limit of four woodcock per day and a possession limit of eight. Bag limit and possession limit of snipe is eight.

A ruffed grouse season will extend through the hunting period for rabbits and quail with a bag limit of two and a possession limit of four.

Christmas Seal Sale Opened Here November 16th

Seal Sale Will Be Conducted Entirely By Mail.

The annual Christmas Seal Sale began Monday, November 16th, according to Mrs. Mary C. Cress, president. Most Boone County residents already have their letter which contains their 1953 Christmas seals. This seal sale is part of a nationwide fund-raising drive to help prevent tuberculosis. The funds are used locally for education, case-finding and rehabilitation.

"It is particularly important that Kentuckians make an intensive effort to control tuberculosis because our state has the third highest death rate from the disease in the nation, according to E. R. Gerrert, M. D. president of the Kentucky Tuberculosis Association.

The Christmas Seal Sale is conducted entirely by mail so that persons may decide how much they can give without outside pressure.

The Tuberculosis X-Ray (Trailer) visited Boone County four days last February and approximately 1,000 persons had X-rays taken. Cases were found where the patient had no idea what was wrong with them. With treatment and the proper rest these people can be well again. The T. B. trailer will return again next year, but if you should feel that you have the symptoms of tuberculosis, contact the County Tuberculosis Association and they will arrange for you to have an X-ray free of charge, immediately.

Boone County residents are asked to buy as many seals as possible as they are helping the patients now in hospitals from Boone County, and also those new patients who might need help this year.

Let's help to stamp out Boone County and Kentucky's death rate from tuberculosis.

Investigation Proves Death of Boone Man From Natural Causes

Body of Big Bone Farmer Found On Floor Of His Home.

A verdict of death due to natural causes in the case of James Huffman, 83-year-old retired farmer, who lived alone near Big Bone, was returned by a six-man coroner's jury Saturday.

The aged bachelor was found dead in his home about 5 p. m. last Thursday. The body showed a bruised and cut knuckle and a small bruise on the back of the neck and the building was a "mess" with furnishings in disorder and a window broken.

In reconstructing the chain of events which probably preceded death, the jury decided Mr. Huffman had wired two chairs together and set them near the door so he would be aroused by any intruders. The jury surmised that he had got up during the night fell over the chairs and knocked over the stove.

The body was found by a neighbor, Alva Wood, who had been looking in on Mr. Huffman for the last few months because he was in ill health. Fred Hamilton, of the Hamilton funeral home, Verona, said he had never seen anyone "so close to the point of starvation as Mr. Huffman was." Money found in the pockets of the victim amounted to \$29.

Neighbors recalled that Mr. Huffman's sister was removed to an institution about six months ago and Mr. Huffman remarked at the time he would starve himself to death. The Hamilton funeral home, Verona, was in charge of arrangements.

Highway Checks Will Be Made For Game Violators

Road Blocks Will Be Set Up In Various Parts Of State.

Road blocks to intercept hunters who are suspected of carrying more than their limit of game will be established in various sections of Kentucky during the hunting season, it has been announced by the Department of Fish and Wildlife Resources. These blocks will be staged at strategic spots in many sections of the state and State Police officers will assist Conservation officers in the operation of the projects.

The Department points out that these road blocks are necessary to hold down the game take of hunters, who sometimes obtain more of their limits of game and place the excess in their cars. At the same time the check for excess game is made a check will also be made of hunting licenses.

It is claimed that this procedure is a protection for the hunter who does not violate the law from the game hogs who have been found to take excessive amounts. Also, during the stop a census of the game kill will be taken to determine the amount and kinds of game which are being harvested.

Boone County Soil Needs Ample Supply Of Potash Report

Commercial Fertilizers May Be Required To Build Up Supply In Soil.

Boone County soils need ample supply of potash was the result of the soil tested this year, according to Joe Claxon, Boone County Agricultural Agent.

A University of Kentucky circular written by George Roberts, emeritus professor of agronomy tells about the importance of potash in the soil. For instance, 50 bushels of corn, including stalks, contain 50 pounds of potash, and 25 bushels of wheat, including straw, contain 35 pounds of potash.

A ton of alfalfa hay contains 50 pounds of potash; a ton of clover hay, 40 pounds, and ton of lespedeza or punny hay, by pound. One thousand pounds of burley tobacco and 600 pounds of stalks contain 55 pounds of potash. Manure and crop residues contain potash. Where these materials are limited, it may be necessary to apply commercial fertilizers containing potash. Farmers are advised to have chemical tests made of their soils. Bring your soil samples to the county agent's office for testing.

Florence Missionary Society Entertained

The Missionary Society of the Florence Christian Church was entertained by Mrs. Harold Conner, the president at her home last Friday evening. The group thought it was to be the last meeting before being merged into the new C. W. F. recently organized in the Florence Church, but to the delight of the society it was learned that the old missionary society goes on as a study group of the new C. W. F. The group is proud of the missionary society although there are not too many members, but staunch and true to the needs of the church and Brotherhood.

Mrs. Conner in her own gracious way served a delicious dessert and coffee.

Those present were Mesdames Luella Houston, Ellen Newton, John Schram, Free, Bess Osborne, Virginia Goodridge and the hostess Ann Conner.

JOHNSON ICE FOLLIES WILL MAKE SIXTH VISIT TO CINCINNATI GARDEN

Thursday, November 19 is the opening day of the annual engagement of Shipstads and Johnson Ice Follies of 1954 at the Cincinnati Garden. This is the sixth visit of this spectacular and gorgeous ice extravaganza to the Queen City and it will remain for 11 days, ending its run on Sunday, November 29th.

Annually the Ice Follies plays to more people than any other attraction at the Garden. Of the 150,000 people who attend and marvel at Shipstads and Johnson's chapter made Mr. Kells and John Crigler honorary members of the Hebron Chapter.

Everything is entirely different and new in the Ice Follies of 1954. When Shipstads and Johnson wrap up one edition in late August in San Francisco all properties, electrical effects and costumes and wardrobe are sent to the 'deep freeze' or warehouse. When the show opens the middle of September in Los Angeles, it is all new and completely changed.

Among the favorites with the Ice Follies of 1954 you'll find Richard Dwyer, sensational teen-ager, Betty Schalow, said to be the world's best woman skater, the Scotvold Twins, Joyce and Joanne, Frick, who is carrying on this year without his partner Frack, Florence Rae, amazing acrobatic skater from New York Harris and Phyllis Legg, the Three Scarecrows from England; Walter and Irene; Richard Dwyer and Marlene Miller; Marie Crimmins and Dick Norris, a terrific adagio pair; the Four Sad Sacks, Pat Shanahan, Kurt Trostorf, Terry Hall and Dick Rasmussen; Ole Ericson and Dick Mershon, animal impersonators; Inga Brita, new Swedish starlet; Marlene Jackson from Tacoma, Wash.; Barry Gorman, ex-Pacific Coast champion and a host of others.

Among the 18 massive production numbers will be the "Enchanted Lake," "Kitten Antics," "Pennies, Pennies," "The First Roto-gravure," "Puttin' on the Ritz" and "Night of Splendor" in the opening half. The second half includes "Day At Longhamps," "Top Hat and Tails," "Space Commander," "Dreams Come True," and "Peerless and Perfect Precision."

Shows will be given nightly at 8:30 p. m. except Sunday. On Sundays, performances will be at 1:30 p. m. and 5:30 p. m. Also special matinees on Saturdays at 2:30 p. m. On Thanksgiving Day there will be a night show, but no matinee—this so the 167 members of the cast can enjoy a huge turkey dinner.

The Ice Follies positively will not appear at any other city in this territory during the coming year.

Land Treatment Stressed By PMA State Committee

Program Will Be Launched Within Next Few Weeks.

Enduring conservation practices to assure use of each acre of land within its capabilities and treatment according to its need for protection and improvement will be stressed in the 1954 Kentucky Agricultural Conservation Program announced today by the Production and Marketing Administration state committee.

The state ACP has been approved by the chief of the national ACP, and county programs, formulated in accordance with national and state programs, will be launched within the next few weeks.

Twenty specified conservation practices are included in the state program, but special emphasis is placed upon establishment, protection, and improvement of permanent protective cover, and upon conservation and disposal of water.

In addition, provisions are made for increasing the number of practices to 23 by inclusion of special practices to meet new problems or area conservation needs. These types of practices may be adopted, however, only upon recommendation of county committees and technicians and upon approval of the PMA state committee, conservationists, and foresters and the chief of

the national ACP. Four of the 20 specified practices are temporary soil-protective measures, generally requiring periodic repetition, but the major objective of the program is "to get maximum amounts of the most conservation benefits on the lands where they are applied."

IT PAYS TO ADVERTISE

Florence

The many friends of Clifford Tanner regret to learn of his mishap Saturday morning when his right hand was caught and severed in a compicker. He was removed to St. Elizabeth Hospital by members of his family and was to undergo surgery. May the best of luck attend him.

A union Thanksgiving service will be held Wednesday, Nov. 25 at 7:45 p. m. at the Florence Baptist Church. The Christian, Methodist and Lutheran Churches will join in

the service and members of each church choir will participate in the musical program. Rev. C. N. Ogg will be the speaker and other pastors sharing in the service will be Rev. R. A. Johnson, Rev. W. C. Butt and Rev. Davis. Everybody welcome.

Mr. and Mrs. Sherman Peeno of North College Hill were Sunday guests of their relatives, the Clyde Arnolds.

Mrs. L. M. Moore, of Big Bone was the guest of her mother, Mrs. Sophia Jones a couple of days the past week.

Friends of C. F. Blankenbaker

are pleased in knowing he has improved sufficiently to return home from the hospital. May he continue to improve.

Lawrence (Bud) Gallenstein has purchased a small tract of land of Walter Scott on which he is planning to build a home.

Mrs. Nancy Bonar was an overnight guest of her daughter, Mrs. Buddy Arnold and family during the past week.

Dennis Scott, son of Mr. and Mrs. Bobby Reinhart, of Price Road underwent a tonsilectomy at a hospital recently. He is doing nicely.

The Crutcher family, of Hebron had as their guest recently a cousin Ralph Hoshal, of Chicago.

Mr. and Mrs. Chester Coyle, of Ludlow and Mr. and Mrs. Harvey Baker, were Sunday afternoon guests of the Wm. Markesberys.

Mr. and Mrs. Walter Kirkpatrick have sold their home in Rising Sun and recently moved to the home of her parents, Mr. and Mrs. Clyde Arnold. The community welcomes

the Kirkpatricks, however, we regret to lose Mr. and Mrs. Arnold, who are planning to locate in Pikesville, Ohio, temporarily, so as to be near his place of employment.

Mr. Wade, layman, of Covington, was the speaker at the local M. E. Church Sunday in the absence of

Rev. C. N. Ogg, who was on the Spiritual Life Mission at the Drakesboro, Ky., M. E. Church.

Mr. and Mrs. Earl Carpenter and son Harris were Sunday guests of her sister in Cynthiana.

ALL TRUCKS SERVE THE FARMER!

TRUCKS like this take Farm Products To Market

TRUCKS like this Deliver what Farm Families Need For Happy Healthy Living

Penalize Either of These Trucks and You Penalize Farm Families

• The trucks that carry crops to market are not the only trucks that serve the farmer. For in addition to these, there is a far reaching network of trucks . . . big ones and little ones . . . that move produce to the far corners of America and bring in return, the countless industrial products needed for modern farm living and operation.

Big Trucks contact big markets to assure the sale of crops at a price that is profitable to you, and, the bigger the demand, the better price you get. Thus, big trucks make NEW markets . . . while expanding established markets for you. Big trucks are as important to your prosperity as your own farm delivery truck . . . and that's why any attempt to penalize the trucking industry is an attack on your family's welfare.

Don't let ANYONE tamper with ANY LINK in our nation's long chain of trucks that roll to and from the markets.

Vocational Agriculture To Be Offered To All Boone County Farm Boys

Beginning in September, 1954, the Vocational Agriculture department, which will be located in the new Boone County High School at Florence, will offer a full four-year course of supervised agriculture to all Boone County farm boys, who are eligible to participate.

The aim of Vocational Agriculture is to train present and prospective farmers for proficiency in farming. To make this possible, each boy taking Vocational Agriculture in high school must have facilities to carry out a supervised farming program so that he may practice under supervision, the things he learns in class.

Any boy regularly enrolled in a class of Vocational Agriculture and meeting other qualifications is eligible to become a member of the Future Farmers of America organization, which is a national organization by and for farm boys who are training to be farmers.

Most people in Boone County know of the F. F. A. and it is reasonably sure that all farm parents

will welcome the wonderful opportunity for their boys to participate in both Vocational Agriculture and the F. F. A.

Watson Craft, Vocational Agriculture teacher, Hebron, Ky., stated that he would contact each farm boy now enrolled in all eighth grade classes and in high school before the new school opens to find out how many boys are eligible to take Vocational Agriculture.

The Hebron Chapter of F. F. A. which will form the nucleus for the Boone County F. F. A. is now engaged in a fund raising activity, to raise funds for their State Leadership Training Center at Hardinsburg, Ky. The State Leadership Training Center is used to train F. F. A. boys and F. F. A. girls in leadership. Mr. Craft said that \$250,000 is needed to complete the camp and its facilities. The money will be used to construct a dining hall, an exposition building, 24 cabins, an administration building, a sewer system and to landscape the center. The F. F. A. boys have made improvements amounting to \$150,000 by individual boy donations of fifty cents to two dollars per boy. They have built nine cabins, an auditorium, a swimming pool, a canteen, and a bath house.

This center will be available to all Boone County boys in F. F. A. and girls in F. F. A.

"Won't you business people and parents of rural youth help us to raise \$1,500 for Boone County's share in this inspiring task?" Mr. Craft asked.

Contributions should be mailed to Hebron F. F. A., Hebron, Ky. The drive ends November 30. You may contribute or pledge—the pledges to be paid in five years. All contributions are deductible from state and federal income tax.

Florence Rotarians Favor Development Of Big Bone Lick

The following is a copy of resolutions adopted at a recent meeting of the Florence Rotary Club, of Florence, Kentucky:

Resolution

Whereas, when Big Bone Lick was discovered in 1729 by Lamoyne de Longueuil, a French soldier and explorer, it was found to be widely used by Indians and animals; and whereas, because of the prehistoric use of this area by animal life of the continent it was found to be rich in fossilized bones of animals of an early era; and

Whereas, the bones found at Big Bone Lick have been considered of such historical importance that specimens are now on display at the Museum of Natural History, University of Rochester; Smithsonian Institution; American Museum of Natural History in New York City; the Museum of Natural History, Princeton University; and many others; and

Whereas, the Florence Rotary Club believes that the historically significant Big Bone Lick should be preserved as a shrine for future generations.

Now, therefore, Be It Resolved that the Florence Rotary Club is in favor of the development of a Memorial and Historical State Park at Big Bone Lick for the preservation and display of this site; and Resolved further that the Secretary be and he is hereby instructed to provide copies of this Resolution to Judge Carroll Cropper, County Judge of Boone County, Kentucky; Mr. Ellis Cummins Crawford, Curator of the William Behringer Memorial Museum, Devou Park, Covington; Senator Charles B. Truesdell, Secretary of the Christopher Gist Historical Society, and to such others as may in his opinion be interested, with the request to each that appropriate action be taken to insure fulfillment of this Resolution.

(Signed) G. B. Foscoe, President (Signed) Lawrence L. Aylor, Sec. Copies of the Resolution also were sent to John G. Cox, secretary of the Covington Rotary Club, and the Executive Director of the Covington-Kenton County Chambers of Commerce, and to Governor Lawrence W. Wetherby, at Frankfort.

American Legion Adopts Resolution

Resolved that the American Legion, Post No. 4, of Florence in Boone County, Kentucky, would like to have the site containing the mineral springs and known as Big

Bone, made into a state Park and museum.

We offer our assistance in every way toward that accomplishment, and we will contact and consult the Honorable Alvin Kidwell of Sparta, Kentucky, for his recommendations in this matter.

We desire that a copy of this resolution be sent to the Honorable Lawrence Wetherby, Governor of Kentucky, the Honorable Alvin Kidwell, Honorable Judge C. L. Cropper of Boone County, the Boone County Historical Society and be posted in all local papers.

Francis R. Souther, Bernie Wischer, Ira V. Smith.

CARD OF THANKS

Especially to Mrs. Leila Hambrick for her efforts and kindness for everything she did for me.

Your kindness will never be forgotten.

Florence Chalks Up Victory In Initial Game Fri.

Hebron Suffers Defeat In Overtime Period At Hands of Simon Kenton.

The Florence Knights, District basketball winners for the 1952-53 season chalked up one in victory column in their initial game of season when they handed Grant County a 72-64 trouncing on the winner's floor.

Florence led the visitors through the game. Markesberry and Utz led the attack for Florence with 23 and 22 points, respectively. Dendler had 13 for the winners. Smith was high point man for Grant County with 12.

Many Florence fans claim that the Knights will have an outstanding season this year. They appear to have gained strength throughout the season last year, finishing very strong.

Hebron, suffered a 63-62 defeat Friday night at the hands of the Simon Kenton squad in an overtime period on the winner's floor. Criger led his team in the scoring column with 29 points. Clarkson led the Pioneers with 25 points.

Hebron took an early lead over the Pioneers with the first quarter ending 19-8. The Cardinals held a 38-27 lead at the half, but the hosts narrowed the gap to 47-44 at the close of the third quarter. Midway through the last period the teams were deadlocked and the lead changed hands several times.

New Haven suffered its first defeat of the season at the hands of Grant County by a score of 79-50 on the home floor November 17th. The reserves also dropped their game to the visitors by a score of 69-20.

New Haven suffered defeat at the hands of Gallatin County by a score of 87-39 at the Gallatin County gym. Ray Howell, Gallatin County forward tossed in 41 points to lead his team's route over New Haven.

The Burlington Eagles, under the direction of Owen Hauck, coach, will open the hoop season on the local floor Friday night, when they entertain Gallatin County. This year's Eagle squad will be built around veteran guard "Shorty" Ryle with capable assistance from two other holdovers from last year's club John Fair and "Huck" McFarland. Newcomers are Bowling and Larson, who have looked good in practice sessions.

Coming Games
Nov. 25: Williamstown vs. New Haven at Williamstown.
Nov. 25: Falmouth vs. Florence at Falmouth.
Nov. 27: Newport vs. Hebron at Newport.
Nov. 27: Gallatin County vs. Burlington at Burlington.

Sgt. Jimmy Wondrey will be the Wednesday evening dinner guest of Mrs. Josie Maurer.

Rain Aids Farmers In Stripping Tobacco Crop For Market

Many Farmers In County Preparing Leaf For Market This Week.

Rain which fell Sunday, amounting to approximately 1 inch, has greatly aided Boone County farmers in getting their tobacco crop ready for market, it was reported this week. Many farmers throughout the County were busy Monday stripping the weed, preparatory to shipping it to market.

Several Boone farmers had their burley stripped prior to the rain, using artificial means of bringing the crop in case.

Rain which fell throughout the day Sunday brought relief to farmers whose water supply was decreasing rapidly, and in many instances completely exhausted. Many farmers have been forced to haul stock water during the prolonged drought.

The rain also was adequate to provide sprouting of small grains, including rye, wheat and barley for their winter growth.

Boone Farmers 1954 ACP Will Be Outlined To

Meetings Scheduled At Three Points In County.

A meeting of Boone County farmers to hear detailed plans for the 1954 Agricultural Conservation Program has been set for Burlington courthouse, Monday, November 30, Walton Town Hall, Wednesday, December 2 and New Haven Schoolhouse, Thursday, December 3rd. Mark Cook, chairman of the Agricultural Stabilization and Conservation county committee, announced here today. All meetings will begin promptly at 7:30 p. m.

(Agricultural Stabilization and Conservation county committee is the new title of the former PMA county committee. The re-designation is made pursuant to the Secretary's reorganization, now in effect.)

All farmers in the county are eligible for Federal cost-sharing on specific conservation practices needed on their farms in 1954. Mr. Cook said, and all are invited to attend the meeting.

Enduring conservation practices will be stressed in the 1954 Boone County ACP. Twenty practices are included in the county program, but special emphasis is placed upon establishment, protection, and improvement of permanent protective cover, and upon conservation and disposal of water.

The 1954 ACP, in the county, state, and nation, has been developed and is to be carried out on the basis of the following general principles:

1. Programs shall seek to attain the maximum conservation accomplishment in the area and should be confined to the conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit.

2. Programs should be designed to encourage those conservation practices which provide the most enduring conservation benefits practically attainable in 1954 on the lands where they are to be applied.

3. Costs will be shared with a farmer only on satisfactorily performed conservation practices for which Federal cost-sharing was requested by the farmer before the conservation work was begun.

4. Costs should be shared only on practices which it is believed farmers would not carry out to the needed extent without program assistance. Generally, practices that have become a part of regular farming operations on a particular farm should not be eligible for cost-sharing.

5. The rates of cost-sharing are to be the minimum required to result in substantially increased performance of needed practices within the limits prescribed in the national program.

6. The purpose of the program is to help achieve additional conservation on the land. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

7. If the Federal Government shares the cost of the initial application of conservation practices which farmers otherwise would not perform but which are essential to the national interest, the farmers should assume responsibility for the upkeep and maintenance of those practices.

"KEEP 'EM OFF THE TRAINS" TAX

REMOVE THIS BARRIER!

In 1944, a 15 per cent "Keep 'Em Off The Trains" excise tax on passenger fares was levied as a war measure... to conserve train space for defense transportation. The war is over... but YOU ARE STILL PAYING THIS TAX.

Along with this tax goes another Federal Transportation Excise Tax—a tax of three per cent on freight charges, levied only on freight moved by railroads and other public common carriers.

Cincinnati Gas & Electric Co., Will Have Train Exhibit During Holidays

The Cincinnati Gas & Electric Company for the eighth consecutive year will have a train exhibit in their lobby at Fourth and Main during the holidays.

The Baltimore & Ohio "HO" Gauge miniature railroad will be on display in the lobby of CG&E beginning December 1 and ending January 1, 1954. Visitors, children and their parents may view this marvel on wheels from 9:00 a. m. until 4:45 p. m. each day with the exception of Saturday when the office building is closed.

Valued at more than \$25,000 it is the largest portable HO Gauge miniature railroad in existence. It

weighs two tons. There are thousands of parts, including 8,000 feet of electric wire, which runs through 85 delicate relays. Three working days are required to either assemble it or knock it down—and to pack or unpack it in its fifty cases which fill a genuine box car.

This is the second time this model has been presented by the Cincinnati Gas & Electric Company and the B & O Railroad during the Christmas Holiday season. It was on exhibit in the C G & E lobby a few years ago.

The model railroad which takes up the top of a table 30 feet long and 10 feet wide, has some 700 feet of track, which, at a scale of 3 1/2 millimeters to the foot represents 14 miles.

During World War II it was used for exhibition purposes by the United

States Army to stimulate enlistments in the Transportation Corps. It has also been used by the Army for extensive instructional purposes in the Army Transportation School at Fort Eustis, Virginia.

The model includes a freight and hump yard where trains may be classified and dispatched or brought in and broken up in real railroad fashion. There is a complete locomotive terminal including Diesel house, roundhouse, engine-house, turntable, coal, sand and water facilities. These are located centrally to serve both the passenger terminal and the freight yards.

Passenger trains may be dispatched from the terminal using the well-known point to point system and after an elapsed time on the mainline may be brought back to the terminal in reverse. Locomotives are cut off and sent to the roundhouse for servicing and the trains and switched and turned by yard engines.

It is railroad on a big scale and starts Dec. 1, 1953 in the lobby of C G & E. Don't miss it.

Welcome to new customers as well as our regular ones.

Ladies, stop in to see the "Frame Bar."

Lower farm income with high, fixed operating costs are beginning to pinch farmers. The pinch hurts most when you have some debts. Wise farmers have learned that one way to ease the pinch is to match your low net income with low interest on your farm debt.

A 4% amortized Federal Land Bank Loan helps you do just that.

Federal Land Bank Loans have been maintained at a low interest rate of only 4% for the past 18 years. Prepay any amount at any time without penalty and protect yourself against lean years with our future payment fund.

Learn about 4% Federal Land Bank Loans from your local National Farm Loan Association. There is no obligation. You'll be dealing with friends for farmers own this cooperative credit service.

Fire Damages Farm Home Near Walton Sunday Morning

Loss Estimated At \$3500; Burlington Home Is Damaged By Fire.

The home occupied by Mr. and Mrs. Mike Lay, located on Percival road, 1 1/2 miles of Walton, Ky., was destroyed by fire early Sunday morning, according to Chief Russell Groger, of Walton Fire Department. The loss was estimated at approximately \$3500.

The Lay family with six Thanksgiving week-end guests were forced to flee the home with only odds and ends of clothing they were able to snatch up.

Guests at the home included Mr. and Mrs. Foster Brock, Conway, Ky., and their two children; Joe Lay, grandson of the farm couple, and Dale Howard, Norwood, O., his friend.

Mrs. Lay discovered the fire. She roused the others and they attempted to put out the fire with buckets of water, but were unsuccessful in their attempts.

The fire, which started from a defective flue, already had eaten into the second floor joists and had weakened flooring beneath the beds. There was no telephone available and Boyd Powell, grandson of the Lays who lives close by, jumped into an auto and sped to Walton where he turned in an alarm at the fire house.

Chief Groger, Deputy Chief Jess Thornton and 16 firemen answered the summons with two pumps. They threw a line into a nearby lake and tried to bring the flames under control. However, the fire had gained too much headway.

Most of the furniture on the first floor was saved by neighbors who carried it to safety.

Included in the loss was all clothing and belongings of Eugene Lay, son of Mr. and Mrs. Lay, who had stayed overnight with friends.

Burlington Home Damaged
A three-room frame residence located just west of Burlington on Burlington-Bellevue Road was damaged by fire of undetermined origin Tuesday night of last week. The occupants, Mr. and Mrs. Lloyd Turner, were visiting friends several miles away when the fire was discovered.

The Burlington volunteer fire department was summoned and quickly brought the fire under control. Contents of the home were badly damaged by both fire and water, it was reported.

Mr. Turner estimated damage to the residence and contents at approximately \$2,500.

Price support loan rates, by grades, for 1953 crops of Burley, fire-cured and dark air-cured tobacco have been announced by the U. S. Department of Agriculture, and loans at these rates will be available to cooperating growers through cooperative associations.

These rates by grades are based on 1953-crop average rates of 46¢ cents a pound for Burley, 35¢ cents a pound for fire-cured, and 31¢ cents a pound for dark air-cured tobacco.

Burley rates by grades for the 1953 crop range from 12 to 69¢ cents a pound. Rates for the 1952 crop ranged by grades from 16 to 70¢ cents a pound.

Hebron suffered a 53-43 defeat at the hands of the strong Newport Wildcats at the Newport floor Friday night. Beechwood emerged on the long end of a 61-59 count over the Walton-Verona Bears in a closely contested game.

Beechwood held a 17-15 lead at the end of the first period, but trailed 31-29 at the half. Walton widened the gap in the third period by tossing in 17 points while limiting the Tigers to 14 to lead 48-43 at the close of the third period.

Although emerging on the short end of 66-40 count, the Eagles looked good both offensively and defensively.

Gallatin County took an early lead with the first round standing 2-9 in favor of the visitors. Burlington sparked in the second quarter to cut the lead to 39-26. The third period ended 38-56 in favor of the winners.

Instructions Given Public In Mailing Christmas Parcels

The following instructions are being issued by the Post Office Department for the guidance of the general public in handling Christmas mail:

Be sure to pack and tie securely, all your parcel post packages, and for those that must go any distance, get them in the mail by December 10th.

You will be doing all postal employees a great favor if you will mail your Christmas cards no later than December 15, 1953. You get the best service on your greetings if you will affix a 3c stamp and seal your envelopes. In the upper left hand corner, you may put your mailing address, so if the greeting can not be delivered, it will be returned to you. If forwarding is necessary, the postage will be sufficient to carry it to its new destination.

Be sure your greeting cards are larger than 3x4 inches. If less than these measurements, they will necessarily require first class postage of 3c each. You are allowed to mail your greetings by tucking in the flaps, and by merely signing your name, for 2c each. Do not enclose a written message as this will make your greeting first class and will require 3c instead of 2c. Any greeting card larger than 6x6 inches cannot be mailed at the 2c rate. This size, under regulations, requires 3c each.

Buy your holiday stamps well in advance. Your rural carrier can supply you, or your local post office will be happy to serve you.

When your greetings are ready to mail, have them sorted as best you can, and tie them in bundles, so that when they are presented for mailing at the post office, they will be secure and not have to be picked out of the mail chute and re-sorted. In this manner, your greetings can be cancelled and on their way in half the time.

This holiday mailing season promises to be the largest in the history of the post office department. With your kind assistance Uncle Sam can render a most efficient and speedy service. Help all postal employees help you. They are at your service.

Mrs. J. W. Gibson exhibited a
well equipped medicine cabinet
when she was hostess to the Hebron
Homemakers Clubs in October. She
informed the club that every home
should have ample preparations
needed in emergencies and for
treatment of illnesses when a doc-

Mrs. Ruby Hollis, reading chair-
man, asked the club to observe Na-
tional Book Week in November.

Mrs. Ed Peele, garden chairman
explained that to have ripe toma-
toes after frost from your garden,
gather green ones and store them
in a cool, dark place. Bring out a
few at a time and place them on a
window sill to ripen.

Mrs. Elmer Cummins was wel-
comed as a new member. Others

Erlanger Service Station Robbed By Two Bandits Tues.

Attempt To Force Safe Fails After Battering Door With Heavy Bar.

A pair of bandits held and robbed the Spur Oil Station, 308 Dixie Highway, Erlanger, and then made their escape in an auto south on Dixie Highway, early Tuesday.

Perry Garnett, Hebron, attendant at the station, told Police Chief Charles Nelson, Erlanger, the robbers were well dressed and polite. He said they drove up to one of the gasoline pumps at 4:10 a. m. and told him to fill the tank. After he had serviced the auto they asked for soft drinks.

When Mr. Garnett was given a \$20 bill in payment. He reached for change in his pocket. The attendant told Chief Nelson one of the men produced a pistol. He was commanded to go into the office. There he was relieved of \$85 in cash.

Oldtime horse-breeders argue that the reason for the Bluegrass's success in raising race horses can be traced to the layer of limestone underneath the bluegrass turf. This limestone was formed by countless

shells laid down millions of years ago when the region was an ocean floor. It gives the water and grass a high phosphorous and calcium content, which reputedly builds light, strong bones, elastic muscles, and firm tendons in the horses that feed and drink there.

**GARDEN CLUB HOLDS
REGULAR MEETING**

Mrs. Sam Denham, Jr., assisted by Mrs. Chas. Goodridge entertained the Boone County Garden Club, Tuesday, October 13. Five of the six ladies who attended the Garden Club Convention at Cumberland Falls last month, were present to give such interesting reports that we were all sorry we could not attend.

Mrs. Wessler gave us news on how the garden clubs of Kentucky are growing. Mrs. Garrison said she didn't take notes because she looked at Mrs. Wessler and she was writing every thing, so she sat back and enjoyed the meeting.

Mrs. Ann Conner told us how

lovely the food was and that she won one of the lovely table decorations at the "Bird Breakfast."

Mrs. Sam Denham, Sr., spoke on the society part and told of the lovely cottage and the fine accommodations they enjoyed, such as fire in a fireplace, breakfast at the cottage, visitors, etc.

Mrs. Lutes summed it up by saying she had never had a nicer time. If Mrs. Demsey had been there I know she would have had more to say that we would have liked to hear.

The club discussed the possibility of having a school for flower arrangement, etc. Perhaps Mrs. Farmer, one of the judges at the flower

show, will give us some lessons soon.

Two visitors, Mrs. Mayme Smith, Somerset and Mrs. West were welcomed.

One of the nicest lunches we have had was served to those who attended, who were as follows: Mrs. Wm. Wessler, Mrs. J. Jacobson, Mrs. W. Fullerton, Mrs. W. Oliver, Mrs. R. Lutes, Mrs. H. Hawes, Mrs. S. Denham, Sr., Mrs. R. Carter, Mrs. Fannie Scott, Mrs. R. Garrison, Mrs. H. Leonard, Mrs. H. Conner, Mrs. Nellie Markland, Mrs. G. Morith, Mrs. G. Maddox, Mrs. R. Stith, Mrs. Wm. Fitzgerald, Mrs. E. Abbott, Mrs. Ruby Hollis, Mrs. West, Mrs. Mayme Smith and our co-hostess and hostess, Mrs. Goodridge and Mrs. S. Denham, Jr.

Mrs. Fannie Scott gave a nice talk on preparing leaves for dried arrangement, and Mrs. R. Carter told us how to dig and store bulbs, both timely subjects.

Everyone admired Mrs. Denham's new cherry dining room furniture very much and enjoyed the meeting immensely.

EARLY HISTORY OF FLORENCE

By A. M. Yealey

As there is at the present time a much debated subject in reference to the upkeep of the Florence Cemetery, the writer will give the history of how the town of Florence became possessor of the same.

John Stephens (born in Orange County, Virginia, March 2, 1785 and died in Boone County May 4, 1856) was owner of a tract of land known as lot No. 8 on a plat of a survey made by Moses and Rice, S. B. C. subdividing a tract known as the Wilhoit tract which laid along the extension of Center Street. At the death of Mr. Stephens in 1856, Ezra K. Fish and N. B. Stephens became executors of the last will of Mr. Stephens and sold this plot of land to the town of Florence for the sum of \$125.00 per acre. When this tract of land was purchased it was enclosed with a fence, but in 1880 the trustees of the town had it removed and made a contract with R. M. Duvall, agent of the Dayton Hedge Company to set 75 rods of hedge fence at a cost of \$75.00. This was accomplished but stock running at large would pass through this hedge and a wire fence was built.

On August 15, 1898, Mart Blankenbaker made a contract with the trustees to build a shelter house to store tools for the sum of \$52.70 and Jake Middleton painted it at a cost of \$5.00. This building is still standing but badly in need of repair. We see here (as some say, that the town is not the owner, but are wrong) that we have more proof as follows. Another acre was purchased on October 5, 1898. The trustees passed an Ordinance known as Ordinance Number 17, authorizing the purchase of one acre of land on the east side of Cemetery from Edward Golway for the sum of \$200. This being accomplished, a surveyor was employed, the plot surveyed and a Sewell fence was built around the cemetery with three large gate openings and one small gate opening.

The first graveled road was extended to the Cemetery from the intersection of Oblique and Center Streets in 1879 and the people began to take pride in this burial ground as a special fund known as the "graveyard fund" was established but during the past years this fund has been transferred to the general fund and we are informed that the income from it will not support its upkeep. There are some vacant lots still available in this plot of ground and if they were cleared of brush and made presentable they would be sold.

I write this article simply to settle

one question that court records as I have given show, that the town is owner of the same and whether or not the people of Florence intend to see it as a briar patch or a place in the history of the town as a fit place for their loved ones.

by Wm. C. Johnstone
AGRICULTURAL REPRESENTATIVE
KENTUCKY BANKERS ASSOCIATION

Parity ratio, the price that farmers receive in relation to what they pay, dropped to 91 in October—the lowest point since May, 1941. After paying operating costs in 1953 their net income will be only 36 per cent of their gross income, the lowest since 1932! The experts believe, however, that the worst of the adjustments are over. Farmers, in the meanwhile, should use their utmost care to keep costs to the minimum in 1954 by efficiently using land, labor, machinery and fertilizers.

Harry Young, U. of K's Agent in Farm Management, makes several suggestions as to practices for improving efficiency in 1954, most of them requiring little or no additional cash outlay. Among these are: (1) plan year's credit needs early, (2) trade work for use of

machinery, or consider joint ownership, (3) return all manure and crop residues to the land, (4) use lime and fertilizer in accord with soil tests, (5) use best crop varieties, (6) be on hand at farrowing and calving time, (7) dehorn calves at early age, (8) watch market developments and sell when prices are normally high.

Credit is now recognized as an essential farm tool. It is just as difficult to operate a modern farm without credit as to farm without modern machinery. Like other machinery, credit should be used wisely—abused, it deteriorates rapidly—used with care, it returns good profits and increases in value. Credit may be less available in 1954 than during recent boom years. Farmers themselves will wish to

keep their debts to the practical minimum and banks, as well as other credit agencies, will tend to lend with greater caution. Good machinery advice is to put it in good shape before the new cropping season starts. The same applies to credit. See your credit specialist early, your banker, in this case, and go over your credit needs with him—they may need complete overhauling, new parts or minor adjustments.

Just because a farmer failed to earn a profit in 1953 is no reason why he should not file U. S. Income Tax returns. If his returns show a net loss in 1953 he can claim a refund on tax paid for 1952 and, if the profit in 1952 does not cover the 1953 loss, he can then carry the remainder forward against net income in coming years. Our best advice is this—pay an accountant to prepare our returns and save money.

Kentucky now has 48 Artificial Breeding Associations with 16,000 members. They own 39 of the finest bulls available and in 1953 will breed 70,000 cows artificially. These associations are contributing immeasurably to the improvement of the dairy industry of the state. They

put the best of sires in reach of the smallest farmer. A local association can be organized in any area where 1200 cows are signed up within a 25 mile radius.

Public law 285, which recently became effective, permits national banks "to make real estate loans secured by first liens upon forest tracts which are properly managed in all respects." Thus Congress

again recognizes the value of modern forest practices such as selective cutting, reseedling, and fire and insect protection.

**Boone DAR Meeting
Held October 7th**

The Boone County Chapter, DAR held its regular monthly meeting Wednesday evening, October 7th, with Mrs. Roy C. Nestor, Regent presiding. The meeting was opened with the singing of "The Star Spangled Banner," the Pledge to our American flag and the reading of the American's Creed.

Mrs. William Tupman read the President General's message from the October issue of the D. A. R. magazine. In her message Miss Caraway urged an emphasis on Americanism, the stress on teaching American history in all our schools for if we all study and know the history of the United States and how we have grown and prospered on truly American principles there would not be so much fertile soil on which might flourish communism and socialism.

Mrs. Sam Denham, Sr., read from the same publication an article on "Defense and Education." The article stressed the importance of proper ideals for our American teachers, that our teachers should be endowed with the true spirit of Americanism. The article also stressed the dangers of exorbitant taxes which might cause the decay of our free enterprise system. Mrs. Denham was appointed chairman of a committee to initiate interest in American history among children

enrolled in 5, 6, 7, 8 grades in our county schools. Also appointed to this committee were Mrs. Wallace Grubbs of Walton and Mrs. Garnet Tolin, of Burlington.

The following were named committee chairmen: Mrs. Virginia Goodridge, Advancement of Americanism; Mrs. H. S. Hawes, Americanism; Mrs. Louis Braun, American Indians; Mrs. Harold Conner, American Red Cross; Mrs. Wallace Grubbs, Approved Schools; Mrs. Robert Woodward, Approved School Libraries; Mrs. George Baker, Conservation; Mrs. John Lockwood, Correct Use of the Flag; Mrs. Davis Gaines, DAR oGod citizens Committee; Mrs. S. Lockwood, DAR lot, Frankfort Cemetery; Mrs. J. B. Wolfe, DAR Magazine; Mrs. Allen Conner, DAR Magazine Advertising; Mrs. Clyde Arnold, DAR Manual of Good Citizenship; Mrs. F. J. Wolfe; Program, Mrs. Ashlin Logan and serving with her are Mrs. Davis Gaines, Mrs. Louis Braun, Mrs. Virginia Goodridge, Miss Jeanette Grubbs; Revolutionary Soldiers Graves, Mrs. Clarence Wolfe; Transportation, Mrs. Harold Conner; Telephone, Mrs. Louis Braun.

Miss Ramona Kaiser guest speaker of the evening was appropriately dressed in Indian costume. She brought with her a nice display of Indian made jewelry, moccasins and pottery. It was through this display of handwork that Miss Kaiser pointed out how the characteristics of one tribe differ from another. Navajo jewelry is mostly silver as silver is their specialty, the Sioux tribe is known for its beautiful bead work. Also on display was pottery made by the Pueblo.

Miss Kaiser's devotion to the promotion of the welfare of the American Indian was reflected in her talk. She told of the problems of the American Indians and pointed out to us the debt we owe to them for their part in our heritage. She also reminded us that our Indian problem has been used as propaganda against us by our political enemies. Miss Kaiser urged that we seek to have our Indians presented as the people they are instead of savages as they unfortunately are even in some of our American History books used as texts in some of our schools. Miss Kaiser urged that we oppose the adoption of Senate Bill 2515 which would abolish the Bureau of Indian Affairs. The abolishment of this bureau will leave the Indian territories unprotected and open for exploitation.

Our duties, said Miss Kaiser, are to give our promise of good will to the Alaskan Indians in event of Alaskan Statehood and we must educate the Indian youth who will become the leaders of their people in the future. It is also our duty to train these young to be good citizens, and it was here that Miss Kaiser noted that although the Indian has been neglected, in their number there has never been found a known communist. The American Indians desire to send their children to public schools and to impart to their children greater stability. She also pointed out that along with the need of higher education goes a need of health education.

December Session Boone Circuit Court Opened Monday

Trial of Swango Watts Will Be Heard Before Judge Yager.

The December session of Boone Circuit Court convened Monday at Burlington, with Hon. Ward Yager, presiding.

The only criminal trial to be heard during this session will be that of Swango Watts, 53, formerly of Grange Hall road, near Union, charged with bank robbery in connection with the holdup of the Union Deposit Bank, March 31.

Watts was tried in September in U. S. District Court, Covington, on a charge of conspiracy in connection with the same case, was acquitted. Two other men, who hid money obtained in the holdup on Watts' farm pleaded guilty and were sentenced to serve 20 years each in federal prison.

Trial of Watts has been scheduled for Tuesday, December 22, according to R. S. Hensley, Circuit Court Clerk. A. D. Yelton, Burlington attorney has been appointed by the court to represent Watts.

The grand jury after being in session one day, adjourned, returning one indictment on child desertion.

After inspecting county property the jury was dismissed Tuesday afternoon by Judge Yager.

The civil case of James Henry Crosby, Jr., vs. Clifford Snell, was disposed of Wednesday in Judge Yager's court.

Her sister, Mrs. M. C. Elliott, of Water Valley, was reported in serious condition at a Mayfield hospital from injuries suffered when the truck she was driving collided with an auto Wednesday. Mrs. Robertson was a passenger in the truck. She suffered head injuries.

The two women were returning from Mayfield with a load of furniture when the mishap occurred.

Sign-Up Deadline For 1954 ACP Spring Practices Dec. 31

Twenty Practices Are Included In 1954 Boone County ACP.

Boone County farmers may sign up at any time from now until December 31 for federal cost-sharing assistance on 1954 Agricultural Conservation Program practices needed on their farms during the coming year.

For 1954 ACP practices to be carried out from January through May, 1954, December 31 is the final date for a farmer to enroll in the program according to Mark Cook, chairman of the Agricultural Stabilization and Conservation county committee (formerly PMA county committee).

Sign-up periods will be announced later for farmers who wish to request cost-sharing assistance only on practices to be performed after May 30, 1954.

Mr. Cook points out that 20 practices are included in the 1954 Boone County ACP. These include some practices which are temporary soil protective measures, generally requiring periodic repetition, but the major objective of the program is "to get maximum amounts of the most enduring conservation bene-

fits on the lands where they are applied."

Special emphasis is placed upon establishment, protection, and improvement of permanent protective cover, and upon conservation and disposal of water.

On an individual farm, only those practices for which cost-sharing aid has been approved will be eligible. Part or all of the federal cost-share for an approved practice may be in the form of conservation materials or services furnished through the program for use in carrying out the practice.

Program regulations provide that costs should be shared only on practices which it is believed farmers would not carry out to the needed extent without program assistance. Generally, practices that have become a part of regular farming operations on a particular farm should not be eligible for cost-sharing.

Reports on 1953 ACP Requested
Farmers who have completed conservation practices on which assistance was requested in 1953 Agricultural Conservation Program are asked to file reports as soon as possible at the county Agricultural Stabilization and Conservation Office.

Mark Cook, chairman of the county ASC committee, states that receipts for seeds, fertilizer, and other materials used in carrying out 1953 practices should be presented for all practices approved for ACP aid.

In the 1953 ACP, farmers were assured of aid only on approved "primary" practices—that is, practices of primary importance on the farm. ACP payments on 1953 practices listed as "secondary" will be made only if funds allocated to those farms where a major part of the "primary" practices have been carried out.

Farmers' reports should include practices in both groups as well as practices authorized as substitutes during the year, Mr. Cook said.

State Bridge Near Burlington Collapses Friday Afternoon

Driver of Gravel Truck Suffers Minor Injuries In Accident.

A state highway bridge, one and one-fourth miles west of Burlington on Route 18 collapsed Friday afternoon under the weight of a gravel truck. Henry Meadows, 22, of Burlington, R. 2, driver of the truck was treated by Dr. M. A. Yelton for a back sprain and a cut on the hand. Both the truck and bridge were demolished.

The truck and a car driven by Ray Gaines of near Petersburg entered the narrow bridge at the same time. Both drivers jammed on their brakes. The truck skidded sideways into the railing, the body and the gravel sheared off and fell into a creek, while the chassis went down with the bridge. Mr. Gaines, threw his auto into reverse and managed to get back onto solid ground.

Shifting of the gravel load probably saved the life of Mr. Meadows. The truck, carrying gravel from the Bellevue neighborhood was owned by Don Loomis of Grant.

Mr. Meadows, who was trapped in the cab, cut his hand when he broke a window to free himself.

Tri-City Council Will Continue To Operate, Word

Meeting Of Group Held Wednesday Night At Elsmere.

Continuation of the work of the Tri-City Council composed of newly elected council of the towns of Florence, Elsmere and Erlanger was decided following a meeting Wednesday night at the Elsmere firehouse. For a time, it appeared likely the group would disband due to failure in finding a common solution to its No. 1 problem—that of obtaining an adequate water supply for the area. At the conclusion of the meeting Wednesday night members were enthusiastic about the organization's new plans.

The group voted to continue a probe of the water situation and to continue discussions on a proposed uniform building code for the three towns.

Officers elected for 1954 are: Austin Mann, Erlanger, chairman; Robert M. Noelker, Florence, vice chairman; James C. Rhodes, Elsmere, treasurer, and William Fitzgerald, Florence, secretary.

The next meeting of the group is scheduled for the second Wednesday of January at the Erlanger City Building.

March of Dimes Seek To Double Volunteers In Co.

Drive Will Get Under Way January 2, Says County Chairman.

"Two For One," according to Mrs. Geo. Morith, will be the slogan of the Boone County drive to enlist volunteer workers for the 1954 March of Dimes scheduled for January 2-31.

Between now and the end of the month, every effort will be made to sign up two workers for every one who served on the polo fundraising campaign last January.

"Sort of a bring-a-friend deal," Mrs. Morith explained. "Of course we expect everyone who worked to make last year's March of Dimes such a success will serve again in 1954."

Boone County Chapter has spent and have unpaid bills totaling more than \$2,100 for care of two local polo patients since August 1, 1953. More than \$6,000 will be needed in our county as one-half of all funds collected are sent to the National headquarters, but if needed by the local chapter, can be drawn on by the county.

All hospital and medical bills are paid by the local chapter. Braces have been purchased for a old polo case, Mrs. Morith reported.

No one in the local chapter receives pay or salary for their work, thus all money received goes directly for the benefit of polo victims.

Mrs. Morith stated that district chairmen are needed in the following precincts: Limaburg, Union, and Bellevue. Anyone wishing to help may contact their local chairman.

A completed list of districts and chairmen will appear in next week's issue of The Recorder.

A CORRECTION IN ADVERTISEMENT OF HICKS TRUCK CENTER

In the advertisement last week, of Hicks Truck Center, 540 Pike St., Covington, the word "Reprieved" should have been "Repriced." This is quite important as Hicks has repaired all trucks, making attractive bargains in stakes, pickups and dumps. All used trucks have been reconditioned. There are also new Ford trucks at attractive prices.

The Hebron-Florence game was closely contested throughout, according to fans, with Crigler of the Cards and Utz for the Knights battling it out for the lead in scoring honors. Crigler had 25 at the final whistle, while Utz had a total of 26. Markesbery scored 21 for the winners and Hudson had 17.

Just as the final buzzer sounded Walton committed a foul, giving Burlington two free throws. Ryle connected for one winning the game by a one-point margin.

Quarter scores, with Walton leading all the way, were 16-9, 29-22 and 38-36.

Smith led the attack for the Walton Beacrats with 21, while Ryle had 23 for Burlington and McFarland garnered 11 for the winners.

Union Women Suffer Injuries In Crash Near Union

Eighteen Stitches Required To Close Wounds.

Two Union women suffered injuries in an automobile accident one-half mile west of Union on U. S. 42 when two cars crashed head-on at the scene of an earlier accident.

Eighteen stitches were required to close face and head wounds suffered by Mrs. Clifford Gatewood of Union, according to Byron Kinman, Deputy Sheriff, who was summoned to the scene of the accident.

Janice Colvin, driver of the car in which Mrs. Gatewood was riding suffered face lacerations. Both were removed to St. Elizabeth Hospital, Covington for treatment.

Deputy Sheriff Kinman stated that two Ohio cars, which figured in an earlier accident were partially blocking west bound traffic, when the car driven by Mrs. Fredrick P. Exchange Delegate Thinks Boone County Is Grand Place

Is Guest Of Mr. and Mrs. Wilfred Scott Near Burlington.

"Kentucky is wonderful!" "Boone County is one of the grandest places I have lived in the United States. I feel at home. The people are so friendly toward me."

That's the impression of Daniel Florez, International Farm Youth Exchange Delegate from Bogota, the capital of Colombia, South America.

Florez is a 22-year-old farm youth and lives on a large dairy and beef farm near Bogota. He plans to make dairy farming his main enterprise when returning to his country. He is the guest of Mr. and Mrs. Wilfred Scott and family of the Boone County farm near Burlington. During his stay here he will observe dairying, farm practices, youth activities and general customs of the U. S. He arrived in this country 5 months ago and spent his time in the state of Oregon and Gallatin and Hardin Counties, Kentucky.

Delegates are chosen for their outstanding qualities of leadership in farm activities. He is the only exchange delegate from his country. In the past, Kentucky has entertained 23 delegates and 24 4-H members have visited foreign countries under the program.

Some of the outstanding scenes to him were the view of the Ohio River and his first snow. Florez was amazed at our great super market in this country and the fast movement of traffic.

KENTUCKY'S LOW TRUCK LIMITS IMPEDE AMERICA'S PRIMARY TRANSPORTATION SYSTEM

**WHY ARE KENTUCKY TRUCK LIMITS THE LOWEST IN THE NATION?**

Kentucky can't be expected to "do things in a big way" as long as her transportation arteries are throttled by truck limits that are lower than any other state in the Nation! As long as Kentucky continues to impose these discriminatory limitations, her Agriculture, Commerce and Industry will continue to suffer. Let's remove this transportation handicap and let Kentucky compete on a basis that is at least equal to the national average.

EXPRESSION OF THANKS

Words will not express the gratitude and heartfelt thanks we wish to express to our many friends, who helped me to recover after 54 days in the hospital. At times when I failed to respond to medicine, the prayers of friends and churches, the Union Baptist, the Florence Methodist Church, and my own church and pastor, the Rev. Roy Johnson, brought me through a trying crisis.

We wish to express thanks again and again to W. R. Davis and wife also to Mrs. Lillie (Dolly) Webster who never once failed, day or night to be with me if needed.

Again, thanks for the score of reassuring cards and friends who continued sending them through it all. Also those who gave flowers. May God bless every one of you in my prayer. With love to all,
John Delahanty

We would like to take this opportunity to thank our relatives and friends for the many kindnesses shown us during the long illness and passing of our beloved mother Mrs. Martha E. Jones.
We deeply appreciate the cards, flowers and other expressions of sympathy. Especially do we thank Mrs. Aline Ryle and Dr. S. B. Nunneley for their untiring efforts and efficiency; sincere appreciation is extended to the Cason sisters for their message in song.
We also thank the funeral directors, Chambers & Grubbs, the pallbearers and Rev. R. A. Johnson for his consoling words.

Mr. and Mrs. James Yancey announce the birth of their infant daughter Mary Louise, at Booth Hospital, December 7. Mrs. Yancey was the former Mary Frances Briscoe. Congratulations folks.

Chas. Corbin and wife, of Covington were Saturday evening guests of his mother, Mrs. Lillie Corbin, of Main St.

The Women's Auxiliary of Florence Volunteer Fire Dept. will have their regular monthly social Thursday, December 17th at 8:00 p. m. at the Community Center. Every one invited. Pastel pillow slips and sheets will be featured.

Mrs. Jessie Howard, of Cincinnati, was the guest of her mother, Mrs. Melvin Jones one day the past week. Glad to report Mrs. Jones as much improved and was calling on Mrs. Eva Delahunty, Sunday.

Mrs. Nettie Hollis, of near Indianapolis, was in Erlanger for a time recently to assist in the care of her daughter-in-law Mrs. Chas. Hollis, of Erlanger Road, who has been ill. Friends of John Delahunty are pleased to know that he is improv-

ed and returned home during the past week following a period of almost eight weeks hospitalization. He is up part time and states he is very glad to be home. May he improve rapidly.

Recent guests of the Geo. B. Millers were Mr. and Mrs. M. M. Graham, Mrs. Frank Hogan, H. B. Simpson, Blayne Miller and W. H. Baker and daughter Williametta, of Ft. Thomas.

Rev. Roy A. Johnson, pastor of the Florence Baptist Church, and a group of members from the church made their annual visit to the County Home at Burlington, Sunday

afternoon. Rev. Johnson presented a Christmas message and prayer and the group sang carols. The inmates were very appreciative for the service. Through the efforts of Rev. Johnson and others a television set has been installed in the home which is the source of much enjoyment.

Mr. and Mrs. Paul Aylor and Mr.

and Mrs. Geo. Black enjoyed the Thanksgiving holidays with their relatives Mr. and Mrs. Fred Read of Indianapolis.

Christmas carols will be heard at the morning service of the local Methodist Church Dec. 20 at 11:00 and at the evening service the children's choir will sing, followed by a candlelight service.

Covington Man Is Shot Following Dixie Highway Chase Sun.

Victim Attempts To Make Escape On Foot Near Richwood.

Harold Roy Baker, 23, of Scott St., Covington was in St. Elizabeth Hospital this week with a gunshot injury in the leg after he and his companion Franklin Napier, of Philadelphia Street, Covington, tried to escape on foot near Richwood, Sunday night, after a road block had been set up to stop the pair.

Napier is being held in Burlington jail and Baker in St. Elizabeth Hospital, both charged with auto theft.

The auto driven by the pair was stolen on Pike Street, Florence at 10 p. m. Sunday. When it was reported stolen police put the theft on the radio.

State Troopers hearing the broadcast sighted a speeding car on the Dixie Highway and they recognized the license number as being the one described in the broadcast.

The troopers radioed ahead and a road block was set up on the highway south of Erlanger. Baker and Napier who had picked up a hitch-hiking soldier before the chase began, ran around the Erlanger road block.

While the chase continued, a second road block was set up at Richwood. It stopped the car. State police said Napier and Baker jumped from the car and started running through the field.

When they refused to halt upon command, troopers opened fire. After Baker was struck by a bullet, Napier surrendered.

After questioning the soldier who said he was hitch-hiking to his station at Fort Knox, he was released.

Jack Farris, 29, of Cincinnati, who told police he was beaten and robbed early Sunday, identified one of his assailants Monday night as the same man who police had shot near Richwood. Ky. Baker was identified at St. Elizabeth Hospital by Farris.

Farris said that two men forced their way into his automobile Sunday and one pointed a pistol against his back and told him to get into the rear seat. The other robber then drove the machine into the country.

The victim was forced to strip to his underwear. His shoes were taken. One of the men beat Farris over the head with a pistol and struck him in the face. He was then pushed from the automobile.

Clad only in his underwear, Farris walked some distance to the Fairview Inn, Lower River Road, where he collapsed. He was taken to Booth Hospital, Covington, where he was treated for a broken jaw, face cuts and head injuries.

Farris will attempt to identify Napier, who is being held in Burlington jail as the second man in the holdup and beating.

Florence Sewer System Discussed At Tuesday Meeting

Only Solution To Problem Is To Build Sewage Disposal System, Word.

Representatives of the State Board of Health, told residents of Florence attending a show-down discussion of the city's sewage problem Tuesday night of last week, that "it's your problem."

The meeting, held at Florence Community Center, had been called by state officials following numerous complaints and pleas from residents of the city concerning the sewage difficulty.

State men attending the meeting were: Ralph C. Pickard, director of the Division of Public Health Engineering; Louis F. Birkel, executive director of the Kentucky Water Pollution Control Commission, and Eugene F. Perkins, supervisor of the plumbing section, Division of Public Health Engineering, Department of Health.

"You have an over-all situation which has far outstripped problems within the scope of the health department," Mr. Pickard said.

The huge growth of the community is compounding the sewage problem daily, Mr. Pickard said.

Individual suits will have to be brought in complaints against individual property owners whose septic tanks overflow, Mr. Birkel stated.

In a recent postcard poll testing the sentiment in favor of a bond issue for a \$500,000 sewage system for the city a slim majority of one was for the installation.

Again, we wish to thank you, one and all for everything, and extend to you and yours a Merry Christmas and Happy and Prosperous New Year!

A seven-room frame residence owned by Joe Noel, located on Rice Pike near Union, was destroyed by fire early Friday, with loss estimated at \$8,000, according to Florence Volunteer Firemen.

The blaze was caused by a defective flue, it was reported. Mr. Noel was living alone in the home, but escaped safely.

Firemen were unable to determine the cause of the blaze. Florence firemen used their 250-gallon supply from the pumper, then made another trip for more water to douse smoldering embers, which were threatening other property nearby.

Florence firemen answered two other calls late Thursday, one at the home of M. Kent, 22 Russell Street, Florence and Harold Spencer, 249 Main St., Florence. Neither blaze caused much damage, it was reported.

Boone County Over Top In Sales Of U. S. Savings Bonds

Sales for Month of November Totaled \$14,387.00.

Boone County is over the top for 1953 U. S. Savings Bonds, according to a report from the Treasury Department, Louisville, Ky. U. S. Savings Bonds sales for Boone County, through the first eleven months of this year, totaled \$162,575.00; this includes sales of \$14,387.00 during the month of November. For Kentucky as a whole, sales amounted to \$3,379,667 during November, which brought the cumulative total up to \$44,372,918 or 88.9% of the goal of \$49,900,000. All Savings Bonds volunteers joined with Treasury Department officials in expressing the hope that large Christmas sales by the banks to individuals of Series E and H Bonds, would put many of the remaining counties, as well as the State of Kentucky, over their annual goals. Mr. Joseph B. Buenger, Ft.

Thomas, Kentucky, President, Kentucky Bankers Association, summed up the feeling of both volunteers and officials alike, when he urged "all Kentuckians to buy or give at least one U. S. Savings Bond this Christmas as a family gift."

COLLEGE ADVOCATES HOME FRUIT GROWING

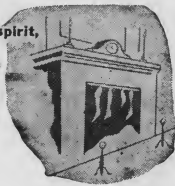

The climate and soils of Kentucky are said to be suited to the growing of a wide variety of fruits. However, many people do not grow them and say they can buy them cheaper. "This is true only when the grower does not properly care for planting," says Dr. Carl E. Chaplin in circular 508, "The Home Fruit Garden," published by the University of Kentucky College of Agriculture and Home Economics. Free for the asking at offices of

county and home agents, the publication deals with the kinds of fruits to grow, planting, soil management, spraying, pruning and other factors in growing small and large fruits for home use.

Florence

Mr. and Mrs. Emerson Smith were Friday evening callers of Mr. and Mrs. R. E. Tanner.

Mrs. Mae Bristow has purchased the home of Mr. and Mrs. Donald Taylor on Lloyd Ave., and with her daughters will move to this new location soon.

Mrs. Pattie Wamsley and children, of Erlanger, were Thursday

afternoon guests of Mr. and Mrs. Geo. Miller.

Mr. and Mrs. Homer Eades and daughter Sally Jo arrived Saturday from Chattanooga, Tenn., to spend his vacation time and the holiday season with relatives here.

The community Christmas tree sponsored by the Florence Rotary Club is the source of much admiration.

Mrs. D. C. Rose, of near Berea, Ky., was in town during the past

week visiting with Mrs. W. R. Miller and Mr. Rose, who is rooming in the Miller home while superintending the building of the Boone County high school with the Derby Construction Co., contractors.

Mr. and Mrs. Clyde Arnold, of Piketon, Ohio, came down to visit Mr. and Mrs. Walter Kirkpatrick and other relatives through the week-end.

With a greeting card we received recently from a relative in Lexington, was a clipping from a publication in that area which stated that Carl Price and his tenant farmer had been robbed of 400 pounds of stripped, "Grade 1-A" tobacco. It was stolen from a barn on the Price farm and was slated to be hauled to market soon. Mr. Price, now residing on a farm near Georgetown, was a resident of Boone and Kenton counties for many years.

Mr. and Mrs. Buddy Arnold were

Sunday guests of her grandfather, Mr. Rankin of Falmouth.

Mr. and Mrs. Geo. Miller had as guests Sunday, Mr. and Mrs. Homer Eades and Sally Jo and Mrs. Maude Graham.

Walter Arnold was visiting in the home of Mr. and Mrs. Norris Riddell Sunday.

Mr. and Mrs. John Delahunty celebrated the 50th anniversary of their marriage Sunday. Their friends extend congratulations and best wishes for many happy returns of the day.

CONSTANCE HOME MAKERS

The Constance Homemakers' Christmas party was held Dec. 3rd at the Brethren Church with Mrs. Gilbert Dolwick and Mrs. James Kottmyer as hostesses.

Mrs. James Clayton and Mrs. Adam Dolwick gave the lesson on "Christmas Gift Suggestions."

Mrs. Orion Erbaugh read the Bible story of the birth of Christ. Mrs. Oliver Kottmyer read another story entitled "The Happiness of Christmas Time." Mrs. Leroy Reeves gave a reading of "Who's Birthday Do We Celebrate."

Luncheon was served at an attractive table decorated with

candles and Christmas decorations.

The afternoon was devoted to games with awards and exchange of Christmas gifts under the supervision of Mrs. Leo Cotton and Mrs. George Loze.

Others in attendance were Mrs. Geo. Kottmyer, Mrs. Elmer Peeno, Mrs. Thos. Kenyon, Mrs. John Hempfling, Mrs. Alfred Dolwick, Mrs. Joe Domashko, Mrs. Richard Kottmyer, Mrs. Henry Gay, Mrs. Henry Kottmyer, Mrs. Margaret Prabel, and Mrs. Laura Frost.

The January meeting will be at the Brethren Church with Mrs. Elmer Peeno and Mrs. Orion Erbaugh as hostesses.

FLORENCE CHRISTIAN CHURCH

The Friendship Class of the Florence Christian Church met at the church and held their regular meeting.

After the business session a Christmas party was held with exchange of gifts. Games, music and a delightful lunch were enjoyed. Everyone departed wishing each a Merry Christmas.

—Publicity Chairman.
